Ethnography At The Edge Crime Deviance And Field Research:

Ethnography At The Edge Jeff Ferrell, Mark S. Hamm, 2016-03-01 The candid first person accounts of their experiences especially in illegal immoral and dangerous situations reveal the horrors perils and joys of ethnographic research The methodological theoretical and political implications of field work are also thoroughly discussed Describing their deep involvement with such diverse groups as skinheads phone sex workers drug dealers graffiti artists and the homeless many of the authors confess to their own episodes of illegal drug use drunk driving weapons violations assault at gunpoint obstruction of justice and arrest while engaged in ethnographic studies Although field research is seldom safe convenient or above professional criticism this volume demonstrates that it is vital for providing a fuller understanding of deviant and criminal populations *Ethnography at the Edge* Jeff Ferrell, Mark S. Hamm, 1998 Pioneering criminologists and sociologists vividly recount the personal and professional tribulations of conducting field research with deviant and criminal subcultures

Field Studies in Environmental Criminology Ben Stickle, 2022-03-30 This book includes fieldwork from five continents and demonstrates the breadth of techniques used by environmental criminologists to understand crime Environmental criminologists seek to understand crime within the physical and even digital contexts where it occurs believing that crime occurs when people converge in time and space and that the environment impacts the opportunity for crime Understanding the environment aids the researcher in answering an essential question what can be done to alter the place to prevent or reduce crime However to understand complex environmental influences researchers need to engage in fieldwork Fieldwork involves researchers entering the environment they are studying to observe listen and experience the surroundings in a way that influences their understanding of the place and people in the environment This book highlights the broad array of crime types from package theft in the suburbs to poaching in the Nile basin that environmental criminology is well suited to address Finally it advances methods and techniques tests established protocols and offers reflections on experiences during fieldwork demonstrating the value of the techniques for environmental criminology and offering solutions to crime problems The chapters in this book were originally published in special issues of Criminal Justice Studies

The Oxford Handbook of Ethnographies of Crime and Criminal Justice Sandra M. Bucerius, Kevin D. Haggerty, Luca Berardi, 2022 The Oxford Handbook of Ethnographies of Crime and Criminal Justice provides critical and current reviews of key research topics issues and debates that crime ethnographers have been grappling with for over a century This volume brings together an outstanding group of scholars to discuss various research traditions the ethical and pragmatic challenges associated with conducting crime related fieldwork relevant policy recommendations for practitioners in the field and areas of future research for crime ethnographers [The SAGE Handbook of Criminological Research Methods](#) David Gadd, Susanne Karstedt, Steven F Messner, 2011-10-19 Conducting research into crime and criminal justice carries unique challenges This Handbook focuses on the application of methods to address the core substantive questions

that currently motivate contemporary criminological research. It maps a canon of methods that are more elaborated than in most other fields of social science and the intellectual terrain of research problems with which criminologists are routinely confronted. Drawing on exemplary studies, chapters in each section illustrate the techniques qualitative and quantitative that are commonly applied in empirical studies as well as the logic of criminological enquiry. Organized into five sections, each prefaced by an editorial introduction, the Handbook covers Crime and Criminals, Contextualizing Crimes in Space and Time, Networks, Communities and Culture, Perceptual Dimensions of Crime, Criminal Justice Systems, Organizations and Institutions, Preventing Crime and Improving Justice. Edited by leaders in the field of criminological research and with contributions from internationally renowned experts, The SAGE Handbook of Criminological Research Methods is set to become the definitive resource for postgraduates, researchers and academics in criminology, criminal justice, policing, law and sociology. David Gadd is Professor of Criminology at Manchester University School of Law where he is also Director of the Centre for Criminology and Criminal Justice. Susanne Karstedt has a Chair in Criminology and Criminological Justice at the University of Leeds. Steven F. Messner is Distinguished Teaching Professor of Sociology, University at Albany, State University of New York.

Ethnography and the Evocative World of Policing Matthew Bacon, Bethan Loftus, Mike Rowe, 2023-12-04. This book demonstrates the unique contribution police ethnographies make to our understanding of policing cultures and practices in a variety of international settings. It features contemporary examples of police ethnographies that demonstrate the continuing value of ethnographic work to our understanding of policing. The first section of the book focuses on the police and Anglo-American policing. The second section is international in scope and seeks to enrich our understandings of policing beyond the police. Chapters explore police interactions during a stop and search and at a carnival. They peer behind the scenes at the control room and at the use of intelligence. We listen in to the experiences of new recruits and the stories told in canteens. They also take us into the world of private security agencies in Kenya and to Vietnam. The book explores the position of ethnographers, asking whether we do too much with rather than on the police and whether our work reveals more about us as academics than them as officers. Together they are revealing of a changing policing landscape. *Ethnography and the Evocative World of Policing* demonstrates the unique value of ethnographic work in the fields of policing studies and criminology. It will be a key resource for scholars and researchers of policing, criminology, sociology, law and research methods. The chapters in this book were originally published in two special issues of *Policing and Society*. 21st Century Criminology: A Reference Handbook J. Mitchell Miller, 2009-08-06. Criminology has experienced tremendous growth over the last few decades, evident in part by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U.S. and internationally. Evolutionary paradigmatic shift has accompanied this surge in definitional, disciplinary and pragmatic terms. Though long identified as a leading sociological specialty area, criminology has emerged as a stand-alone discipline in its own right, one that continues to grow and is clearly

here to stay Criminology today remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes effects and responses to crime 21st Century Criminology A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths The individual chapters have been designed to serve as a first look reference source for most criminological inquiries Both connected to the sociological origins of criminology i e theory and research methods and the justice systems response to crime and related social problems as well as coverage of major crime types this two volume set offers a comprehensive overview of the current state of criminology From student term papers and masters theses to researchers commencing literature reviews 21st Century Criminology is a ready source from which to quickly access authoritative knowledge on a range of key issues and topics central to contemporary criminology This two volume set in the SAGE 21st Century Reference Series is intended to provide undergraduate majors with an authoritative reference source that will serve their research needs with more detailed information than encyclopedia entries but not so much jargon detail or density as a journal article or research handbook chapter 100 entries or mini chapters highlight the most important topics issues questions and debates any student obtaining a degree in this field ought to have mastered for effectiveness in the 21st century Curricular driven chapters provide students with initial footholds on topics of interest in researching term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc Comprehensive in coverage major sections include The Discipline of Criminology Correlates of Crime Theories of Crime Justice Measurement Research Types of Crime and Crime the Justice System The contributor group is comprised of well known figures and emerging young scholars who provide authoritative overviews coupled with insightful discussion that will quickly familiarize researchers students and general readers alike with fundamental and detailed information for each topic Uniform chapter structure makes it easy for students to locate key information with most chapters following a format of Introduction Theory Methods Applications Comparison Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Availability in print and electronic formats provides students with convenient easy access wherever they may be

Secrecy and Silence in the Research Process Roisin Ryan-Flood, Rosalind Gill, 2013-05-13 Feminist research is informed by a history of breaking silences of demanding that women s voices be heard recorded and included in wider intellectual genealogies and histories This has led to an emphasis on voice and speaking out in the research endeavour Moments of secrecy and silence are less often addressed This gives rise to a number of questions What are the silences secrets omissions and and political consequences of such moments What particular dilemmas and constraints do they represent or entail What are their implications for research praxis Are such moments always indicative of voicelessness or powerlessness Or may they

also constitute a productive moment in the research encounter Contributors to this volume were invited to reflect on these questions The resulting chapters are a fascinating collection of insights into the research process making an important contribution to theoretical and empirical debates about epistemology subjectivity and identity in research Researchers often face difficult dilemmas about who to represent and how what to omit and what to include This book explores such questions in an important and timely collection of essays from international scholars

Criminological Ethnography: An Introduction James Treadwell, 2019-09-30 Written by one of the best Criminological Ethnographers in the business this text will serve as an invaluable and insightful resource for both novice and seasoned ethnographers of criminological issues Anthony Ellis University of Salford In the first textbook to cover ethnography specific to criminology James Treadwell guides readers through the ethnographic research process in full starting with a background to criminological ethnography through planning and doing an ethnographic project and finally the writing up and reporting stage The book provides guidance for navigating key issues in ethnography including access and researcher safety and supports readers when carrying out their project with helpful exercises questions and checklists It also includes insightful case studies comprised of classic works and the author's own ethnographic projects along with a range of extra learning features including key terms a glossary and further reading suggestions A valuable resource for anyone embarking on ethnographic research in criminology for the first time

The SAGE Handbook of Fieldwork Dick Hobbs, Richard Wright, 2006-01-05 This is an excellent collection of papers which celebrates the best of traditional approaches to fieldwork whilst also looking to its future The Handbook will quickly become essential reading for the novice and experienced fieldworker across many of the social sciences Chris Pole University of Leicester Fieldwork is widely practiced but little written about yet accounts of the exotic mundane complex and often dangerous are central to not only sociology and anthropology but also geography social psychology and criminology In all these increasingly overlapping fields experience underlies any comprehensive understanding of social life The SAGE Handbook of Fieldwork presents the first major overview of this method in all its variety introducing the reader to the strengths weaknesses and real world applications of fieldwork techniques Its 22 carefully chosen chapters are each based on a substantive field of empirical enquiry written by an acknowledged expert in the field The range is impressive from the traditional to the virtual concerning subjects as diverse as emotion sexuality sport embodiment identity self narrative fieldwork in organizations science and technology Specifically intended for use in undergraduate and postgraduate courses in qualitative research design and methodology in sociology anthropology criminology urban studies social geography public health and education the handbook will also prove beneficial to academic researchers in these and other disciplines

Qualitative Media Analysis David L. Altheide, Christopher J. Schneider, 2013 *Qualitative Media Analysis* *The Routledge Handbook of Qualitative Criminology* Heith Copes, J. Mitchell Miller, 2015-03-02 Despite illustrious origins dating to the 1920s qualitative crime research has long been overshadowed by quantitative inquiry After decades of limited use there has been a

notable resurgence in crime ethnography naturalistic inquiry and related forms of fieldwork addressing crime and related social control efforts The Routledge Handbook of Qualitative Criminology signals this momentum as the first major reference work dedicated to crime ethnography and related fieldwork orientations Synthesizing the foremost topics and issues in qualitative criminology into a single definitive work the Handbook provides a first look reference source for scholars and students alike The collection features twenty original chapters on leading qualitative crime research strategies the complexities of collecting and analyzing qualitative data and the ethical propriety of researching active criminals and incarcerated offenders Contributions from both established luminaries and talented emerging scholars highlight the traditions and emerging trends in qualitative criminology through authoritative overviews and lived experience examples Comprehensive and current The Routledge Handbook of Qualitative Criminology promises to be a sound reference source for academics students and practitioners as ethnography and fieldwork realize continued growth throughout the 21st Century

The Palgrave Handbook of Prison Ethnography Deborah H. Drake, Rod Earle, J. Sloan, 2016-01-12 The Palgrave Handbook of Prison Ethnography provides an expansive overview of the challenges presented by qualitative and particularly ethnographic enquiry The chapters reflect upon the means by which ethnographers aim to gain understanding make sense of what they learn and the way they represent their finished work The Handbook offers urgent insights relevant to current trends in the growth of imprisonment worldwide In an era of mass incarceration human centric ethnography provides an important counter to quantitative analysis and the audit culture on which prisons are frequently judged The Handbook is divided into four parts Part I About Prison Ethnography assesses methodological theoretical and pragmatic issues related to the use of ethnographic and qualitative enquiry in prisons Part II Through Prison Ethnography considers the significance of ethnographic insights in terms of wider social or political concerns Part III Of Prison Ethnography analyses different aspects of the roles ethnographers take and how they negotiate their research settings Part IV For Prison Ethnography includes contributions that convincingly extend the value of prison ethnography beyond the prison itself Bringing together contributions by some of the world's leading scholars in criminology and prison studies this authoritative volume maps out new directions for future research It will be an indispensable resource for practitioners students academics and researchers who use qualitative social research methods to further their understanding of prisons Handbook of Emergent Methods Sharlene Nagy Hesse-Biber, Patricia Leavy, 2013-10-15 Social researchers increasingly find themselves looking beyond conventional methods to address complex research questions This is the first book to comprehensively examine emergent qualitative and quantitative theories and methods across the social and behavioral sciences Providing scholars and students with a way to retool their research choices the volume presents cutting edge approaches to data collection analysis and representation Leading researchers describe alternative uses of traditional quantitative and qualitative tools innovative hybrid or mixed methods and new techniques facilitated by technological advances Consistently formatted chapters explore

the strengths and limitations of each method for studying different types of research questions and offer practical in depth examples

Geographical Fieldwork in the 21st Century Kendra McSweeney, Antoinette WinklerPrins, 2021-05-31 Fieldwork is a hallmark of geographical scholarship encompassing all the approaches by which we learn first hand about the world Too often though fieldwork details the challenges the failures and methodological mash up used are left out of geographers published work This accessible collection brings together 18 of those too often overlooked stories and reveals the ongoing vibrancy of geographical fieldwork today The 32 authors span many of geography s subfields and their work incorporates multiple methodological traditions ethnographic digital archival mixed and more With short readable contributions *Geographical Fieldwork in the 21st Century* offers an ideal resource for students across the social sciences who are wrangling with the process of fieldwork It shows fieldwork s core attributes innovation commitment and serendipity are alive and well But this collection also illustrates just how fieldwork is changing as our ability to learn about the world is shaped by new pressures of the 21st century neoliberal academy by the proliferation of new technologies and by the growing social demand for collaborative engaged and ethical scholarship The chapters in this book were originally published as a special issue of the journal *Geographical Review*

Navigating Fieldwork in the Social Sciences Phillip Wadds, Nicholas Apofis, Susanne Schmeidl, Kim Spurway, 2020-09-14 This edited collection of first person stories about risk in the field offers an arsenal of practical examples where fieldworkers have attempted to negotiate the complexities and risks of field research Field research can be a risky and dangerous journey where the line between safety and danger can be crossed in quick time often with little warning These risks manifest in diverse and novel ways They can be

physical and psychological ephemeral and enduring They can impact the researchers participants collaborators and interviewees Indeed they can condition the very foundation of our processes of knowledge production Fieldwork is no small stakes game Covering research from Afghanistan Chad DR Congo Greece the Horn of Africa Iraq Laos Lebanon Palestine India Indonesia Mexico The Netherlands Vietnam and Australia each chapter highlights diverse eclectic raw and vulnerable narratives about risks experienced before during and after the conduct of this research This book is of great value to inexperienced and experienced fieldworkers alike Prison Violence Kate Gooch, 2025-07-02 This book analyses the nature causes logic and culture of prison victimisation in an English young offender institution for young men aged 18 21 years old Drawing on ethnographic and qualitative research this book offers a comprehensive analysis of the gendered situational individual and moral components of prison victimisation It explores how wider technological economic policy political and cultural changes have altered the texture and structure of prison life and prison violence and with what consequences Ultimately the book argues that high levels of prison violence are not inevitable Rather the prevention of prison violence requires a just lawful humane and hopeful environment and failing to create such is tragically life changing for young prisoners
