**Yijin Wang**

## **Ethnicity And Psychopharmacology Volume 194:**

**Psychopharmacology Bulletin** ,1986      Psychopharmacology Bulletin ,1996      **Psychopharmacology Abstracts** ,1981      **The Creation of Psychopharmacology** David Healy,2009-07 David Healy follows his widely praised study *The Antidepressant Era* with an even more ambitious and dramatic story the discovery and development of antipsychotic medication Healy argues that the discovery of chlorpromazine more generally known as Thorazine is as significant in the history of medicine as the discovery of penicillin reminding readers of the worldwide prevalence of insanity within living memory But Healy tells not of the triumph of science but of a stream of fruitful accidents of technological discovery leading neuroscientific research of fierce professional competition and the backlash of the antipsychiatry movement of the 1960s A chemical treatment was developed for one purpose and as long as some theoretical rationale could be found doctors administered it to the insane patients in their care to see if it would help Sometimes it did dramatically Why these treatments worked Healy argues provocatively was and often still is a mystery Nonetheless such discoveries made and unmade academic reputations and inspired intense politicking for the Nobel Prize Once pharmaceutical companies recognized the commercial potential of antipsychotic medications financial as well as clinical pressures drove the development of ever more aggressively marketed medications With verve and immense learning Healy tells a story with surprising implications in a book that will become the leading scholarly work on its compelling subject      *Addiction Reviews 2, Volume 1187* George R. Uhl,2010-03-22 This volume features expert refereed reviews of timely topics in each of the areas relevant to addiction science and clinical practice to aid researchers and practitioners interested in addictions Authors from the United States EU Asia and elsewhere provide an international perspective on the problems and practices Specifically this volume focuses on topics that are relevant to specific substances but also provides important lessons for addiction to all substances provides reviews that are aimed to be useful to specialists in the field and as useful to students as the first criterion allows NOTE Annals volumes are available for sale as individual books or as a journal For information on institutional journal subscriptions please visit [www.blackwellpublishing.com/nyas](http://www.blackwellpublishing.com/nyas) ACADEMY MEMBERS Please contact the New York Academy of Sciences directly to place your order [www.nyas.org](http://www.nyas.org) Members of the New York Academy of Science receive full text access to the Annals online and discounts on print volumes Please visit <http://www.nyas.org/MemberCenter/Join.aspx> for more information about becoming a member      Handbook of Psychological Assessment, Case Conceptualization, and Treatment, Volume 2 Michel Hersen,David Reitman,2008-05-13 Edited by recognized experts Michel Hersen and David Reitman *Handbook of Psychological Assessment Case Conceptualization and Treatment Volume 2 Children and Adolescents* is a thorough and practical reference for those working with children and adolescents Bringing together the most current theories and evidence based applications chapters address issues of importance including depressive disorders substance use disorders and childhood psychosis Each chapter follows a structured format opening with an overview of assessment followed by case

conceptualization and finally recommended treatment

**Annual Review of Gerontology and Geriatrics, Volume 32,**

**2012** Bert Hayslip, Jr., 2012-02-01 This collection is a timely and excellent contribution to the study of resilience and the field of gerontology Anthropology and Aging Quarterly This state of the science multidisciplinary Annual Review of Gerontology and Geriatrics provides a comprehensive examination of critical issues on resilience in a variety of life domains central to the well being of older persons It examines the role of resilience in determining adjustment and function in the domains of health grief and bereavement physical activity and functioning spirituality work retirement intellectual cognitive functioning coping with life events care giving and mental health interventions The first section of the book addresses such domains of resilience as immunological function stress and mood disorders emotional and cognitive resilience adjustment to cultural and environmental changes and spirituality Section two is concerned with practical applications of resilience A developmental family perspective is used to examine differences in adaptation to age related challenges The role of resilience in geriatric rehabilitation is discussed as is adaptive coping in regard to loss and trauma The text also explores resilience in regard to career management retirement and volunteerism considers resilience as a component of health in regard to public policy and examines exemplary public health programs and policies and the relationship of resilience to health care finance Also addressed is resilience in caregiving as a mutually beneficial process clinical interventions that enhance resilience and resilience from a lifespan developmental perspective Key Features Synthesizes the best current research in the field with direct practice implications Addresses resilience in regard to immunological function emotional and cognitive resilience and spirituality Explores the role of resilience in geriatric rehabilitation career management and retirement person environ fit and public health and policy Examines directions for future research and resilience oriented interventions *Brief*

*Interventions for Psychosis* Basant Pradhan, Narsimha Pinninti, Shanaya Rathod, 2016-06-10 This book offers a clinical guide that brings together a broad range of brief interventions and their applications in treating psychosis It describes two core approaches that can narrow the current substantial gap between the need for psychotherapeutic interventions for all individuals suffering from psychosis and the limited mental health resources available The first approach involves utilizing the standard therapeutic modalities in the context of routine clinical interactions after adapting them into brief and effective formats To that end the book brings in experts on various psychotherapeutic modalities who discuss how their particular modality could be adapted to more effectively fit into the existing system of care delivery The second approach addressed in detail is to extend the availability of these brief interventions by utilizing the circle of providers as well as the social circle of the clients so that these interventions can be provided in a coordinated and complementary manner by psychiatrists psychologists clinical social workers case managers peer support specialists and other providers on the one hand and by family members friends social and religious institutions on the other Practical Psychopharmacology Joseph F.

Goldberg, Stephen M. Stahl, 2021-04-29 Despite the lack of guidance available for practitioners extensive polypharmacy has

become the primary method of treating patients with severe and chronic mood anxiety psychotic or behavioral disorders This ground breaking new book provides an overview of psychopharmacology knowledge and decision making strategies integrating findings from evidence based trials with real world clinical presentations It adopts the approach and mind set of a clinical investigator and reveals how prescribers can practice bespoke psychopharmacology tailoring care to the individualized needs of patients Practitioners at all levels of expertise will enhance their ability to devise rationale based treatments targeting manifestations of dysfunctional neural circuitry and dimensions of psychopathology that cut across conventional psychiatric diagnoses Presented in a user friendly practical full colour layout and incorporating summary tables bullet points and illustrative case vignettes it is an invaluable guide for all healthcare professionals prescribing psychotropic medications including psychiatry specialists primary care physicians and advanced practice registered nurses

Tobacco Use Among United States Racial/ethnic Minority Groups United States. Department of Health and Human Services,1998 This Surgeon General s report on tobacco use summarizes current information on risk factors and patterns related to tobacco use among members of four major racial and ethnic minority groups in the United States African Americans American Indians and Alaska Natives Asian Americans and Pacific Islanders and Hispanics In addition this report presents information on national and regional efforts to curtail consumption of tobacco products among members of these four groups Previous Surgeon General s reports on smoking and health have briefly summarized findings related to one or more of the racial ethnic groups covered in this report but this is the first Surgeon General s report to concentrate specifically on the four major racial ethnic groups in the United States Several factors prompted the development of this report First the information in this report has never before been compiled in one source Consequently policymakers community leaders researchers and public health workers have had difficulty determining the extent of the problem identifying gaps in in\_ formation regarding tobacco use among members of the four groups or being aware of existing tobacco con\_ trol programs that have demonstrated effectiveness Thus incorporating such information into the design and implementation of culturally appropriate services has been difficult Second the four racial ethnic groups currently constitute about one fourth of the population of this country and the Bureau of the Census projects that by 2050 the non Hispanic white population in the United States will total only 53 percent Day 1996 Prevent\_ ing health problems related to tobacco use among the individuals in racial and ethnic groups will be integral to achieving U S public health objectives such as those proposed in Healthy People 2000 National Health Promotion and Disease Prevention Objectives U S Department of Health and Human Services USDHHS 1991 1995 National Center for Health Statistics NCHS 1994 This report contributes essential knowledge that must be incorporated into efforts to accomplish the Healthy People 2000 objectives

Tobacco Use Among U. S. Racial/Ethnic Minority Groups David Satcher,1999-04
