,1992 **Parameters** ,1995 *Democratisation and the Prevention of Violent Conflict* Jenny Engström, 2016-12-05

Challenging the often held belief that democratization necessarily leads to aggressive ethnic nationalism and even violent conflict this book offers an alternative account of democratization and inter ethnic relations It suggests that democratization can in fact help to prevent violent conflict in divided societies as demonstrated by two case studies Bulgaria and Macedonia At a time when democracy promotion is increasingly becoming part of international relations and foreign policy this study offers some poignant lessons for democratization and conflict resolution in places such as Iraq Afghanistan and Israel

Palestine to name but a few Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture **The Nanxun Legacy And China's Development In The Post-deng Era** John

Wong, Yongnian Zheng, 2001-06-14 In the spring of 1992 Deng Xiaoping made a historical tour of south China popularly known as the Nanxun southern tour During the tour he boldly called for more radical economic reform and further opening up of China The Nanxun has become a political landmark in the history of the People s Republic of China much like great

events such as the Great Leap Forward the Cultural Revolution and the 1989 Tiananmen crackdown Deng Xiaoping has left his own legacy for the country The Nanxun belongs to Deng just as the 1911 revolution belongs to Sun Yat sen and the communist revolution to Mao Zedong In this collection of articles leading China scholars and experts analyze how the Nanxun has sparked off dynamic economic growth in China and drastically changed the political and social landscape of the country

*Political Elites and the New Russia* Anton Steen, 2004-06-01 Political Elite and the New Russia convincingly argues that although reforms in Russia have been initiated by those close to the President in fact local and national elites have been the crucial strategic actors in reshaping Russia's economy democratising its political system and decentralising its

administration This book analyses the role of elites under Yeltsin and Putin discussing the extent to which they form a coherent political culture and how far this culture has been in step with or at odds with the reform policies of the Kremlin leadership

Bulgaria's Democratic Institutions at Thirty Kjell Engelbrekt, Petia Kostadinova, 2020-05-21 Thirty years after Bulgaria's democratic breakthrough this book provides a balance sheet of the country's democratic institutions through a number of interdisciplinary contributions The volume is organized around three themes democratic institutions civil society and European Union EU processes and examines such topics such as voting political parties populism media civil society organizations identity and the rule of law While the contributors argue that Bulgaria's democracy is successful in terms of the procedural norms of democracy civic participation and compliance with EU rules they also identify serious problem areas Bulgaria's democratic institutions struggle with obstacles such as populist Euroscepticism political elitism corruption and a lack of political accountability though this volume fully acknowledges the historical development of Bulgarian democracy including its achievements and continuing setbacks

**The Art of Symbolic Resistance** Joanne N. Smith Finley, 2013-09-12 Against the background of the r mchi riots July 2009 this book provides a longitudinal study of contemporary Uyghur identities and Uyghur Han relations Previous studies considered China s Uyghurs from the perspective

of the majority Han state or people Conversely The Art of Symbolic Resistance considers Uyghur identities from a local perspective based on interviews conducted with group members over nearly twenty years Smith Finley rejects assertions that the Uyghur ethnic group is a creation of the Chinese state suggesting that contemporary Uyghur identities involve a complex interplay between long standing intra group socio cultural commonalities and a more recently evolved sense of common enmity towards the Han This book advances the discipline in three senses from a focus on sporadic violent opposition to one on everyday symbolic resistance from state to local representations and from a conceptualisation of Uyghurs as victim to one of creative agent

**The Labors of Sisyphus** Joan Roland, 2017-07-05 Almost a half century has passed since the inception of the People's Republic of China In that time a charismatic leader has ruled and died leaving a wake of Destruction in his quest to transform China In that time too the PRC's most powerful ally and mentor the Soviet Union has dismantled and announced that communism had failed Today China fluctuates between tradition and modernity ideology and pragmatism between an antiquated collectivist ethic and a new spirit of individualism It is a country precariously suspended between past and future Maria Hsia Chang's The Labors of Sisyphus is a long overdue reassessment of the meaning and purpose of the Chinese communist revolution In it she discusses the thought of Mao Zedong and Deng Xiaoping reform and its dilemmas regionalism in greater China and autonomous areas and nationalism She also examines China's immediate present and uncertain future If it manages to transform economic growth into development China filled with natural resources and a large capable labor force has the potential to become a world superpower It could also collapse under the weight of its own problems regionalism a flawed state sector corruption and a pronounced decline in state capacity If China succeeds an imposing new economic power will enter the global stage one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform Prior accounts of communist China have failed to capture China's evolving present In all its complexity and variety misrepresenting Maoist China In the process Information shortfall was partly to blame as recently as August 1994 the Chinese government itself decried falsification of statistics by government officials and cadres Sinologists in the 1960s and 1970s had to approach analysis of contemporary China with clear recognition of the limitations involved and the questionable validity of the factual sources available Maria Hsia Chang lends structure meaning and purpose to the very complex recent political and historical past of communist China With greater access to more accurate information Chang is able to analyze objectively without political motive or intention providing readers with a fresh look at the People's Republic Her pathbreaking work will be of interest to scholars of international economics and politics sinologists and historians

**The Labors of Sisyphus** Maria Hsia Chang, 1999-10-01 Maria Hsia Chang's The Labors of Sisyphus is a reassessment of the meaning and purpose of the Chinese communist revolution In it she discusses the thought of Mao Zedong and Deng Xiaoping reform and its dilemmas regionalism in greater China and autonomous areas and nationalism She also examines China's immediate present and uncertain future If it manages to transform economic growth into development

China filled with natural resources and a large capable labor force has the potential to become a world superpower. It could also collapse under the weight of its own problems: regionalism, a flawed state sector, corruption, and a pronounced decline in state capacity. If China succeeds, an imposing new economic power will enter the global stage, one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform.

**Tajikistan** Kirill Nourzhanov, Christian Bleuer, 2013-10-08 This book is a historical study of the Tajiks in Central Asia from the ancient times to the post Soviet period. For millennia these descendants of the original Aryan settlers were part of many different empires set up by Greek, Arab, Turkic, and Russian invaders, as well as their own, most notably during the Middle Ages. The emergence of the modern state of Tajikistan began after 1917 under Soviet rule and culminated in the promulgation of independence from the moribund USSR in 1991. In the subsequent civil war that raged between 1992 and 1997, Tajikistan came close to becoming a failed state. The legacy of that internal conflict remains critical to understanding politics in Tajikistan a generation later. Exploring the patterns of ethnic identity and the exigencies of state formation, the book argues that despite a strong sense of belonging underpinned by shared history, mythology, and cultural traits, the Tajiks have not succeeded in forming a consolidated nation. The politics of the Russian colonial administration, the national territorial delimitation under Stalin, and the Soviet strategy of socio-economic modernisation contributed to the preservation and reification of sub-ethnic cleavages and regional identities. The book demonstrates the impact of region-based elite clans on Tajikistan's political trajectory in the twilight years of the Soviet era and identifies objective and subjective factors that led to the civil war. It concludes with a survey of the process of national reconciliation after 1997 and the formal and informal political actors, including Islamist groups who compete for influence in Tajik society.

**Tajikistan: A Political and Social History** is the best source of information on this important country in the English language. Drs Nourzhanov and Bleuer present a comprehensive yet detailed account of the past and prospects of this emerging nation and have filled one of the major gaps in Central Asian scholarship. This book must be read by those who wish to grasp the vagaries of Central Asia's evolving political and cultural landscapes.

Reuel Hanks, Professor of Geography, Oklahoma State University and Editor of the *Journal of Central Asian Studies*. If Tajikistan is known outside its region, it is often for the civil war that gravely damaged it. This volume authoritatively provides the longer perspective to the unsettling events of the 1990s and skilfully explains them in terms of history, social structure, and sub-state identities. In addition to highlighting a wealth of local factors, it is insightful on the ways in which antagonists can be transformed into broader ethnic and regional blocs.

Kirill Nourzhanov and Christian Bleuer are erudite guides to an understudied part of Central Asia while astutely instructing us about larger patterns of state-society relations and their impact on the logic of conflict.

James Piscatori, Professor of International Relations, Durham University

**The Formation of the Uzbek Nation-state** Anita Sengupta, 2003-01-01 The Formation of the Uzbek Nation State is a detailed and insightful examination of the process of nation-state formation in the Central Asian region in the post-October revolution period based on a case

study of Uzbekistan Author Anita Sengupta examines the role of language and religion in the formation of the Uzbek nation state and demonstrates the continuous transition involved in such a process
