Lewis, 1996-01-01 Provides an overview of neo paganism from the Goddess to magic and rituals from history and ethics to the relationship of neo paganism to Christianity      **Psychedelic Mystery Traditions** Thomas Hatsis, 2018-09-11 A comprehensive look at the long tradition of psychedelic magic and religion in Western Civilization Explores the use of psychedelics and entheogens from Neolithic times through Antiquity the Middle Ages and the Renaissance to the Victorian era and beyond Reveals how psychedelics were integrated into pagan and Christian magical practices and demonstrates how one might employ a psychedelic agent for divination sex magic alchemy communication with gods and more Examines the role of entheogens in the Mysteries of Eleusis in Greece the worship of Isis in Egypt the Dionysian mysteries and the magical practices of the Thessalian witches as well as Jewish Roman and Gnostic traditions Unbeknownst or unacknowledged by many there is a long tradition of psychedelic magic and religion in Western civilization As Thomas Hatsis reveals the discovery of the power of psychedelics and entheogens can be traced to the very first prehistoric expressions of human creativity with a continuing lineage of psychedelic mystery traditions from antiquity through the Renaissance to the Victorian era and beyond Describing how when and why different peoples in the Western world utilized sacred psychedelic plants

Hatsis examines the full range of magical and spiritual practices that include the ingestion of substances to achieve altered states. He discusses how psychedelics facilitated divinatory dream states for our ancient Neolithic ancestors and helped them find shamanic portals to the spirit world. Exploring the mystery religions that adopted psychedelics into their occult rites, he examines the role of entheogens in the Mysteries of Eleusis in Greece, the worship of Isis in Egypt, and the psychedelic wines and spirits that accompanied the Dionysian mysteries. The author investigates the magical mystery traditions of the Thessalian witches as well as Jewish, Roman, and Gnostic traditions. He reveals how psychedelics were integrated into pagan and Christian magical practices and demonstrates how one might employ a psychedelic agent for divination, magic, alchemy, or god and goddess invocation. He explores the use of psychedelics by Middle Eastern and medieval magicians and looks at the magical use of cannabis and opium from the Crusaders to Aleister Crowley. From ancient priestesses and Christian gnostics to alchemists, wise women, and Victorian magicians, Hatsis shows how psychedelic practices have been an integral part of the human experience since Neolithic times.

**The History of the Occult Tarot** Ronald Decker, Michael

Dummett, 2013-07-18. An essential volume for the libraries of all serious students of the Tarot. When the Tarot was invented in Italy during the early fifteenth century, it was simply a pack of cards used for playing games. Esoteric interpretations of the pack date from the late eighteenth century in France and were confined to that country for a hundred years. But today the cards are used throughout the world and not only for fortune telling; for true believers, they are the key to secret knowledge and the meaning of life. A History of the Occult Tarot is the classic work on the history of the Tarot deck and its use in occult circles. Starting with the late nineteenth century, the Decker and Dummett examine how the Tarot became the favoured divination tool of occultists, a bridge to the spirit world, and a map of the unconscious. From Theosophical to Aleister Crowley to the Order of the Golden Dawn and P. D. Ouspensky, this compelling survey of the Tarot's history describes the many fascinating decks imagined over time, as well as the secret histories of mystics.

*Magical Herbalism* Scott Cunningham, 2013-05-08

Natural magic utilizes the world around us for magical purposes. Herbs are one of the most important tools for natural magic, and the best introduction to this system is found in Scott Cunningham's *Magical Herbalism*. This book presents a complete system of magic using herbs. You will learn the theory of magic and the tools you'll need. Then you'll get countless techniques for using herbs for magic. Need a protection method? Pick several protective herbs and bind the stems together with red thread, then hang them up. This practice dates back to Babylonian times. You'll find a list of over 115 herbs that details their magical powers so you can easily find which ones are protective in nature. How about a divination using herbs? Get a small quantity of dried patchouly, mugwort, or wormwood. Crumble the herb between your hands until it is finely diminished. Next, pour it into a small square pan, glass or ceramic. Light yellow candles and place the pan on your working area. Close your eyes, extend the index finger of your weak hand, and gently touch the center of the pan with its tip. Move it at random in the pan, shifting from one direction to another. Now remove your finger, open your eyes, and interpret the symbols you have just

Weiss M. D.,Morris Weiss,2006-12 Dean Daniel Allen s Friday afternoon trip to Jackson s Hardware in downtown Jeffreysville for the mundane purchase of a deadbolt lock for his kitchen door becomes the prelude to ten days of momentous events Several members of the faculty as well as a number of students at DeMott University will never be the same after Dean Allen finds the beautiful Jeanette de Lorient in a piano practice room in the tower of the University Library finds her very dead indeed An unlikely detective only Dean Allen s sense of duty will keep him cooperating with the Campus Security and the Jeffreysville police Sometimes he will find himself caught in the crossfire between these two unacknowledged rivals in enforcement of the law At other times he will seem almost to be thwarting the police investigation when his loyalty to his faculty colleagues prevents him from telling the whole truth He also will find himself going out on his own in questionable attempts to follow his secretary s advice to solve a crime by knowing your victim Not only will he end up knowing the victim but he will learn a great deal about the lives of a number of the suspects and there are a surprising number of these in the quiet Midwestern town and on the conservative campus of DeMott University He also will find out a bit about himself leaving him surprised and quite pleased This book is not so much a typical murder mystery as it is a study of the people encountered in the story The basic premise of the author is that people s behavior is the result of the totality of the experiences of their lives Such behavior may not be condoned but it can be understood And a campus in a small Midwestern town can be the scene of just as much irrational aberrant or immoral behavior as may a more urban environment The setting gives the author opportunity to give the reader some insights into academic life on such a campus     *Hereditary*
