Reverberations of Nazi Violence in Germany and Beyond Stephanie Bird, Mary Fulbrook, Julia Wagner, Christiane Wienand, 2016-02-25 Reverberations of Nazi

Violence in Germany and Beyond explores the complex and diverse reverberations of the Second World War after 1945. It focuses on the legacies that National Socialist violence and genocide perpetrated in Europe continue to have in German speaking countries and communities as well as among those directly affected by occupation terror and mass murder. Furthermore it explores how those legacies are in turn shaped by the present. The volume also considers conflicting unexpected and often dissonant interpretations and representations of these events made by those who were the witnesses, victims and perpetrators at the time and also by different communities in the generations that followed. The contributions from a range of disciplinary perspectives enrich our understanding of the complexity of the ways in which a disturbing past continues to disrupt the present and how the past is in turn disturbed and instrumentalized by a later present.

Regionalism, Globalisation and International Order Jens-Uwe Wunderlich, 2016-03-23. New regionalism and globalization have been prominent themes in academic and political debates since the beginning of the 1990s. Despite the considerable amount of scholarly attention that the new regionalism has received in recent years, its full empirical and theoretical potential has yet to be fully investigated. This illuminating study provides an overview of new avenues in theorizing regionalism and proposes a consolidated framework for analysis and comparison. Offering a comparative historical perspective of European and Southeast Asian regionalism, it presents new and imaginative insights into the theory and practice of regionalism and the links between regional developments, globalization and international order.
