States, International Organizations and Strategic Partnerships Lucyna Czechowska, Andriy Tyushka, Agata Domachowska, Karolina Gawron-Tabor, Joanna Piechowiak-Lamparska, 2019 In post Cold War international relations strategic partnerships are an emerging and distinct analytical and political category critical in understanding the dynamics of contemporary strategic cooperation between states and International Organizations However the idea of strategic partnerships has remained under theorized and overshadowed by the alliance theory Addressing this clear cut gap in the International Relations Foreign Policy Analysis literature this book originally endeavors to theorize and empirically test the analytical model of strategic partnerships as a new form of sustainable international cooperation in times of globalized interdependence and turbulence

The Atlantic Alliance Under Stress David M. Andrews, 2005-07-21 Can the political institutions of the transatlantic alliance endure the demise of the Soviet enemy Did the Iraq crisis of 2002 signal the final demise of the Atlantic partnership If so what are the likely consequences In this book a distinguished group of political scientists and historians from Europe and the United States tackle these questions The book examines the causes and consequences of the crisis in Atlantic relations that accompanied the invasion of Iraq in March 2003 The authors collective focus is not on the war itself or how it was conducted or even the situation in Iraq either before or after the conflict Instead the crisis over Iraq is the starting point for an examination of

Young,John Peterson,2014-04-17 Europe s trade policies matter in global politics Despite the recent focus on Brazil India and particularly China the European Union remains the world s largest market and trader Despite its recent economic troubles Europe remains in a powerful position to shape how globalization is governed We know surprisingly little about how its trade policy

is actually made because previous works have focused on individual trade policy decisions to the detriment of the big picture of the Union as a trade power Parochial Global Europe argues that trade policy is composed of multiple distinct policies Each presents a distinctive constellation of mobilized societal preferences pattern of political institutions and range of government preferences The balance of economic power between the EU and its trade partner s affects the stakes involved Together these four factors define trade policy sub systems which help explain both the EU s objectives and whether it realizes them The authors advance this argument by analysing the EU s role in the demise of the Doha Round its use of anti dumping and pursuit of market access the trade effects of its single market programme and efforts at regulatory diplomacy including the launch of the Transatlantic Trade and Investment Partnership negotiations Parochial Global Europe thus focuses centrally on modern 21st century trade policy It also sheds light on the EU as a global actor by analysing its use of trade policy as a tool of foreign policy from promoting development to encouraging human rights and environmental protection to punishing security threats

European Politics Colin Hay, Anand Menon, 2007-01-18 This textbook blends an analysis of individual nation states with an examination of the critical issues that confront them all and which are addressed comparatively It takes account of both the national and transnational factors that affect and are affected by politics in Europe notably European integration and globalisation The book includes chapters on all the major issues confronting students of politics in Europe organised into four sections Section One provides basic information and details of essential debates concerning the states of Europe and the European Union Section Two presents comparative chapters on the key features of European politics These provide a sense of the major areas of continuity and change across Europe as a whole Section Three again presents explicitly comparative chapters outlining the developments in specific policy sectors Finally Section Four outlines the nature of the external relations of Europe This book is supported by a cutting edge Online Resource Centre Student resources Interactive map of Europe with facts key dates and web links for 26 countries BRAND NEW HE ONLINE RESOURCE Multiple Choice Questions for each chapter Flashcard glossary Lecturer resources PowerPoint slides for each chapter
