Ethnicity Steve Fenton,1999-06 This text discusses key debates in the sociology of ethnicity and race arguing that ethnicity is culturally expressed and politically and economically contextualised World wide examples are used to give an international and comparative perspective *Ethnicity* Steve Fenton,2010-01-11 This text discusses key debates in the sociology of ethnicity and race arguing that ethnicity is culturally expressed and politically and economically contextualised World wide examples are used to give an international and comparative perspective **Race, Class, and Culture** Robert C. Smith,Richard Seltzer,1992-07-01 Race is arguably the most profound and enduring cleavage in American society and politics This book examines the sources and dynamics of the race cleavage in American society through a detailed analysis of intergroup and intragroup differences at the level of mass opinion The ethclass theory which examines the intersection of ethnicity and class is used to analyze interracial differences in mass attitudes This analysis yields three clusters of opinion that distinguish African Americans from whites religiosity interpersonal alienation and political liberalism The authors then examine the intragroup sources of these opinion differences among blacks in terms of class gender age region and religion While the authors demonstrate an embryonic trend of more black middle class opinion agreement with whites the book confirms the ethclass character of the black experience whereby race and race consciousness are still more significant than class in shaping black attitudes Given the growing class bifurcation in black America and the continuing debate about its significance in shaping black attitudes and behavior this book offers a refreshing new analysis of the homogeneity as well as heterogeneity of black mass public opinion The Sociology of Ethnicity Sinisa Malesevic,2004-05-25 This book offers an original synthesis of existing knowledge pointing forward in a manner that could influence a new generation s conception of the field and its agenda If it attracts the attention it merits it could prove one of the most important books about ethnic and racial relations since the nineteen eighties Michael Banton Ethnic and Racial Studies Malesevic provides a thorough and balanced account of the sociological foundations of the study of ethnicity His presentation is as critical and engaging as it is easy to read and logically organized It is invaluable reading for sociologists Jon Fox British Journal of Sociology Spanning classical sociology to current debates The Sociology of Ethnicity synthesizes the leading sociological interpretations of ethnic relations and provides a coherent theoretical framework for its analysis In this thoughtful and accessible text Sinisa Malesevic assesses the explanatory strength of a range of sociological theories in understanding ethnicity and ethnic conflict While acknowledging that there is no master key or blue print to deal with each and every case of interethnic group relations The Sociology of Ethnicity develops the best strategy to bridge epistemological and policy requirements for interethnic group relations The Sociology of Ethnicity will be required reading for advanced undergraduates and postgraduates studying ethnicity and race in sociology and across the social sciences Culture, Social Class, and Race in Public Relations Damion Waymer,2012-09-27 Culture Race and Class Based Perspectives in Public Relations edited by Damion Waymer covers timely

and understudied topics in the field of public relations PR Via research case analysis and theoretical discussion the contributors to this volume explore the ways that scholars can address issues of voice or the lack thereof that marginalized publics have encountered in the past or are currently encountering in regard to matters of culture race and class A central question this book asks is what role can and does a greater understanding of culture race and class play in helping scholars teachers students and practitioners to aid in society becoming a better place to live and work Culture as well as other divisive social constructs such as race and class must be unpacked problematized and considered carefully before the fully functioning vision of society can be deemed possible Some topics included are the Black Panther Party and Native American Activist rhetorical PR risk equity critical race theory and pedagogical approaches to teaching culture race and class This edited volume serves an important early step by scholars via the context of public relations in this process of advocating social justice as well as organizations role in helping society achieve these ends

Class, Networks, and Identity Rhonda F. Levine, 2001 This book documents a little known aspect of the Jewish experience in America It is a fascinating account of how a group of Jewish refugees from Nazi Germany came to dominate cattle dealing in south central

New York and maintain a Jewish identity even while residing in small towns and villages that are overwhelmingly Christian. The book pays particular attention to the unique role played by women in managing the transition to the United States in helping their husbands accumulate capital and in recreating a German Jewish community. Yet Levine goes further than her analysis of German Jewish refugees. She also argues that it is possible to explain the situations of other immigrant and ethnic groups using the structure network identity framework that arises from this research. According to Levine, situating the lives of immigrants and refugees within the larger context of economic and social change but without losing sight of the significance of social networks and everyday life shows how social structure, class, ethnicity, and gender interact to account for immigrant adaptation and mobility.

Class, Culture, and Race in American Schools Stanley Rothstein, 1995-03-23

Class, culture, and race have influenced the educational experiences of children for centuries. As a new wave of Latin American and Asian peoples enters the United States, public schools are faced with the challenge of educating children from a culture of poverty and who have varying racial and cultural backgrounds. This reference work employs historical, anthropological, sociological, and theoretical perspectives to overview current information on class, culture, and race in U.S. schools. The volume is organized systematically with broad sections on class, culture, race, and prospects for the future. Each section begins with an introductory chapter that defines the theme of the section and places it within a larger context. The chapters that follow then examine the impact of class, culture, or race on schooling with special regard to particular groups. The volume focuses primarily on Hispanics, African Americans, and Asians as they struggle to survive and prosper in the United States. Because of its approach, the book is also a guide to the effects of poverty, language, and race on the educational experiences of children.

Media and Ethnic Identity Ritva Levo-Henriksson, 2007-11-21

Media and Ethnic Identity carries a Native American perspective to media and its role in ethnic identity construction. This perspective is gained through a case study of the Hopis who live in northeast Arizona and are known for their devotion to their indigenous culture. The research data is built on a number of interviews with Hopis of a variety of ages from nine villages. The study also makes use of the results of a survey of a large number of students in the Hopi Jr Sr High School. The framework for examining the research data is intercultural communication, both interpersonal and media mediated between an indigenous group and a majority from the viewpoint of the indigenous group. This book provides tools for understanding the experiences of communication between social and political minorities and majorities from the indigenous perspective.
