Europe In 10 Points European Documentation:

The Directory of European Union Information Sources Rebecca Bomford, 2007 This is a new sixteenth edition of the Directory of EU Information Sources It brings together a broad range of information sources comprising not only the various constituent institutions of the European Union their personnel publications information websites and representations in Europe and the rest of the world but also diplomatic representation in Brussels European level trade and professional associations and NGOs consultants and lawyers specializing in EU affairs Press Agencies EU grants and loans programmes and universities offering courses in European integration This is the most comprehensive compilation of contacts and published information on the European Union providing access to over 12 500 information sources **Europe, Discourse, and Institutions** Cristian Nitoiu, Nikola Tomic, 2014-07-25 This book focuses on how discourse and various narratives contribute to the construction of the European Union as a political actor thus seeking to challenge the more established approaches to the study of the Union It sheds light on the way discourses about the European Union are created perpetuated and then translated into policy outcomes Most of the contributions attempt to account for the differences that usually arise between discourse and policy practices The methods employed range from more traditional variants of discourse analysis to other more radical versions that emphasize power or to critical or differential reading of policy narratives and ethnography Policy areas such as trade enlargement foreign policy and the European Neighbourhood Policy ENP are discussed while a particular interest is awarded to the European Parliament and the Commission In doing so the contributions shed light on the role discourse plays in relation to policies institutional practices and value representations at the European level Moreover the authors analyse the different actors and structures that create and perpetuate discourses within the EU highlighting new insights that a focus on discourse can bring to the field of European Union studies This book was published as a special issue of *Perspectives on European Politics and Society* *European Access*, 2001 **The Sovereignty Revolution** Alan Cranston, 2004-07-16 The Sovereignty Revolution is the late Senator Alan Cranston's analysis of the problems created by our current conception of sovereignty with every nation supreme inside its own borders and acknowledging no master outside them As such it is the last testament of a senior statesman with a deep moral commitment to nuclear disarmament This book is an impassioned argument that these conceptions of sovereignty and in turn the role of international institutions must change before humanity can effectively resolve the world's increasingly global challenges from international terrorism and the proliferation of nuclear weapons to climate change and poverty Cranston argues that for humanity to survive the twenty first century we must adopt a more encompassing understanding of sovereignty one that acknowledges the primacy of the individual while emphasizing the importance of strengthening international law and increasing the authority of multilateral institutions such as the United Nations The book includes a foreword by Mikhail Gorbachev an Introduction by Jonathan Schell and response essays by Jane Goodall and Jonathan Granoff Gender Equality in the EU and Ukraine Agata

Włodkowska, Maryana Prokop, Oleksandra Struk, 2025-06-27 This book provides a comprehensive analysis of gender equality and women's rights in Ukraine and the European Union focusing on both political security and economic social dimensions. The first part examines European gender policy standards in Ukraine, feminist foreign policy, women's involvement in political protests and the influential roles of First Ladies like Brigitte Macron, Agata Kornhauser Duda and Olena Zelenska in promoting gender equality. It also explores gendered aspects of military service, the portrayal of female refugees and the EU's response to sexual violence in the context of Russia's war against Ukraine. The second part addresses economic and social issues including the intersection of gender equality with sustainable development, gender responsive budgeting and women's roles in business. It highlights women's contributions to nonprofit organizations and discusses the experiences of Ukrainian female students in Poland as well as the status of single mothers in Ukraine and the UK. The study is relevant for policy formulation by institutions working on gender equality, foreign affairs and human rights. It is also a valuable resource for universities, research institutes, think tanks and civil society organizations involved in gender equality, human rights and peacebuilding in Ukraine and Europe. The interdisciplinary nature of the publication, which integrates research from politics, law, sociology, international relations, economics and pedagogy, makes it applicable to both general and specialized courses. It is dedicated to researchers and students in the social sciences, offering key insights for courses in gender studies, political science, international relations, human rights studies, eastern policy, EU development studies and European integration and providing a foundation for critical reflection on gender equality policies and EU integration. After Madrid Great Britain. Parliament. House of Lords. European Union Committee, 2005 This report examines the EU's response to international terrorism after the Madrid bombings in March 2004, including the European Council declaration and the European Commission's proposals on data exchange and intelligence sharing between law enforcement authorities, data protection issues, EU institutional structures designed to combat terrorism, the international dimension including the role of Interpol, data transfer and passports, terrorist financing and access to financial databases. Conclusions reached by the Committee include that the EU's role in combating terrorism should remain a coordinating one in support of the Member States which must retain primary responsibility and the EU should engage with international agencies, particularly Interpol. Given the range of interests involved, effective coordination and the work of the EU Counterterrorism Coordinator are crucial and the present proliferation of EU groups and agencies needs to be reduced and streamlined. A uniform data protection regime within the EU would not only provide better data protection but would also facilitate the exchange of information. *The Routledge Handbook of the Politics of Brexit* Patrick Diamond, Peter Nedergaard, Ben Rosamond, 2018-05-08 The surprise decision expressed by the British people in the referendum held in June 2016 to leave the European Union was remarkable. It also presents a natural experiment where the exposure of a society to an extraordinary event allows scholars to observe in real time in the real world the interaction of variables. The Routledge Handbook of the Politics of Brexit takes stock of what

we know in the social science community about the Brexit phenomenon so far and looks to make sense of this remarkable process as it unfolds The book asks simple questions across a range of areas and topics so as to frame the debate into a number of navigable subdiscussions providing structure and form to what is an evolving and potentially inchoate topic As such it provides a systematic account of the background for the content of and the possible implications of Brexit The handbook therefore does not examine in detail the minutiae of Brexit as it unfolds on a day to day basis but raises its sights to consider both the broad contextual factors that shape and are shaped by Brexit and the deeper sources and implications of the British exit from the European Union Importantly as interest in Brexit reaches far beyond the shores of the United Kingdom so an international team of contributors examines and reveals the global implications and the external face of Brexit The Routledge Handbook of the Politics of Brexit will be essential reading and an authoritative reference for scholars students researchers and practitioners involved in and actively concerned about research on Brexit British politics European Union politics and comparative politics and international relations

The New Relationship between the United Kingdom and the European Union Emmanuel Guinchard,Carlo Panara,2025-03-29 Brexit has reshuffled the cards of the relationship between the United Kingdom and the European Union It is a one in a lifetime event which ended nearly 50 years of EU Membership EU law as such no longer applies in the United Kingdom and British citizens and companies no longer benefit from its advantages Part of the previous regime has however been maintained at times with amendments through the series of treaties negotiated between the UK and the EU in 2019 and 2020 in particular the Trade and Cooperation Agreement of 2020 to which the 2023 Windsor Agreement can be added The end result is a legal regime which is perhaps even more complex than EU law itself This book aims to provide the reader with a clarification of this legal regime as well as provide context to it and suggestions to improve it All key topics are covered such as citizens of the EU in the UK and British citizens in the EU trade in goods and in services criminal justice public procurement Northern Ireland the UK overseas territories the dispute settlement security and defence international trade agreements of the UK post Brexit environmental protection European civil justice financial services education and research and the European offices of the UK local authorities and devolved administrations after Brexit All the chapters follow wherever possible the same triadic structure The first part looks at the regime prior to Brexit the second part analyses the current regime and the third part discusses ongoing and predictable trends The concluding chapter attempts to identify some themes likely to impact

on the forthcoming preparation of the 2026 review EU Conflict Management James Hughes,2013-09-13 The EU's self promotion as a conflict manager is embedded in a discourse about its shared values and their foundation in a connection between security development and democracy This book provides a collection of essays based on the latest cutting edge research into the EU's active engagement in conflict management It maps the evolution of EU policy and strategic thinking about its role and the development of its institutional capacity to manage conflicts Case studies of EU conflict management within the Union in its neighbourhood and further afield explore the consistency coherence and politicization of EU strategy at the implementation stage The essays examine the extent to which the EU can exert influence on conflict dynamics and outcomes Such influence depends on a number of changing factors how the EU conceptualizes conflict and policy solutions the balance of interests within the EU on the issue divided or concerted and the degree of politicization in the EU's role the scope for an external EU role and the value attached by the conflict parties to EU engagement a value that is almost wholly bound to their interest in a membership perspective or other strong relationship to the EU rather than to shared values as an end in themselves This book was based on a special issue of *Ethnopolitics* *Greece and Spain in European Foreign Policy* Dimitrios Kavakas,2017-09-20 This title was first published in 2001 This in depth analysis of the foreign policy behaviour of Greece and Spain draws conclusions on the role and influence that the two southern member states have had at different times Dimitrios Kavakas concentrates on four aspects the history adaptation of domestic structures patterns of behaviour in participation of the Common Foreign Security Policy CFSP and the issue of securitization Allowing the reader to explore other aspects apart from the study of foreign policy of European Union member states this invaluable work will find an audience among research and masters students as well as undergraduates It is also suitable for courses of European foreign policy comparative policy analysis and specialist courses on politics international relations and European studies The Metamorphosis of the European Economic Constitution Herwig C.H. Hofmann,Katerina Pantazatou,Giovanni Zaccaroni,2019 Demonstrating the ways in which the micro and macro economic constitutions of Europe have reacted to legal measures enacted to counter the economic crisis of the past decade this innovative book takes an interdisciplinary approach in its attempt to understand and portray the metamorphosis of the European Economic Constitution It contains contributions from leading scholars and experts in European economic law discussing the challenges solutions found problems arising and possible approaches to embed the economic constitution in the broader constitutional framework of the EU p p1 margin 0 0px 0 0px 0 0px 0 0px font 10 0px Arial **The Economic and Financial Crisis and Collective Labour Law in Europe** Niklas Bruun,Klaus Lörcher,Isabelle Schömann,2014-09-18 The current economic and financial crisis erupted several years ago Its effects impacted deeply upon society in which legal rules and social patterns have developed to enable the establishment of civilisation justice and peace Over time it has become more and more obvious that policy financial and economic actors have adopted austerity measures as a main tool to solve the ensuing problems and that these measures have

hit social policy standards sometimes dramatically Recent analyses have dealt with several aspects of this issue This book focuses on one important element the impact on collective labour law It seeks to add to the debate by presenting mainly legal arguments derived from different sources and backgrounds examining the EU and Troika measures the economic and political background and the sometimes dramatic consequences of austerity measures on democracy collective bargaining and the right to strike Against the framework of EU law the relevant ILO Conventions Revised European Social Charter and European Convention on Human Rights provisions the non compliance of these measures is analysed and demonstrated The book is also dedicated to procedural questions and in particular how legal approaches may be used to challenge austerity measures

Criminal Law and Policy in the European Union Samuli Miettinen, 2013 This book takes stock of the development of EU criminal law from the establishment of the ECSC to the first European Union criminal law directives passed after the Lisbon Treaty The work considers criminal offences established at EU level the effects of EU law on national criminalization the emerging body of EU criminal procedural law and the increasing recognition of defense rights as EU rights Limits to the legal effects of EU level rules require them to be examined in the light of Member State practice Implementing measures are not always appropriate and may balance interests under national law the rights of criminal defendants and the need for EU wide approximation The proliferation of EU criminal law has led to an explicit albeit underdeveloped EU criminal policy This book will be of particular interest to students and scholars of EU Law and Criminal Law
