Stokman, 1994 This pathbreaking book illuminates the politics of issue resolution within the European Community with evaluations and comparisons of competing models of decision making across twenty two policy issues Written by American and Dutch scholars the book will be of great interest to students of comparative politics public policy analysts mathematic modelers and all those concerned with the development of the European Community One set of models explored in this volume the expected utility model treats politics as a conflictual activity while the other the exchange or log rolling model emphasizes the cooperative nature of political processes The alternative approaches model decision making in fundamentally different ways and make very different predictions about how issues in the European Community will be resolved To facilitate direct comparison of their predictive and explanatory value the models in this volume are based on the same variables the potential control of actors over outcomes the salience of the issues for the actors and the outcomes preferred by the actors The contributors test their models in the context of sixteen issues already resolved by the Council of Ministers and six issues currently under consideration providing the reader with considerable knowledge about the controversies surrounding European Community policy on such topics as automobile emissions nuclear radiation norms air transport liberalization and the European banking system They conclude that the conflictual model and the cooperative model are less competitive and more complementary than has been thought and they explain in detail how the models can be fruitfully combined     Decision making in the EU before and after the Lisbon Treaty Madeleine Hosli, Amy Kreppel, Běla Plechanová, Amy Verdun, 2017-10-02 Decision making in the European Union before and after the Lisbon Treaty aims to assess what the changes the Treaty of Lisbon envisaged and whether these ambitions have materialised since

the Treaty entered into force It offers analyses of the past as well as what might be the future because some provisions will only enter into effect in the years to come To what extent has the current decision making process been able to address the shortcomings and challenges of the past What has been the impact of aspects of the Lisbon Treaty that clarified pre existing norms and structures in some cases formalizing them rather than introducing new changes The authors in this book look at the interaction between formal rules and informal practices seeking to point to the interaction between the two They find that informal practices to date typically still dominate formal rules This book was published as a special issue of West European Politics

**Hegemony and Democracy** Bruce Russett, 2011-03-10 Hegemony and Democracy is constructed around the question of whether hegemony is sustainable especially when the hegemon is a democratic state The book draws on earlier publications over Bruce Russett's long career and features new chapters that show the continuing relevance of his scholarship In examining hegemony during and after the Cold War it addresses The importance of domestic politics in the formulation of foreign policy The benefits and costs of seeking security through military power at the expense of expanding networks of shared national and transnational institutions The incentives of other states to bandwagon with a strong but unthreatening hegemon and free ride on benefits it may provide rather than to balance against a powerful hegemon The degree to which hegemony and democracy undermine or support each other By applying theories of collective action and foreign policy Russett explores the development of American hegemony and the prospects for a democratic hegemon to retain its influence during the coming decades This collection is an essential volume for students and scholars of International Relations American Politics and US Foreign Policy

*Bureaucrats as Law-makers* Frank M. Häge, 2013 The Council of Ministers is one of the most powerful institutions of the European Union EU and plays a major role in the European policy making process Drawing on formal theory and combining quantitative and qualitative methods in an innovative fashion this book provides novel insights into the role of national bureaucrats in legislative decision making of the Council of the EU The book examines and describes the Council of Ministers committee system and its internal decision making process Relying on a wide quantitative dataset as well as six detailed case studies in the policy areas of Agriculture Environment and Taxation it provides a comprehensive and systematic assessment of the extent to which national bureaucrats act as law makers in the Council It also examines the degree to which theories on collective decision making delegation and international socialization can account for variation in the involvement of bureaucrats Investigating how often and why national officials in working parties and committees rather than ministers make legislative decisions in the EU this book addresses the implications of bureaucratic influence for the democratic legitimacy of Council decision making The author finds that ministers play a generally more important role in legislative decision making than often assumed alleviating to some extent concerns about the democratic legitimacy of Council decisions Bureaucrats as Law Makers will be of interest to students scholars and practitioners in the field of European Union politics and policy making legislative decision making

intergovernmental negotiations and international socialization

**Understanding Commanders' Information Needs for Influence Operations** Eric Victor Larson, Arroyo Center, 2009 Documents a study whose goals were to develop an understanding of commanders information requirements for cultural and other soft factors in order to improve the effectiveness of combined arms operations and to develop practical ways for commanders to integrate information and influence operations activities into combined arms planning assessment in order to increase the usefulness to ground commanders of such operations

European Integration and its Limits Daniel Finke, 2024-10-31 Since its legal foundation in 1993 the European Union has been challenged by three concurring developments Its decision making bodies groaned under burgeoning legislative activity and Eastern enlargement was expected to limit law making efficiency At the same time European citizens grew wary of EU politics and increasing integration This book explains how European governments handled these challenges and step by step agreed on significant reforms which led to the signing of the Lisbon Treaty in December 2007 Drawing on unique survey data European Integration and Its Limits provides a solid empirical analysis of the three most important intergovernmental conferences It shows how far voters and political parties have been able to influence European treaty reforms and it scrutinises the mechanisms underlying intergovernmental treaty negotiations in an ever growing Union The book discusses the domestic position formation process as well as the dynamics of intergovernmental bargaining Ultimately it explains European integration from Maastricht to Lisbon

**Going Europe or Going Dutch?** Mendeltje Keulen, 2025-10-01 The European Union has a huge impact on the government and policies of its member states It is thus surprising that the ways in which national governments attempt to shape EU policies is a topic seriously understudied This book discusses relevant academic insights and presents a framework for analysing national interest representation The empirical part discusses the EU policy of the Dutch government throughout the 1990s and presents a reconstruction of the negotiations on two internal market directives It thereby offers both for academics and practitioners a clear oversight of the making of European policies and the relevant moments and instruments for national interest representation

*The Common Fisheries Policy in the European Union* Eugénia da Condeição-Heldt, 2004-03-01 The purpose of this book is neither to duplicate overviews of the Common Fisheries Policy CFP nor to recapitulate narrative treatments of the European integration process The aim is to comprehend how EU negotiations work theoretically and empirically so that a conceptual framework for analyzing EU international negotiations will be provided and juxtaposed to two key negotiations leading to the establishment of the CFP

*The Political Influence of Business in the European Union* Andreas Dur, David Marshall, Patrick Bernhagen, 2019-02-28 Many citizens politicians and political activists voice concern about the political influence of business in the European Union But do business interests really pull the strings in Brussels Contrary to expectations this book shows that business interests are no more influential than other interests in shaping contemporary EU policies Andreas Dur David Marshall and Patrick Bernhagen present an original argument that stresses the role of public actors in facilitating or

impeding interest groups lobbying success Novel data on a large number of legislative proposals on the EU's agenda and three case studies present strong support for this argument The Political Influence of Business in the European Union offers new insights into how lobbying success depends on the demand and supply of information as well as new ideas on how to measure lobbying success The book advances a fresh perspective on the question of business power and shows why business interests often lose in the policy struggle

**Preferences and Procedures** Torsten J. Selck, 2006-07-02 Preferences and Procedures presents and tests game theoretic models of European Union legislative decision making It is inspired by the idea of linking statistical testing strategies firmly to formal models of EU policymaking After describing salient features of the EU legislative process and comparing different models of how the EU negotiates new legislative measures the models' predictive power is evaluated On a more general level Preferences and Procedures answers questions regarding the empirically recognizable effects of institutional arrangements on joint bargaining outcomes

**European Politics** Jan-Erik Lane, Svante Ersson, 1996-08-19 This comprehensive textbook is the first to go beyond a West European perspective and provide a clear overview of the whole of European politics Jan Erik Lane and Svante Ersson address the similarities of key political features among states in Western Central Eastern Northern and Southern Europe and look forward to political developments at the turn of the century Traditionally books have polarized Europe by focusing on points of divergence European Politics provides a thoroughgoing analysis of several converging themes including political culture the nature of the state party systems and the formation of government and public policies With this approach to economic social and political aspects of politics in Europe this major text presents a Europe that within the context of reform transition and integration has more in common in the early 1990s than ever before With a clear thematic structure and helpful discussions of data drawn from some 30 countries European Politics offers both an accessible and genuinely comparative text which will be essential reading for student and researcher alike

**Rethinking Political Risk** Cecilia Emma Sottolotta, 2016-10-14

Political risk was first introduced as a component for assessing risk not directly linked to economic factors following the flow of capital from the US to Europe after the Second World War. However, the concept has rapidly gained relevance since, with both public and private institutions developing complex methodologies designed to evaluate political risk factors and keep pace with the internationalization of trade and investment. Continued global and regional economic and political instability means a plethora of different actors today conduct a diverse range of political risk analyses and assessments. Starting from the epistemological foundations of political risk, this book bridges the gap between theory and practice, exploring operationalization and measurement issues with the support of an empirical case study on the Arab uprisings, discussing the role of expert judgment in political forecasting and highlighting the main challenges and opportunities political risk analysts face in the wake of the digital revolution.
