Crime and Justice Michael H. Tonry, 1997 **Race, Ethnicity, Crime and Criminal Justice in the Americas** A. Kalunta-Crumpton, 2012-01-25 This book examines race ethnicity crime and criminal justice in the Americas and moves beyond the traditional focus on North America to incorporate societies in Central America South America and the Caribbean Migration, Culture Conflict and Crime Joshua D. Freilich, Moshe Addad, 2017-10-05 This title was first published in 2002 The issue of immigration and crime in all of its many contexts and forms is a problem which affects numerous countries throughout the world In many countries immigrants have been accused of disproportionate involvement in crime while in others immigrants are often claimed to be the victims of criminal offenders as well as indifferent criminal justice systems The subjects covered within this informative collection include the offending and victimization rates of immigrants and their dependants institutional racism human trafficking smuggling and ethnic conflicts In particular the problems faced by female immigrants are addressed in detail Whilst some papers look at the issues facing particular countries such as Germany the United Kingdom Australia Israel and Turkey others adopt a more comparative approach Migration Culture Conflict and Crime is an essential and compelling read for all those with a strong interest in this important area Not only does it significantly advance our scientific knowledge concerning the relationship between immigration crime and justice but it also sets forth a number of proposals which if implemented could address many of the problems found in these areas

*Simulation Strategies to Reduce Recidivism* Faye S. Taxman, April Pattavina, 2013-06-05 The use of simulation modeling in criminal justice dates back to the 1970s Early models were developed to capture the realities of the criminal justice system to identify what changes were needed and how small changes would affect the overall picture Significant time and effort were devoted to these projects and although they achieved some success the complex nature of the criminal justice system and the difficulties associated with improving and maintaining the models prohibited wide spread adoption in the field Some

of the problems with early simulation projects were the lack of data to validate models the lack of technical skills needed by staff to design and build the models and the technical difficulties with software programming to transform models into computerized representations As simulation modeling has becoming a more popular technique across many disciplines and technology as well as the technical skills of researchers has improved this book revisits the concept of simulation modeling with new applications for the criminal justice system The wider availability of data has made for more opportunity to verify and validate models computing software has become more available and easier to use and the capacity for visualization and communication of models shows promise for the future of simulation in criminal justice The time has come to examine the past present and future contributions of simulation modeling to the field of criminal justice This work provides a central resource of information for the current state of simulation modeling and overview of existing techniques and cases of success and directions for future development This work will be an important resource for researchers in criminal justice and related fields as well as those studying policy related topics

*The Borders of Punishment* Katja Franko Aas, Mary Bosworth, 2013-07-11 The Borders of Punishment Migration Citizenship and Social Exclusion critically assesses the relationship between immigration control citizenship and criminal justice It reflects on the theoretical and methodological challenges posed by mass mobility and its control and for the first time sets out a particular sub field within criminology the criminology of mobility Drawing together leading international scholars with newer researchers the book systematically outlines why criminology and criminal justice should pay more attention to issues of immigration and border control Contributors consider how traditional criminal justice institutions such as the criminal law police and prisons are being shaped and altered by immigration as well as examining novel forms of penalty such as deportation and detention facilities which have until now seldom featured in criminological studies and textbooks In so doing the book demonstrates that mobility and its control are matters that ought to be central to any understanding of the criminal justice system Phenomena such as the controversial use of immigration law for the purposes of the war on terror closed detention centres deportation and border policing raise in new ways some of the fundamental and enduring questions of criminal justice and criminology What is punishment What is crime What should be the normative and legal foundation for criminalization for police suspicion for the exclusion from the community and for the deprivation of freedom And who is the subject of rights within a society and what is the relevance of citizenship to criminal justice

**International Handbook of Violence Research** Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual especially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage

**The Handbook of Crime and Punishment** Michael Tonry, 2000-11-09 Crime is one of the most significant political issues in contemporary American society Crime control statistics and punishment policies are subjects of constant partisan debate while the media presents sensationalized stories of criminal activity and overcrowded prisons In the highly politicized arena of crime and justice empirical data and reasoned analysis are often overlooked or ignored The Handbook of Crime and Punishment however

provides a comprehensive overview of criminal justice criminology and crime control policy thus enabling a fundamental understanding of crime and punishment essential to an informed public Expansive in its coverage the Handbook presents materials on crime and punishment trends as well as timely policy issues The latest research on the demography of crime race gender drug use is included and weighty current problems organized crime white collar crime family violence sex offenders youth gangs drug abuse policy are examined Processes and institutions that deal with accused and convicted criminals and techniques of punishment are also examined While some articles emphasize American research findings and developments others incorporate international research and offer a comparative perspective from other English speaking countries and Western Europe Editor Michael Tonry a leading scholar of criminology introduces the 28 articles in the volume each contributed by an expert in the field Designed for a wide audience The Handbook is encyclopedic in its range and depth of content yet is written in an accessible style The most inclusive and authoritative work on the topic to be found in one volume this book will appeal to those interested in the study of crime and its causes effects trends and institutions those interested in the forms and philosophies of punishment and those interested in crime control

**Integrating a Victim Perspective within Criminal Justice** Adam Crawford, Jo Goodey, 2019-11-12 As numerous academic and political commentators have noted the implications of introducing a victim's perspective into the delicate balance between state and offender is likely to be a key issue in the future of criminal justice This book seeks to outline the contours of the relevant debates drawing together contributions from prominent international and national commentators from areas including criminology law philosophy social policy politics and sociology

*New Directions in Criminological Theory* Steve Hall, Simon Winlow, 2012-06-25 This edited collection brings together established global scholars and new thinkers to outline fresh concepts and theoretical perspectives for criminological research and analysis in the 21st century Criminologists from the UK USA Canada and Australia evaluate the current condition of criminological theory and present students and researchers with new and revised ideas from the realms of politics culture and subjectivity to unpack crime and violence in the precarious age of global neoliberalism These ideas range from the micro realm of the personality disorder to the macro realm of global power crime Rejecting or modifying the orthodox notion that crime and harm are largely the products of criminalisation and control systems these scholars bring causes and conditions back into play in an eclectic yet thematic way that should inspire students and researchers to once again investigate the reasons why some individuals and groups elect to harm others rather than seek sociability This collection will inspire new criminologists to both look outside their discipline for new ideas to import and to create new ideas within their discipline to reinvigorate it and further strengthen its ability to explain the crimes and harms that we see around us today This book will be of particular interest to academics and both undergraduate and postgraduate students in the field of criminology especially to those looking for theoretical concepts and frameworks for dissertations theses and research reports

*Cultures of Desistance* Adam Calverley,2013 In contrast to the widespread focus on ethnicity in relation to engagement in offending the question of whether or not processes associated with desistance that is the cessation and curtailment of offending behaviour vary by ethnicity has received less attention This is despite known ethnic differences in factors identified as affecting disengagement from offending such as employment place of residence religious affiliation and family structure providing good reasons for believing differences would exist This book seeks to address this oversight Using data obtained from in depth qualitative interviews it investigates the processes associated with desistance from crime among offenders drawn from some of the principal minority ethnic groups in the United Kingdom *Cultures of Desistance* explores how structural families friends peer groups employment social capital and cultural religion values recognition ethnic differences affected the environment in which their desistance took place For Indians and Bangladeshis desistance was characterised as a collective experience involving their families actively intervening in their lives In contrast Black and dual heritage offenders desistance was a much more individualistic endeavour The book suggests a need for a research agenda and justice policy that are sensitive to desisters structural location and for a wider culture which promotes and supports desisters efforts

**Criminal Justice Ethics** Cyndi Banks,2012-03-12 The importance of ethics in criminal justice Ethics and the police Racial discrimination in the criminal justice system Lawyers and ethics The purpose of criminal punishment Ethics in Corrections The ethics of criminal justice policy making Ethics and the war on terrorism Media ethics and criminal justice Duty and principle Considering the consequences The importance of character Egoism pleasure and indifference A sense of justice Caring for others

nation are followed by European experiences of Moluccan Christians in the Netherlands Pattikayhatu Western Muslims van Bommel and the Belgian modus vivendi Van der Borcht The collection is completed by the theological reflections about the concept *communio sanctorum* Le Bruyns the Enlightenment's ideal of equality van de Beek and the unity of the church Theron
