Practical Ethics for Nurses and Nursing Students Kathryn Schroeter, 2002

Delivering comprehensive and ethical patient-centered care is the goal of every nurse and every nursing student. *Practical Ethics for Nurses and Nursing Students* is a concise and easy-to-use reference manual to assist nurses in achieving this practice goal. Although the manual addresses a broad spectrum of clinical situations, the challenge of patient communication underlies every chapter. While evaluative strategies and therapeutic interventions frequently change, communication with patients, their loved ones, and other members of the healthcare team is a timeless and personal art. The concepts described in *Practical Ethics for Nurses and Nursing Students* are as important to patient care as any diagnostic or management technique. When a nurse or nursing student masters the art of communication with patients and has learned to identify and resolve ethical problems, she or he has acquired enduring, career-enhancing skills. Most importantly, she or he will provide better care to patients.

Deborah C Casey Senior Lecturer in Nursing Leeds Metropolitan University UK I believe strongly that there needs to be much greater understanding of moral nursing practice particularly at a time when there has been much negative press regarding poor and undignified patient care along with a failure by nurses to advocate for the frail and vulnerable Education requires appropriate materials to enable those learning about nursing and health care This text succeeds in providing clear explanations of ethics for nurses in relatively plain English that will enable the essentials of moral caring behaviour The reader is encouraged to engage with ethical concepts and principles through think boxes points for consideration and the residents of Oak Avenue that facilitate linking theory to practice Overall the reader is guided from one subject to the next through each chapter in a logical manner that gives a useful perspective to understanding the essentials for moral nursing practice
