**Ethnic Distinctions, Local Meanings** Mary Rack, 2005-03-20 This innovative book explores the way Western anthropologists use studies of ethnicity to interpret local cultures Mary Rack raises critical issues about ethnic classifications and the way they are used making this a book that will be useful for all students of ethnicity Overturning the generalising tendencies characteristic of classic anthropology Rack demonstrates that ethnic classifications have little to do with the self perceptions of those concerned and everything to do with political and intellectual elites Focusing on a rural area of south China Rack shows how so called ethnic minority cultural events have become occasions for the exploration of personal identity by urban elites She suggests that historically ethnic classifications were drawn up as a result of elite concern to demonstrate the existence of a contrasting homogeneous and superior civilisation This study sheds new light on the ways in which Western anthropologists handle ethnicity and ethnic difference more generally *Ethnic Distinctions, Local Meanings* Mary Rack, 2005-03-20 The book explores what characterises a good life and how this idea has been affected by globalisation and neoliberalism *Forms of Life* Daniel Rueda Garrido, 2023-11-25 Working from the phenomenological tradition the author takes the form of life as the central ontological unit We are our form of life but as a transcendental immanent notion This is not directly equivalent to culture or society but to the realisation in the world of an image of the human being shared by a given community The question explored is the following If the form of life is what gives us being what role does language play Topics explored include the concepts of propaganda and ideology and how these terms always refer to what others say and do never to our own actions and discourses The central part of the book is devoted to an analysis of language itself including propaganda emotions dispositions and racism and racist discourses The book also analyses Vladimir Putin's speeches on the occasion of the Russian war in Ukraine the elements of their propaganda and the justifying elements that are part of their ethical discourse whereby actions taken or to be taken are justified as good because they are necessary from their ontological principle **Narrating Southern Chinese Minority Nationalities** Guo Wu, 2019-01-19 Based on fieldwork archival research and interviews this book critically examines the building of modern Chinese discourse on a unified yet diverse Chinese nation on various sites of knowledge production It argues that Chinese ideology on minority nationalities is rooted in modern China's quest for national integration and political authority However it also highlights the fact that the complex process of conceptualizing investigating classifying curating and writing minority history has been fraught with disputes and contradictions As such the book offers a timely contribution to the current debate in the fields of twentieth century Chinese nationalism minority policy and anthropological practice [Hmong-Related Works, 1996-2006](#) Mark Edward Pfeifer, 2007-09-13 The Hmong pronounced mong in English are a mountain dwelling subgroup of the Miao of southwest China In the 18th and 19th centuries the Hmong began migrating southeast to Vietnam Laos and Thailand Then in the second half of the 20th century due mainly to their participation in the Second Indochina War 1954-1975 the Hmong

began migrating to the West Today the Hmong are one of the fastest growing ethnic origin populations in the United States growing from about 94 000 in the 1990 census to about 190 000 in the U S census bureau s 2005 American Community Survey With this rapid expansion in the population a substantially increased interest in Hmong related written works multimedia materials and websites among students scholars service professionals and the general public has arisen To help meet that interest author Mark E Pfeifer has compiled Hmong Related Works 1996 2006 An Annotated Bibliography which includes full reference information including internet links to articles where available and descriptive summaries for 610 Hmong related works

*The Art of Symbolic Resistance* Joanne N. Smith Finley,2013-09-12 Against the background of the r mchi riots July 2009 this book provides a longitudinal study of contemporary Uyghur identities and Uyghur Han relations Previous studies considered China s Uyghurs from the perspective of the majority Han state or people Conversely The Art of Symbolic Resistance considers Uyghur identities from a local perspective based on interviews conducted with group members over nearly twenty years Smith Finley rejects assertions that the Uyghur ethnic group is a creation of the Chinese state suggesting that contemporary Uyghur identities involve a complex interplay between long standing intra group socio cultural commonalities and a more recently evolved sense of common enmity towards the Han This book advances the discipline in three senses from a focus on sporadic violent opposition to one on everyday symbolic resistance from state to local representations and from a conceptualisation of Uyghurs as victim to one of creative agent

*Critical Han Studies* Thomas Mullaney,James Patrick Leibold,Stéphane Gros,Eric Armand Vanden Bussche,2012-02-15 Constituting over ninety percent of China s population Han is not only the largest ethnonational group in that country but also one of the largest categories of human identity in world history In this pathbreaking volume a multidisciplinary group of scholars examine this ambiguous identity one that shares features with but cannot be subsumed under existing notions of ethnicity culture race nationality and civilization

**Religion, Ethnicity, and Gender in Western Hunan during the Modern Era** Paul R. Katz,2021-08-20 This book explores how beliefs and practices have shaped the interactions between different ethnic groups in Western Hunan as well as considering how religious life has adapted to the challenges of modern Chinese history

Combining historical and ethnographic methodologies chapters in this book are structured around changes that occurred during the interaction between Miao ritual traditions and religions such as Daoism with particular focus on the commonalities and differences seen between Western Hunan and other areas of Southwest China In addition investigation is made into how gender and ethnicity have shaped such processes and what these phenomena can teach about larger questions of modern Chinese history As such this study transcends existing scholarship on Western Hunan which has stressed the impact of state policies and elite agendas by focusing instead on the roles played by ritual specialists Such findings call into question conventional wisdom about the standardization of Chinese culture as well as the integration of local society into the state by means of written texts Religion Ethnicity and Gender in Western Hunan during the Modern Era will prove valuable to students and scholars of history ethnography anthropology ethnic studies and Asian studies more broadly

*Anthropos*, 2007 Faiths on Display Tim Oakes, Donald S. Sutton, 2010-10-16 By providing a unique perspective on China's changing relationship with religion this groundbreaking book explores the role the Chinese state continues to play in religious revival today Over the past several decades China has experienced a rapid expansion of religious spaces and activities More recently a growing middle class urban society has fueled an upsurge in Chinese domestic tourism Faiths on Display challenges the common separation of religious and tourist activities showing how these practices overlap and blend together A group of leading scholars explores the unlikely interaction between these exuberant phenomena finding a surprisingly clear lens through which to view a rapidly transforming society Even the most casual observer is struck by the Chinese rediscovery of traditional culture particularly at revived religious festivals and pilgrimages in suburbs rural areas and at China's margins where religious practices of ethnic minorities attract particular tourist attention A set of fascinating case studies shows how state organizations are helping revive sacred spaces as exploitable sites for tourism development and revenue generation While this may appear to be a straightforward collision of Chinese tradition with modernization the contributors argue that the results of combining religion and tourism offer important insights not only into the practice of religion and the rise of leisure culture in contemporary China but also into the changing and contested nature of state governance The policies of an authoritarian modernizing state obviously influence both religion and tourism but religious practices the book clearly illustrates tend to slip out of state control and tourist tastes push development into directions not anticipated or welcomed by the state Contributions by Kenneth Dean Brian R. **Marginalization in China** Joseph Tse-Hei Lee, Lida V. Nedilsky, 2009-06-22 Bringing together historians sociologists and political scientists this volume documents persistent prejudices against consistently marginal groups in China and the moral claims they have mustered in response *The Aid Effect* David Mosse, David Lewis, 2005-10-20 Today international development policy is converging around ideas of neoliberal reform democratisation and poverty reduction What does this mean for the local and international dimensions of aid relationships *The Aid Effect* demonstrates the fruitfulness of an ethnographic approach to aid policy reform and global governance The contributors provide powerful commentary on hidden processes multiple perspectives or regional interests behind official aid policy discourses The book raises important questions concerning the systematic social effects of aid relationships the nature of sovereignty and the state and the working of power inequalities built through the standardisations of a neoliberal framework The contributors take on new challenges to anthropology presented by a global aid architecture which no longer operates through discrete projects but has moved on to sector wide approaches budgetary support and other macro level instruments of development but they remain faithful to the fieldwork methodology that is anthropology's strength and the source of rare insight
