EU Enlargement and the Constitutions of Central and Eastern Europe Anneli Albi, 2005-06-30 In the wake of the EU's biggest enlargement this book explores the adaptation of the constitutions of Central and Eastern Europe CEE for membership in the European Union In response to the painful past these new constitutions were notably closed to transfer of powers to international organizations and accorded a prominent status to sovereignty and independence A little more than a decade later the process of amending these provisions in view of the transfer of sovereign powers to a supranational organization has proved a sensitive and controversial exercise This book analyses the amendments against the background of comparative experience and theory of sovereignty as well as the context of political sensitivities such as rising euroscepticism ahead of accession referendums *Constitutional Evolution in Central and Eastern Europe* Alexander H.E.

Morawa, 2016-12-14 This book examines EU enlargement by studying how domestic constitutional evolution in the new member states contributes to European integration In contrast to the usual top down analytical pattern it reverses the paradigm by looking at constitutional developments and dynamics from the bottom up studying how domestic constitutional evolution contributes to European integration The authors analyze constitutional trends from the perspective of new Member States as policy makers and not strictly as policy takers The issue of conditionality is also explored in a discussion of the extent to which pre 2004 and 2007 conditionality has had lasting effects at the level of constitutionalization of different areas and norms and if so of what kind The exploration of Europeanization effects in recent Member States substantiates and demonstrates how enlargement has been an important driving force for the effective export of EU legal rules in this region The book utilizes a comparative approach to highlight the merits and obstacles created by the growing diversity in the constitutional rules and patterns of the new Member States It also contains a section that places the CEE constitutionalizing map in a broader comparative European and global context establishing links with similar transitional regimes in the continent and elsewhere *Central and Eastern Europe After Transition* Wojciech Sadurski, 2016-04-08 How have national

comparative review of the jurisprudence of constitutional and supreme courts as well as providing insight into the jurisprudence of ordinary national courts It will appeal to legal scholars and political scientists studying courts and jurisprudence *Constitutional Evolution in Central and Eastern Europe* Dr Kyriaki Topidi, Professor Alexander H E Morawa, 2013-02-28 This book examines EU enlargement by studying how domestic constitutional evolution in the new member states contributes to European integration In contrast to the usual top down analytical pattern it reverses the paradigm by looking at constitutional developments and dynamics from the bottom up studying how domestic constitutional evolution contributes to European integration The authors analyze constitutional trends from the perspective of new Member States as policy makers and not strictly as policy takers The issue of conditionality is also explored in a discussion of the extent to which pre 2004 and 2007 conditionality has had lasting effects at the level of constitutionalization of different areas and norms and if so of what kind The exploration of Europeanization effects in recent Member States substantiates and demonstrates how enlargement has been an important driving force for the effective export of EU legal rules in this region The book utilizes a comparative approach to highlight the merits and obstacles created by the growing diversity in the constitutional rules and patterns of the new Member States It also contains a section that places the CEE constitutionalizing map in a broader comparative European and global context establishing links with similar transitional regimes in the continent and elsewhere National Constitutions and EU Integration Stefan Griller, Lina Papadopoulou, Roman Puff, 2022-08-25 Do individual constitutions and the legal cultures underlying them pose an obstacle to future EU integration This ambitious collection brings together reports from all the European Member States systematically setting out their individual constitutional guarantees In doing so it tracks possible roadblocks to the future evolution of European integration Written by recognised authorities in each Member State it offers an authoritative and rigorous overview of the European Union s constitutional landscape Its single structure approach allows for comparison while maintaining consistency It will become the standard reference work for academics students and practitioners in the field of European Union law and integration **Back to Maastricht** Carlo Spagnolo, Leila Simona Talani, 2021-02-03 European integration has long defied previous notions of state sovereignty and has since the days of the Coal and Steel Community been conferred with original supranational instruments Yet the Treaty of Rome did not raise the same popular reactions as the Maastricht Treaty about the infringement of national sovereignty This book suggests that the end of the Cold War has modified the functions of European integration so that the original ideals of integration have lost part of their appeal hence the birth of the European Union can be regarded as an attempt to seek a new legitimacy How far did the EU Treaty meet this unprecedented challenge This book argues that the Maastricht Treaty established a constitutional framework for a new kind of polity without resolving the issue of its purpose and scope The volume seeks thus to explain some of the reasons for the defeat of the Constitutional Treaty in 2005 dating them back to the Maastricht Treaty In so doing the book links the actual state of European integration

with the decisions taken at Maastricht in five different realms of supranational policy making The first is the constitutional setting of the EU Treaty and its effect on national constitutional law the second is the concept of governance and the changes introduced by the Economic and Monetary Union the third is the historical background of the Maastricht agreement the fourth the political economy of the Economic and Monetary Union the fifth is the impact of European citizenship in the recent case law of the European Court of Justice and the prospects of a EU politicisation The book puts in perspective the solutions to the recent stalemate of the European integration process offered by the Lisbon Treaty

Limits to Democratic Constitutionalism in Central and Eastern Europe Bogusia Puchalska, 2016-05-06 In this book Bogusia Puchalska develops an original theory of democratic constitutionalism and uses it to support the argument that constitution making and law making in constitutional moments should be politically and not just constitutionally legitimate In doing so she expertly assesses the potential implications of the prospects of democratic consolidation and constitutionalism in Poland after 1989 and asks whether it is likely to be applicable to other transition countries such as Hungary Czech Republic and Slovakia This original and informative book should be read by all curious to understand how the democratic learning and the foundations of grass root constitutionalism might have been damaged in post communist countries
