aftermath has received considerable scholarly attention The study of Jewish life in Germany in the 1930s and the migration impelled by the Nazi period has on the other hand been comparatively neglected The work of Werner J Cahnman 1902 1980 goes a long way toward filling this gap Cahnman s examination of the Jewish people that dwells among the nations is focused on Germany because it was the country where in modern times the symbiosis has been most intimate and it also has been the country where the conflict degenerated into the monstrosity of the Holocaust This representative anthology of his essays shares a common theme although the examples differ in thought method and style Whether he explores the stratification of pre Emancipation German Jewry the rise of the Jewish national movement in Austria or such an esoteric topic as the influence of the kabbalistic tradition on German idealist philosophy whether he muses on the writing of Jewish history or reports on his firsthand experience in Dachau Cahnman s work reflects central concerns of his personal and scholarly existence as a German Jew Because he usually combined extensive empirical data with his own background and personal experience he is able to craft a penetrating analysis of the recent history of Jewish life in Central Europe Werner Cahnman believed that the writing of history is vital for the continued cultural identity of the human kind

Jewish Centers and Peripheries Selwyn Ilan Troen, After World War II the center of gravity for world Jewry moved outside Europe In the aftermath of the Holocaust large scale emigration and postwar assimilation resulted in a disheartening contraction of European Jewry with the notable exception of France Today Europe's Jews number only 17 percent of the world Jewish population At the beginning of this century they comprised 83 percent and were the center of the modern Jewish experience In a radical reversal former peripheries became the centers notably American Jewry the largest and most dynamic of the Diaspora communities and the State of Israel An examination of the altered place of Europe and its future role in Jewish history is long overdue In *Jewish Centers and Peripheries* S Han Troen presents evidence of cultural renewal and community reorganization both internally driven and supported by Israeli and American based Jewish organizations which promise to assure the continuity and vitality of Jewish life in Europe This volume presents the contributions of scholars senior community professionals lay leaders and former diplomats from Europe Israel and America including Yosef Gorny Gabriel Sheffer Rashid Kaplanov Barry Kosmin Ralph Goldman Jean Jacques Wahl Israel Finestein David Patterson and Daniel Elazar These original and thoughtful contributions examine dynamic relationships among European American and Israeli communities at times bringing personal knowledge of significant events pertinent to understanding these relationships Collectively they suggest that present conditions are ripe for the reemergence of European Jewry though on a scale much diminished from that of the pre Holocaust period Moreover the prospects for the rejuvenation of European Jewry mirror the possibilities for Jewish continuity everywhere *Jewish Centers and Peripheries* is a strikingly informative assessment of the condition of world Jewry at the close of the century

American Pluralism and the Jewish Community Seymour Martin Lipset, In a landmark volume of new essays destined to reshape the parameters of future discourse on American Jews and their relationships to major ideologies and organization of our time Lipset has brought together many of the finest social analysts of Jewish life both in the United States and overseas Indeed Canadian and Israeli perspectives add a comparative dimension that increases the special value of this book S N Eisenstadt calls attention in his opening chapter to the thrust of the volume as a whole a focus on the most distinguishing aspect of the American Jewish experience the incorporation of Jews into all arenas and aspects of American life and the effects of such incorporation on the structuring of Jewish life and self perception The work emphasizes the burgeoning of Jewish institutions the visibility and acceptability of such institutions and the changing Jewish definition of their collective identity The work is conceived of as Festschrift essays in honor of Earl Raab Thus the work has a community dimension that typifies Raab's work The four essays in the final segment California is Different will come as a pleasant bonus in a work that otherwise features the more global dimensions of Jewish life in America The first section on the North

American Community features essays by S N Eisenstadt Nathan Glazer Arnold Eisen Chaim Waxman and Morton Weinfield The second section on Politics contains contributions by Irving Kristol Carl Sheingold Eyton Gilboa and Alan Fisher The third segment is on Jewish Community Life with essays by Daniel Elezar Larry Ruben and Arnold Dashevsky This is in short a major collective statement by scholars long associated with the subject It will be of interest to political scientists and sociologists interested in ethnic studies and Jewish life in America Class, Networks, and Identity Rhonda F. Levine, 2001 This book documents a little known aspect of the Jewish experience in America It is a fascinating account of how a group of Jewish refugees from Nazi Germany came to dominate cattle dealing in south central New York and maintain a Jewish identity even while residing in small towns and villages that are overwhelmingly Christian The book pays particular attention to the unique role played by women in managing the transition to the United States in helping their husbands accumulate capital and in recreating a German Jewish community Yet Levine goes further than her analysis of German Jewish refugees She also argues that it is possible to explain the situations of other immigrant and ethnic groups using the structure network identity framework that arises from this research According to Levine situating the lives of immigrants and refugees within the larger context of economic and social change but without losing sight of the significance of social networks and everyday life shows how social structure class ethnicity and gender interact to account for immigrant adaptation and mobility

Jewish Survival Ernest Krausz, Gitta Tulea, These essays address Jewish identity Jewish survival and Jewish continuity The authors account for and analyze trends in Jewish identification and the reciprocal effects of the relationship between the Diaspora and Israel at the end of the twentieth century Jewish identification in contemporary society is a complex phenomenon Since the emancipation of Jews in Europe and the major historic events of the Holocaust and the establishment of the State of Israel there have been substantial changes in the collective Jewish identity As a result Jewish identity and the Jewish process of identification had to confront the new realities of an open society its economic globalization and the impacts of cultural pluralism The trends in Jewish identification are toward fewer and weaker points of attachment fewer Jews who hold religious beliefs with such beliefs held less strongly less religious ritual observance attachment to Zionism and Israel becoming diluted and ethnic communal bonds weakening Jews are also more involved in the wider society in the Diaspora due to fewer barriers and less overt anti-Semitism This opens up possibilities for cultural integration and assimilation In Israel too there are signs of greater interest in the modern world culture The major questions addressed by this volume is whether Jewish civilization will continue to provide the basic social framework and values that will lead Jews into the twenty first century and ensure their survival as a specific social entity The book contains special contributions by Professor Julius Gould and Professor Irving Louis Horowitz and chapters on Sociological Analysis of Jewish Identity Jewish Community Boundaries and Factual Accounts from the Diaspora and Israel The Rise and Fall of the Ethnic Revival Joshua A. Fishman, Michael H. Gertner, Esther G. Lowy, William G. Milán, 2013-02-06 CONTRIBUTIONS TO THE SOCIOLOGY OF

Philosophy, History and Social Action S. Hook, W. O'Neill, R. O'Toole, 2012-12-06 Two articles by Lewis Feuer caught my attention in the 40s when I was wondering as a student physicist about the relations of physics to philosophy and to the world in turmoil One was his essay on The Development of Logical Empiricism 1941 and the other his critical review of Philipp Frank's biography of Einstein Philosophy and the Theory of Relativity 1947 How extraordinary it was to find so intelligent independent critical and humane a mind and furthermore he went further as I soon realized when I looked for his name on other publications I recall arguing with myself over his exploration of Indeterminacy and Economic Development 1948 and even more when I read his Dialectical Materialism and Soviet Science 1949 More papers and then the fascinating sometimes irritating always insightful books His monograph on Psychoanalysis and Ethics 1955 the beautiful sociological and humanist study of Spinoza and the Rise of Liberalism 1958 his essays on The Social Roots of Einstein's Theory of Relativity 1971 together with the book on Einstein and the Generations of Science 1974 the splendid reader from the works of Marx and Engels Basic Writings on Politics and Philosophy 1959 which was a major text of the 60s the stimulating essays on the social formation which seems to have been required for a modern scientific movement to develop set forth most convincingly in The Scientific Intellectual 1963

Jews and Gentiles Werner J. Cahnman, 2017-12-02 Studies of the Jewish experience among peoples with whom they live share some similarities with the usual histories of anti-Semitism but also some differences When the focus is on anti-Semitism Jewish history appears as a record of unmitigated hostility against the Jewish people and of passivity on their part However as Werner J Cahnman demonstrates in this posthumous volume Jewish Gentile relations are

far more complex There is a long history of mutual contacts positive as well as antagonistic even if conflict continues to require particular attention Cahnman s approach while following a historical sequence is sociological in conception From Roman antiquity through the Middle Ages into the era of emancipation and the Holocaust and finally to the present American and Israeli scene there are basic similarities and various dissimilarities all of which are described and analyzed Cahnman tests the theses of classical sociology implicitly yet unobtrusively He traces the socio economic basis of human relations which Marx and others have emphasized and considers Jews a marginal trading people in the Park Becker sense Simmel and Toennies he shows understood Jews as strangers and intermediaries While Cahnman shows that Jews were not pariahs as Max Weber thought he finds a remarkable affinity to Weber s Protestantism capitalism argument in the tension of Jewish Christian relations emerging from the bitter theological argument over usury The primacy of Jewish Gentile relations in all their complexity and variability is essential for the understanding of Jewish social and political history This volume is a valuable contribution to that understanding

Essays on Individualism Louis Dumont,1986 Louis Dumont s *Essays on Individualism* is an ambitious attempt to place the modern ideology of individualism in a broad anthropological perspective The result of twenty years of scholarship and inquiry the interrelated essays gathered here not only trace the genesis and growth of individualism as the dominant force in Western philosophy but also analyze the differences between this modern system of thought and those of other nonmodern cultures The collection represents an important contribution to Western society s understanding of itself and its place in the world

Social Science and the Politics of Modern Jewish Identity Mitchell Bryan Hart,2000 This book traces the emergence and development of an organized institutionalized Jewish social science and explores the increasing importance of statistics and other modes of analysis for Jewish elites throughout Europe and the United States The Zionist movement provided the initial impetus as it looked to the social sciences to provide the knowledge of contemporary Jewish life deemed necessary for nationalist revival The social sciences offered empirical evidence of the ambiguous condition of the Jewish diaspora and also charted emancipation and assimilation viewed as dissolutions of and threats to Jewish identity Liberal assimilationist scholars also utilized social science data to demonstrate the continuing viability of Jewish life in the diaspora Jewish social science grew out of a sustained effort to understand and explain the effects of modernization on Jewry Above all Jewish scholars sought to give the enormous transformations undergone by Jewry in the nineteenth century a larger meaning and significance

Humanity Divided Manuel Duarte de Oliveira,2021-09-20 With exacting scholarship and fecund analysis Manuel Oliveira probes through the lens of Martin Buber 1878 1965 the theological and political ambiguities of Israel s divine election These ambiguities became especially pronounced with the emergence of Zionism Wary indeed alarmed by the tendency of some of his fellow Zionists to conflate divine chosenness with nationalism Buber sought to secure the theological significance of election by both steering Zionism from hypertrophic nationalism and by a sustained program to revalorize what he called alternately Hebrew Humanism As

Oliveira demonstrates Buber viewed the idea of election teleologically espousing a universal mission of Israel which effectively calls upon Zionism to align its political and cultural project to universal objectives Thus in addressing a Zionist congress he rhetorically asked What then is this spirit of Israel of which you are speaking It is the spirit of fulfillment Fulfillment of what Fulfillment of the simple truth that man has been created for a purpose Our purpose is the upbuilding of peace And that is its spirit the spirit of Israel the people of Israel was charged to lead the way to righteousness and justice

The Two-State Delusion Padraig O'Malley, 2016-07-26 Author Padraig O Malley is the subject of the new acclaimed documentary *The Peacemaker* Impressive O Malley has done a tremendous amount of research about the Israeli Palestinian conflict The New York Times Book Review Disputes over settlements the right of return the rise of Hamas recognition of Israel as a Jewish state and other intractable issues have repeatedly derailed peace negotiations between Israel and Palestine Now in a book that is sure to spark controversy renowned peacemaker Padraig O Malley argues that the moment for a two state solution has passed After examining each issue and speaking with Palestinians and Israelis as well as negotiators directly involved in past summits O Malley concludes that even if such an agreement could be reached it would be nearly impossible to implement given a variety of obstacles including the staggering costs involved Palestine's political disunity and economic fragility rapidly changing demographics in the region Israel's continuing political shift to the right global warming's effect on the water supply and more In this revelatory hard hitting book O Malley approaches the key issues pragmatically without ideological bias to show that we must find new frameworks for reconciliation if there is to be lasting peace between Palestine and Israel

Boundaries, Borders and Frontiers in Archaeology Bryan Feuer, 2016-02-17 Until fairly recently archaeological research has been directed primarily toward the centers of societies rather than their perimeters Yet frontiers and borders precisely because they are peripheral promote interaction between people of different polities and cultures with a wide range of potential outcomes Much work has begun to redress this disparity of focus Drawing on contemporary and ethnographic accounts historical data and archaeological evidence this book covers more than 30 years of research on boundaries borders and frontiers beginning with The Northern Mycenaean Border in Thessaly in 1983 The author discusses various theoretical and methodological issues concerning peripheries as they apply to the archaeological record Political economic social and cultural processes in border and frontier zones are described in detail Three case study societies are examined China Rome and Mycenaean Greece
