Ethnicity Geographic Perspectives On Ethnic Change In Modern Cities:

EthniCity Curtis C. Roseman, Hans Dieter Laux, Gunter Thieme, 1996 *Multicultural Geographies* John W. Frazier, Florence M. Margai, 2010-09-01 Geographical perspectives on the changing patterns of race and ethnicity in the United States In an approach that differs from other publications on U S multiculturalism *Multicultural Geographies* examines the changing patterns of race and ethnicity in the United States from geographical perspectives It reflects the significant contributions made by geographers in recent years to our understanding of the day to day experiences of American minorities and the historical and current processes that account for living spaces persistent patterns of segregation and group inequalities and the complex geographies that continue to evolve at local and regional levels across the country One of the book s underlying themes is the dynamic and complex nature of U S multiculturalism and the academic difficulty in evaluating it from a single viewpoint or theoretical stance As such *Multicultural Geographies* is derived from the joint efforts of selected scholars to bring together diverse perspectives and approaches in documenting the experiences of American minorities and the issues that affect them *At the Crossroads* Frank D. Bean, 1997-03-27 Mexico is becoming increasingly important as a focus of U S immigration policy and the movement of people across the U S Mexico border is a subject of intense interest and controversy The U S approach to cross border flows is in flux the economic climate in Mexico is uncertain and relations between the two neighbors have entered a new stage with the launching of NAFTA This volume draws together original essays by distinguished scholars from a variety of disciplines and both sides of the border to examine current impetuses to migration and policy options for Mexico and the U S *Comical Modernity* Heidi Hakkarainen, 2019-07-11 Though long associated with a small group of coffeehouse elites around the turn of the twentieth century Viennese modernist culture had roots that reached much further back and beyond the rarefied sphere of high culture In *Comical Modernity* Heidi Hakkarainen looks at Vienna in the second half of the nineteenth century a period of dramatic urban renewal during which the city s rapidly changing face was a mainstay of humorous magazines books and other publications aimed at middle class audiences As she shows humor provided a widely accessible means of negotiating an era of radical change *Soultsunami* Leonard Sweet, 2009-10-14 Road rage animal rights cyberporn crystal healing doctor assisted suicide everywhere we look the signs all tell us we re living in a post Christian culture Or are we Leonard Sweet cultural historian preacher futurist creatologist and preeminent thinker firmly believes we live today in a pre Christian society fraught with challenges dangers critical choices and above all tremendous potential for the church The outcome will depend on our response to today s flood of religious pluralism that threatens to sweep us away What will we do Deny the reality of the incoming surge Hunker in the bunker hermetically sealing ourselves in an increasingly out of touch church counterculture Or will we boldly hoist our sails and looking to God for guidance and strength move with confidence and purpose over the waves *SoulTsunami* is a fascinating even mind numbing look at the implications of our changing world for

the church in the 21st century With uncanny wisdom and trademark wit Leonard Sweet explores ten key futuribles precision guesses that fall short of predictions expanding on and relating topics ranging from the reentry of theism and spiritual longing in contemporary society to the impact of modern technology to the global renaissance to models for the church to reach people caught in the cultural maelstrom Here are eye opening perspectives on the church from within and from without from its surrounding society Lively well written and provocative *SoulTsunami* is a clarion call for Christians to remove their tunnel vision glasses and take a good look at the swelling postmodern flood It also is a voice of encouragement affirming the church in its role as God's lifeboat And it is a passionate prophetic guide pointing the way to reach a world swept out to sea

The Changing Faces of Citizenship Joyce Marie Mushaben, 2008 In contrast to most migration studies that focus on specific foreigner groups in Germany this study simultaneously compares and contrasts the legal political social and economic opportunity structures facing diverse categories of the ethnic minorities who have settled in the country since the 1950s It reveals the contradictory and usually self defeating nature of German policies intended to keep migrants out allegedly in order to preserve a German *Leitkultur* with which very few of its own citizens still identify The main barriers to effective integration and socioeconomic revitalization in general sooner lie in the country's obsolete labor market regulations and bureaucratic procedures Drawing on local case studies personal interviews and national surveys the author describes the human faces behind official citizenship and integration practices in Germany and in doing so demonstrates that average citizens are much more multi cultural than they realize

Everyday Globalization Timothy Shortell, 2016-03-10 *Everyday Globalization* is a micro sociological study of immigrant neighborhoods in Brooklyn and Paris Global flows of people bring together cultural practices from distant places and urban dwellers in global cities interpret the signs of collective identity in ascribing particular places as immigrant neighborhoods This book examines the spatial semiotics of identity in urban public space that make this possible Unlike other studies of globalization and cities this work brings together research on the social psychology of groups linguistic landscapes and quotidian mobility to explain how urban dwellers encounter cultural differences Signs of social identity are always interpreted in the context of group boundaries and the appropriation of public space The breadth of this analysis contributes to the literature in human geography on the meaningfulness of places This book will also be of interest to scholars and students in visual sociology In addition this research demonstrates an innovative method for studying everyday urban experience

Inclusion and Democracy Iris Marion Young, 2002 Democratic equality entails a principle that everyone whose basic interests are affected by policies should be included in the process of making them Yet individuals and groups often claim that decision making processes are dominated by only some of the interests and perspectives in the society What are the ideals of inclusion through which such criticisms should be made and which might guide more inclusive political practice This book considers that question from the point of view of norms of democratic communication processes of representation and association and how wide the scope of political jurisdictions should be

Democratic theorists have not sufficiently attended to the ways processes of debate and decision making often marginalize individuals and groups because the norms of political discussion are biased against some forms of expression Inclusion and Democracy broadens our understanding of democratic communication by reflecting on the positive political functions of narrative rhetorically situated appeals and public protest It reconstructs concepts of civil society and public sphere as enacting such plural forms of communication among debating citizens in large scale societies The book considers issues of the scope of the polity at two levels global and local The scope of a polity should extend as wide as the scope of social and economic interactions that raise issues of justice Today this implies the need for global democratic institutions At a more local level processes of residential segregation and the design of municipal jurisdictions often result in the ability for actions in one locale to affect those in other locales without those making the decisions having to include some of those affected in the decision making process Metropolitan governments which preserve significant local autonomy may therefore be necessary to promote political equality

Egon Schiele and the Art of Popular Illustration Claude Cernuschi,2022-09-02 Presenting a radically different picture of Egon Schiele s work this study documents in one to one comparisons the extent of the artist s visual borrowings from the Viennese humoristic journal Die Musketee Claude Cernuschi analyzes each comparison on a case by case basis primarily because the interpretation of cartoons and caricatures is highly contingent on their specific historical and cultural context Although this connection has gone unnoticed in the literature in retrospect this correlation makes perfect sense Not only was Schiele s artistic production frequently compared to caricature and derided for being grotesque but Expressionism and caricature are natural allies One may belong to high art

and the other to popular culture yet both presuppose similar assumptions and deploy a similar rhetorical position namely that the exaggeration of human physiognomy allows deeper psychological truths to emerge The book will be of interest to scholars working in art history visual culture popular culture and politics

Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of

American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White Women in Global Migration, 1945-2000 Eleanore O. Hofstetter, 2001-03-30 With large numbers of people migrating to other countries after World War II a substantial amount of scholarship has focused on the status problems and successes of women immigrants since 1945 The first comprehensive compilation of the international literature on these women this bibliography with over 5 100 entries reveals the breadth of scholarship on feminist immigration issues Focusing particularly on sources from North America and Western Europe where most immigrant women settled the book includes feminist analyses bibliographies demographic studies economic comparisons educational research health and medical reports legal discussions biographies and autobiographies psychological case studies religious reports sociological investigations and publications dealing with general aspects of female immigration The book covers such legal issues as citizenship international conventions on contract workers the traffic in women and services and government benefits to immigrants Medical entries include such topics as female genital mutilation comparative obstetric results and equity of treatment Education entries cover such subjects as adult education and the second language programs necessary for assimilation With entries in several languages the bibliography includes books journal articles essays and chapters in books dissertations ERIC reports national and international government documents and statistical sources With immigration a major political and social issue in most countries today the book provides an important research tool **Seeing Cities Change** Jerome Krase, 2016-04-01 Cities have always been dynamic social environments for visual and otherwise symbolic competition between the groups who live and work within them In contemporary urban areas all sorts of diversity are simultaneously increased and concentrated chief amongst them in recent years being the ethnic and racial transformation produced by migration and the gentrification of once socially marginal areas of the city Seeing Cities Change demonstrates the utility of a visual approach and the study of ordinary streetscapes to document and analyze how the built environment reflects the changing cultural and class identities of neighborhood residents Discussing the manner in which these changes relate to issues of local and national identities and multiculturalism it presents studies of various cities on both sides of the Atlantic to show how global forces and the competition between urban residents in contested terrains is changing the faces of cities around the globe Blending together a variety of sources from scholarly and mass media this engaging volume focuses on the importance of seeing and in its consideration of questions of migration ethnicity diversity community identity class and culture will appeal to sociologists anthropologists and geographers with interests in visual methods and urban spaces *Identity Processes and Dynamics in Multi-ethnic Europe* Charles Westin, José Bastos, Janine Dahinden, 2010 JosT Bastos is an associate professor of anthropology at the New University of Lisbon *Studies in Segregation and Desegregation* Wim Ostendorf, 2019-06-14 This title was first published in 2002 Over the past fifty years numerous geographical concepts and methodologies have been developed to study urban segregation This volume brings together an

international team of scholars practitioners and policy makers to examine the latest of these The first section of this fascinating book sees contributors proposing innovative ideas and new conceptual models for the study of segregation in cities that undergo globalization They assess the idea that segregation should be studied for individuals in respect to different spatial resolutions including the study of the formation of inter ethnic spatial networks This is followed by an examination of questions concerning the associations among segregation poverty and policies The final section highlights patterns of segregation in four countries South Africa China Canada and the Ruhr area each of them representing different multicultural and transformational aspects They also emphasize the socio historical context in which patterns of segregation and desegregation appeared

Handbook of Research on Ethnic Minority Entrepreneurship Leo Paul Dana, 2007 Professor Dana and his colleagues have carefully and successfully put together a collection of chapters on ethnic minority entrepreneurship from all parts of the world The book comprises eight parts and 49 chapters Undoubtedly given the massive size and content of a 835 page book it is fair to ask is it value for money The answer is unequivocally yes A further comment on the content of the book should probably reassure potential readers and buyers of the book This collection is undoubtedly rich creative and varied in many respects Therefore it will be of great benefit to researchers and scholars alike I will strongly recommend this book to researchers students teachers and policy makers Aminu Mamman International Journal of Entrepreneurial Behaviour and Research The volume presents an impressive panorama of studies on ethnic entrepreneurs ranging from Dalits in India to Roma entrepreneurs in Hungary B P Corrie Choice From a focus on middle man minorities in the 1950s the study of minority ethnic entrepreneurship has evolved into a vast undertaking A major ingredient in this expansion is the massive population movements of the past thirty years that have created ethnic minority communities in almost all advanced economies From New York to San Francisco from Birmingham to Hamburg from the Chinese in Canada to the Turks in Finland to the Ghanians in South Africa to the Lebanese in New Zealand more than twenty chapters in this volume treat small scale ethnic entrepreneurship and the cultural and institutional resources which support it At the other end of the spectrum the ethnic Chinese have created ever larger multi divisional enterprises in the host societies of Southeast Asia At the mid point of the spectrum analyzed in an elegant paper by Ivan Light is the recently identified transmigrant entrepreneur acculturated in two societies but assimilated in neither whose special endowments have provided the lynchpin for for much of the international trade expansion in the global economy over the past decade And Dana and Morris provide us with much more Afro American entrepreneurship caste and class the theory of clubs women ethnic entrepreneurs minority ethnicity and IPOs In the quality of its contributions and in the reach of its coverage this Handbook attains a very high standard Peter Kilby Wesleyan University US The new Handbook of Research on Ethnic Minority Entrepreneurship edited by L o Paul Dana constitutes a major contribution to the literature on ethnic enterprise Unlike previous work which tended to focus on one country or one region of the world this book is global in scope You will find

chapters on America Europe and Asia as well as integrative essays that review important principles and concepts from the literature on ethnic entrepreneurship I particularly appreciate the historical and evolutionary framework within which the contributions are situated This book belongs on the shelf of everyone who has an interest in immigration and entrepreneurship or ethnic entrepreneurship more generally Howard Aldrich University of North Carolina US This exhaustive interdisciplinary Handbook explores the phenomena of immigration and ethnic minority entrepreneurship in light of marked changes since the mid twentieth century and the advent of easier more affordable travel and more open and integrated national economies The international contributors key experts in their respective fields illustrate that myriad ethnic minorities exist across the globe and that their entrepreneurship can and does significantly influence national economies The contributors go on to promote our understanding of which factors make for successful entrepreneurship and perhaps more importantly how negative political consequences that members of successful entrepreneurial ethnic minorities might face can be minimized This extensive collection of current research on entrepr

Tensions in Diversity Felicity Hwee-Hwa Chan, 2022-11-01 Urban landscapes are complex spaces of sociocultural diversity characterized by narratives of both conviviality and conflict As people with multiple ethnicities and nationalities find their common destinies in thriving globalizing cities social cohesiveness becomes more precarious as different beliefs practices ambitions values and affiliations intersect in close proximity producing social tensions *Tensions in Diversity* presents a multi method comparative study that draws on the experiences of 140 residents of native and immigrant origin community organizers and municipal officers in three culturally diverse neighbourhoods of varying income levels in Los Angeles County Using cognitive mapping analysis combined with data from interviews surveys and participant observation this book explores how exactly coexistence is socio spatially experienced and negotiated in daily life *Tensions in Diversity* identifies the planning and design considerations that enable intercultural learning in the public places within diverse cities In doing so this book foregrounds urban space as an active force in shaping coexistence and convivial public environments

Global Migration Diego Acosta Arcarazo, Anja Wiesbrock, 2015-05-05 This three volume work exposes myths and debunks misinformation about global migration an issue generating emotional debate from the highest levels of power to kitchen tables across the United States Europe and worldwide Many don t realize that migration has been a central element of global social change since the 15th century Unfortunately misconceptions about the 3 percent of world citizens who do choose to migrate can be destructive In 2008 riots broke out in South Africa over workers from neighboring countries Today s rising tensions along the U S Mexican border are inciting political social and economic upheaval In the EU political fortunes rise and fall on positions regarding the future of multiculturalism in Europe Relying on fact not rhetoric this three volume book seeks to inform readers allay fears and advance solutions While other reference works tend to limit their scope to one country or one dimension of this hot button issue this book looks at the topic through a wide and interdisciplinary lens Truly global in scope this collection

explores issues on all five continents discussing examples from more than 50 countries through analysis by 40 top scholars across 8 disciplines By exploring the past present and future of measures that have been implemented in an attempt to deal with migration ranging from regularization procedures to criminalization readers will be able to understand this worldwide phenomenon Both the expert and the general reader will find a wealth of information free of the unsustainable claims and polarized opinions usually presented in the media To view the introductory chapter of this book visit http://papers.ssrn.com/sol3/papers.cfm?abstract_id=2604184

The Radicals' City: Urban Environment, Polarisation, Cohesion Ralf Brand, Sara Fregonese, 2016-02-24 Bringing together comparative case studies from Belfast Beirut Amsterdam and Berlin this book examines the role of the urban environment in social polarisation processes In doing so it provides a timely and refreshingly innovative voice in the confusing babble on counter terrorism urban conflict and community cohesion Despite their socio political differences these cities are telling cases of how the location and shape of very mundane objects such as rubbish bins bridges clothes stores shopping malls and cafés in addition to the obvious fences walls and barbed wire are often subject to heated controversies and influence the way urban conflict is lived and practised Within a Science and Technology Studies STS theoretical framework the authors provide a systematic analysis of these four cities and provide many concrete and richly illustrated examples of material agency without losing sight of their specific historical political geographical and social conditions The STS angle permits some surprising yet extremely convincing conclusions which are of use not only for a range of practitioners but also to scholars interested in the social shaping processes and the consequences of urban artefacts The authors argue that although architecture and urban design is clearly not the sole cause of conflict and polarisation neither is it completely innocent Conversely it cannot be the silver bullet to solve related problems and to create community cohesion However the materiality of our cities must not be ignored in fact it can and should be enrolled in our efforts The book contains detailed descriptions of such positive cases as inspiration for practitioners as diverse as policy makers architects urban designers planners community workers consultants or police officers
