**Television, Ethnicity and Cultural Change** Marie Gillespie, 2002-01-04. For ethnic minorities in Britain, broadcast TV provides powerful representations of national and western culture. In Southall, which has the largest population of South Asians outside the Indian subcontinent, the VCR furnishes Hindi films, sacred soaps such as the Mahabharata and family videos of rites of passage as well as mainstream American films. Television, Ethnicity and Cultural Change examines how TV and video are being used to recreate cultural traditions within the South Asian diaspora and how they are also catalysing cultural change in this local community. Marie Gillespie explores how young people negotiate between the parental and peer, local and global, national and international contexts and cultures which traverse their lives. Articulating their own preoccupations with television narratives, they both reaffirm and challenge parental traditions, formulating their own aspirations towards cultural change. Marie Gillespie's in-depth study offers an invaluable survey of how cultures are shaped and changed through people's recreative reception of the media.

**The Single Payer Healthcare System - Faults and Fixes** Henry P. Krahn, 2016-03-04. Despite widespread pride by Canadians about their healthcare delivery system, the unprecedented wait list for diagnosis and treatment leads to needless suffering and avoidable deaths. Provincial government officials dictate a fixed budget for each institution and program, and healthcare providers must adhere to a strict bottom line. To keep a cash-starved system afloat until the end of each fiscal year involves closing beds even though the demand is dire, maintaining an insufficient supply of nursing homes causing a shortage of physicians, nurses and technicians, restricting overtime for all.

employees canceling procedures at the last moment because of shortages and maintaining a scarcity of investigative machinery In *The Single Payer Healthcare System Faults and Fixes* Dr Henry Krahn draws from his long career as a urologist to give an unparalleled inside look at the government's version of socialized medicine He explains the changes that occurred in Manitoba as the province transitioned from a functional and fluid single payer insurance system to the government-managed quagmire of wait lists and scarcity it is today He argues persuasively that by using a single payer non-profit mutual insurance approach with arms length government oversight Canada could create a universal healthcare delivery system that provides affordable high quality treatment within days rather than months The healthcare system should include international healthcare insurance coverage at Canadian rates With extensive examples convincing arguments and a lifetime of experience Dr Krahn points the way towards a system for which Canadians could truly be proud *New York Magazine*, 1985-07-15 *New York magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
