STEM for All Ages Seán G.Dwyer,2014-02 The brothers who invented the first successful aircraft were not Orville and Wilbur They were preceded by the Montgolfier brothers 120 years earlier in a type of aircraft still in wide use today 150 years before them the Celebi brothers made the first survivable rocket and intercontinental flights With the goal of providing an interesting learning experience the book s focus is not just on STEM Science Technology Engineering Math Also included is analysis of Cause Effect and a lot of surprising history So it is not just about HOW things work it is also about WHY they happened that way and the consequences Roughly every 500 years new technology completely disrupts society changing borders laws and the way people live and work It happened again with the emergence of the Digital Age Because aviation involves many fields of science it is a particularly interesting way to show how STEM is a continuum of mutually supporting elements Applications of chemistry physics astronomy navigation programming and paradigm paralysis are presented in a hands on understandable way
