Between the two world wars my father took an interest in poems and rhymes from the Great War and wrote some 30 of them down in a notebook along with other poetry This book is based on those poems and the Great War In 1914 Britain was reluctantly drawn into war with Germany in support of France an inevitability that had been forecast since the signing of the Entente Cordiale Germany had the biggest army in the world and was the belligerent by declaring war against Russia and through that act France then England by treaty or agreement was also committed In 1914 Britain s had a pathetically small army but by 1918 it was equal in size to the armies of Germany and France and was taking the brunt of the fighting alongside a French army weakened by mutiny and low morale Throughout the war the BEF fought heroically and courageously at times forced to retreat but they were never beaten The enemy never managed to break through to the important centres or the Channel ports nor did they ever break the British spirit Yet the BEF were scorned by the powers that be at home and treated with ignominy Lloyd George failed disgracefully to stand by the General Staff in France who without doubt in some instances made mistakes they were however guided by their conscience and better judgement in their attempts to bring the war to an early conclusion I hope that this book goes some way to restoring their credibility and shows the efforts of those who were there in a fairer perspective **Statutes at Large, Treaties and Proclamations of the United States of America from ...** United States,1905 **A collection of the public general**
