**European Armaments Collaboration** Ron Matthews, 2013-10-15 First published in 1992 The changing strategic environment of the 1990s has been characterised by events such as the Middle East conflagration and super power disarmament which represent the two opposing ends of the present security spectrum The framing of appropriate defence policies now depends on increased NATO industrial defence restructuring and cooperation especially within Europe This book identifies explains and analyses the key issues involved in Europe s defence industrial reorganisation progress It tackles head on controversial issues such as divergences between practice and policy in NATO US European positions the high costs of collaborative ventures competition vs concentration and the complexities of adopting an European defence consensus within NATO At a time when the diminution of NATO s defence industrial base goes hand in hand with product reorientation and specialization this book provides concise critical and contemporary assessment of European and NA TO collaborative issues

**The Handbook of European Defence Policies and Armed Forces** Hugo Meijer, Marco Wyss, 2018-06-22 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe

*The Emergence of EU Defense Research Policy* Nikolaos Karampekios, Iraklis Oikonomou, Elias G. Carayannis, 2017-11-16 This book explores European security and defense R D policy unveiling the strategic industrial institutional and ideational sources of the European Commission s military research initiative Starting from a well defined empirical epicentre the rise of non civilian R D priorities in the European Union this book covers interrelated themes and topics such as approaches to arms production and R D collaboration relationships

between European R D related institutions technology and research foundations of European security policy past and present European armament collaborations transatlantic R D collaboration the militarization of border security Divided into 5 sections the enclosed chapters explore the EU technology and innovation policy in regards to security industrial competitiveness and military capabilities The terrorist attacks in the US on September 11 2001 provided a window of opportunity for the introduction of security as a distinct European R D priority In fact since 2002 the Preparatory Action for Security Research PASR has funded 45 million euros to 39 research consortia to conduct security R D While the idea of pooling defense research efforts and programmes in Europe is not new the establishment of institutions like the European Defense Agency EDA are a major step into institutionalizing European agencies involvement in supporting defense technology research It is against this backdrop of policy developments that this book is positioned in addition to addressing some of the political economic industrial and philosophical questions that arise Featuring contributions from a variety of academic fields and industries this book will be of interest to scholars researchers students and policy makers in the fields of security policy international relations innovation European studies and military studies *Britain and Defence 1945-2000* Stuart Croft, Peter Dorman, 2014-06-06 This text provides a concise thematic introduction to the evolution of British defence policy since the end of the second world war **European Armaments Collaboration** Ron Matthews, 2013-10-15 First published in 1992 The changing strategic environment of the 1990s has been characterised by events such as the Middle East conflagration and super power disarmament which represent the two opposing ends of the present security spectrum The framing of appropriate defence policies now depends on increased NATO industrial defence restructuring and cooperation especially within Europe This book identifies explains and analyses the key issues involved in Europe s defence industrial reorganisation progress It tackles head on controversial issues such as divergences between practice and policy in NATO US European positions the high costs of collaborative ventures competition vs concentration and the complexities of adopting an European defence consensus within NATO At a time when the diminution of NATO s defence industrial base goes hand in hand with product reorientation and specialization this book provides concise critical and contemporary assessment of European and NA TO collaborative issues **The Arms Trade, Security and Conflict** Paul Levine, Ron Smith, 2003-05-15 An area of huge concern to many people around the world the economics of the Arms Industry are a vital strand that needs to be understood This volume brings together contributors from all over the globe and focuses on this important area **The Economics of UN Peacekeeping** Nadège Sheehan, 2011-07-25 Peacekeeping is a security concept that is very representative of the current interventionism multilateralism human rights and humanitarian ideas UN peacekeeping plays an important role in international security and includes various activities that go beyond the original roles assigned to UN armed forces e g humanitarian aid election supervision disarmament mine clearance civilian protection and peacebuilding The problem is to define the economic efficiency of these operations and to develop some

recommendations in the context of an economic globalization process Although UN peacekeeping has shortcomings it must be considered essential for organizing and defending the world politico economic order UN peacekeeping is a political activity but its production strongly depends on nations economic considerations Governments make political decisions that also take into account the economic gains they expect to obtain from their contribution to any specific mission With low means and inadequate strategies to meet the challenges UN peacekeeping must pay particular attention to resolving the problems of free riding and of prisoner s dilemma in contributions that delay deployments and create significant financial problems Understanding how peacekeeping can be most cost effectively carried out while considering the importance of legitimacy in interventions is essential This book believes that regional organizations can ease the UN s financial responsibility by managing conflicts in their regions But to be most effective they must involve the UN in their interventions This book also emphasizes UN peacekeeping trust funds as the key to better financial effectiveness It strongly recommends that NATO be empowered by the UN with the role of global peace police and proposes the establishment of a UN high ranking team of international specialists in peacekeeping issues This research should be of interest to students and researchers looking at international and political economics as well as international relations defence security and peace studies

Economic

Theories of Peace and War Fanny Coulomb, 2004-07-29 War often comes down to one thing money The role of economics in the study of both peace and war is arguably then the most important single factor when it comes to the study of defence This excellent new book from Fanny Coulomb will be of interest not only to those involved in the burgeoning field of defence economics it will also be of vital

The Economic Analysis of Terrorism Tilman Brück, 2007-03-12 Whilst most books look at the political response to terror this unique book takes an economic approach and includes contributions from Todd Sandler Sanjay Jain Andrew Chen Valpy Fitzgerald and Dennis Mueller Research in the field of terrorism has increased dramatically since 9 11 responding to the sudden need by policy makers journalists and the general public to understand terrorism A unique feature of this field of research is that it expands beyond typical academic categories such as macroeconomics development studies international relations or peace science instead a range of analysts have applied their various skills of different sub disciplines to a common theme since 9 11 providing inter disciplinary insights characterized by a clear focus

Managing the Revolution in Military Affairs R. Matthews, J. Treddenick, 2001-08-20 The collapse of the Soviet Union and the end of the Cold War was the catalyst for profound changes in the global security and defence management environment including alterations in the size structure and configuration of the Armed Forces emergence of asymmetrical warfare recognition of the strategic significance of military infosphere embracing all dimensions of the virtual and vertical battlespace emphasis on coalition warfare and defence industrial cooperation and reform of the financial procurement and logistical systems The contributors to this book evaluate these environmental changes within a defence management context
