Europe and Refugees: Towards an EU Asylum Policy Ingrid Boccardi, 2002-03-15 Includes statistics *Accessing Asylum in Europe* Violeta Moreno Lax, 2017 The timely subject matter of this work focuses on the interface between extraterritorial border surveillance and migration control by EU member states and the rights that asylum seekers acquire from EU law In particular Moreno Lax concentrates on the relationship between the EU Charter of Fundamental Rights and border control measures *Practical Regulation of the Mobility of Sportsmen in the EU Post Bosman* Stefaan Van den Bogaert, 2005-01-01 Sport is recreational social educational healthful and cultural It has always been all of these things Perhaps also it has always been political In recent years however it has become something else besides economic Nowadays a lot of money is invested in sport and sporting competitions often generate enormous amounts of revenue This has entailed serious repercussions especially for the relations between individual sportsmen sportswomen and the sporting clubs and federations that act as brokers for their careers Into this protected area for decades a closed shop now come the European institutions especially the European Court of Justice and the European Commission with the declared intention of ensuring respect for the exigencies of Community law while at the same time protecting the specificity and the integrity of sport This important book presents an in depth analysis of the viability under Community law of traditional sports regulations such as transfer rules and nationality clauses both sets of rules seriously compromised by the Bosman case of 1995 The author asks in particular whether certain rules elaborated by sporting associations can withstand the test of compatibility with the free movement provisions of the EC Treaty In the light of Bosman he also rigorously investigates whether valuable arguments exist for keeping certain sporting rules and practices entirely outside the scope of the EC Treaty and whether the private nature of sporting clubs constitutes a stumbling block for the application of the relevant free movement rules *Practical Regulation of the Mobility of Sportsmen in the EU Post Bosman* comes at a moment when clarification of where this complex and contentious matter currently lies is essential if we are to gauge where it is going The topic is of special and increasing interest as official declarations on sport were attached to the Treaties of both Amsterdam and Nice And if the draft Constitution for Europe actually enters into force sport will even become an official area of Union policy This trend confirms the value and significance of this ground breaking book for practitioners policymakers and regulators in the burgeoning field of sports law **European Monographs 48** **The First Decade of EU Migration and Asylum Law** Elspeth Guild, Paul Minderhoud, 2011-11-25 More than a decade has passed since the appearance of the first issue of the European Journal of Migration and Law which was established to examine the intertwining of issues of law and migration in the EU This volume has been compiled to celebrate that anniversary **EU Health Law & Policy** Anniek de Ruijter, 2019-01-24 Whether there is a public health need for the containment and response to swine flu or an individual need to access health care across the border for a hip operation to alleviate pain the EU has an increasingly powerful role in the field of human health Health law

and policy is deeply tied into fundamental rights bioethics and values with important implications for individuals However it is also an expansive area of economic regulation of social and state arrangements The growing role of the EU in human health law and policy is contested particularly as it has implications for the fundamental rights and values that are enshrined in national health law and policy This book outlines through case studies how the expansion of EU power is taking place through law and policy in both public health and health care How is law and policy in the field of human health adopted who are the institutional actors involved and what is the impact of these developments for fundamental rights

Europe and Extraterritorial Asylum Maarten Den Heijer, 2012-03-01 Increasingly European and other Western states have sought to control the movement of refugees outside their borders To do this states have adopted a variety of measures including carrier sanctions interception of migrants at sea posting of immigration officers in foreign countries and external processing of asylum seekers This book focuses on the legal implications of external mechanisms of migration control for the protection of refugees and irregular migrants The book explores how refugee and human rights law has responded to the new measures adopted by states and how states have sought cooperation with other actors in the context of migration control The book defends the thesis that when European states attempt to control the movement of migrants outside their territories they remain responsible under international law for protecting the rights of refugees as well as their general human rights It also identifies how EU law governs and constrains the various types of pre border migration enforcement employed by EU Member States and examines how unfolding practices of external migration control conform with international law This is a work which will be essential reading for scholars and practitioners of asylum and refugee law throughout Europe and the wider world The book received The Max van der Stoep Human Rights Award 2011 first prize category dissertations and the Erasmianum Study Prize 2011
