## **European Community Case Law Summaries Of Leading Ec Court Cases:**

**European Community Case Law** Hjalte Rasmussen, 1993-10-01      The Principle of Legal Certainty in EC Law J. Raitio, 2013-03-14 The intertwining of EC law and national law may create unforeseeability in situations where EC law invades the national cases which gives rise to the very question of legal certainty in EC law This study contributes to the contemporary discussion which wrestles with the following questions in particular What have been the visions and objectives for European integration in the last decades How to describe European Union as a political entity and a legal system What is the relationship between legal certainty rule of law various general principles and human rights What is the core of legal certainty on the basis of the case study What kind of legal arguments and patterns of justification are there from a comparative perspective How has the term legal certainty been defined in the Nordic legal theory How predictable and acceptable are the interpretations of the European Court of Justice is it running wild Legal certainty relates to the principle of non retroactivity and the protection of legitimate expectations in particular but more profoundly it can be related to the conceptual scale for weighing up and balancing between formal justice and material fairness in legal decision making This scale is illustrated by presenting the terms formal factual and substantive legal certainty      Objectivity in Law and Legal Reasoning Jaakko Husa, Mark Van Hoecke, 2013-01-28 Legal theorists consider their discipline as an objective endeavour in line with other fields of science Objectivity in science is generally regarded as a fundamental condition informing how science should be practised and how truths may be found Objective scientists venture to uncover empirical truths about the world and ought to eliminate personal biases prior commitments and emotional involvement However legal theorists are inevitably bound up with a given legal culture Consequently their scholarly work derives at least in part from this environment and their subtle interaction with it This book questions critically in novel ways and from various perspectives the possibilities of objectivity of legal theory in the twenty first century It transpires that legal theory is unavoidably confronted with varying conceptions of law underlying ideologies approaches to legal method argumentation and discourse etc which limit the possibilities of objectivity in law and in legal reasoning The authors of this book reveal some of these underlying notions and discuss their consequences for legal theory      **National Identity and the Varieties of Capitalism** John L. Campbell, John A. Hall, Ove Kaj Pedersen, 2006 Denmark has out performed most other advanced capitalist countries since the mid 1980s Contributors to National Identity and the Varieties of Capitalism draw from the literature on capitalism and small states and corporatism to explore why this is the case They find that Danish political and economic institutions facilitate bargaining and consensus building in ways that have enabled the state businesses and labour unions to adapt to the challenges of globalization Moreover by virtue of its small size homogeneous population and response to a variety of international challenges both economic and geopolitical Denmark has developed a strong national identity that further bolsters consensus building The result has been an adaptable and flourishing national political economy      **Commercial**

**European Communities** John Paxton, 1992-01-01 The establishment of the European Economic Community in 1958 was one of the most remarkable developments in the history of the post World War II era It aimed for nothing less than a complete economic union so that goods people and capital would be able to pass over national boundaries of member countries as freely as they move within any one country As the Community's target date of 1992 for economic integration draws closer the need for information both current and historical becomes more urgent The aim of this annotated bibliography is to create a critical and descriptive list of books published mainly in English for businessmen and analysts combining older publications with new The literature on the EC is vast and issues The Community itself nearly 3000 publications a year The range of material covered in this volume is distinguished by its great scope Historical sections provide listings on the postwar years of economic recovery the development of the EC and biographies of the leading personalities involved Policy oriented sections encompass such subjects as labor transportation environment energy and education The political ramifications of economic union financial

and fiscal affairs relations between the EC and the Third World and foreign relations in general are dealt with in separate sections The volume concludes with a listing of major European Community publications The sheer bulk of published material on the EC much of it duplication has made keeping up with its developments difficult for small and medium in Europe and elsewhere This invaluable sourcebook will provide the business community and the political establishments with better access to EC information as they grapple with the implications of 1992

**The Jurisprudence of Constitutional Conflict in the European Union** Ana Bobić, 2022-05-12. A comparative and comprehensive account of the jurisprudence of constitutional conflict between the Court of Justice and national courts with the power of constitutional review. This monograph addresses the incidences of and reasons for constitutional clashes in the application and enforcement of EU law. It aims to determine how the principle of primacy of EU law works in reality and whether the jurisprudence of the courts under analysis supports this concept. To this end, the book explores the three areas of constitutional conflict: *ultra vires* review, identity review and fundamental rights review. The book substantiates the descriptive and strengthens the normative contributions of the theory of constitutional pluralism in relation to the web of relations in the European judicial space. By examining the influence that the jurisprudence of constitutional conflict has on the balance of powers between the Court of Justice and constitutional courts, the volume develops the judicial triangle as an analytical tool that depicts the consequences for the horizontal constitutional courts vis-à-vis the Court of Justice and vertical judicial relationships: Court of Justice vis-à-vis ordinary national courts, constitutional courts vis-à-vis ordinary national courts. By offering a thorough compilation of the jurisprudence of constitutional conflict in the EU, **The Jurisprudence of Constitutional**

Conflict in the European Union improves our understanding of the principle of primacy of EU law and its limits as well as reinforces the theory of constitutional pluralism in explaining and guiding judicial power relations and interactions in the EU
