First Person Rural Essays Of A Sometime Farmer:

First Person Rural Noel Perrin, 1978 **Best Person Rural** Noel Perrin, 2006 In 1963 Noel Perrin a 35 year old professor of English at Dartmouth College bought an 85 acre farm in Thetford Center Vermont For the next forty years he spent half his time teaching half writing and half farming That this adds up to three halves I am all too aware he said sounding a characteristic self deprecating note of bittersweet amusement at the chalk on his coat the sweat on his brow and the mud and worse on his boots I love this farm he wrote shortly before his death in 2004 every acre of it The maples the apple trees the cattle the wild turkeys I love the brick farmhouse which I believe to be about 190 years old and the two barns I love the view from the kitchen window and the grander view to be had if you climb Bill Hill the farm s in house mini mountain The thing that delights me most though is that the farm really is a farm It produces a little food every year and most years a little fuel as well It also produced four volumes of essays beginning with First Person Rural 1978 Some of Perrin s pieces are practical how to build a stone wall others philosophical why to build a stone wall One pretends to be about amateur sugar making but it is really a metaphor for reality and illusion Another pretends to be about the country as a retreat but is really about the country as a place to meet the world head on One is a dangerous character sketch of a sow dangerous because as Roy Blount said after reading it It almost made me decide to go ahead and get pigs In short these essays are as good as the literature of farming gets **Best Person Rural** is a harvest feast bringing together twenty of Perrin s best loved pieces and five previously uncollected items including his moving Farewell to a Thetford Farm **First Person Rural** Noel Perrin, 1994-09 These essays all concerned with countryish things range from intensely practical to mildly literary Transplanted from New York fifteen years ago and now a real life Vermont farmer Noel Perrin candidly admits to hilarious early mistakes In Search of the Perfect Fence Post while presenting down to earth advice on such rural necessities as Sugaring on 15 a Year Raising Sheep and Making Butter in the Kitchen But as everyone who has read his essays in The New Yorker Country Journal and Vermont Life will confirm not everything Perrin writes is strictly about the exigencies of country life While one essay seems to discuss the use of wooden sap buckets it really addresses the nature of illusion and reality as they coexist in rural places Walking Seasonal Roads Mary A. Hood, 2012-05-18 Seasonal roads are defined as one lane dirt roads not maintained during the winter They function as connectors linking farmers to their fields neighbors to neighbors or two more well traveled roads to each other Some access hunting lands and recreational areas Some pass by cemeteries allowing people to visit and honor their dead They can be abandoned as people move and towns fade In every incarnation the seasonal road touches the land in a gentler way than do other roads Having traveled nearly every seasonal road in Steuben County New York Hood finds they provide the ideal vantage to contemplate the meaning of place offering intimate contact with plant and wildlife and the beauty of a rural landscape Each road reveals how our land is used how our land is protected and how environmental factors have impacted the land As a literary naturalist Hood reflects on endangered

species and invasive species as well as on issues of conservation and sustainability From state forests to potato fields from development along Keuka Lake to vineyards from old family cemeteries to logging sites *Walking Seasonal Roads* is a celebration and an honoring of the rural and the regionalism of place illustrating the ways we connect to our home and to each other

Vermont: A History Charles T. Morrissey, 1984-12-17 For many Americans Vermont still seems what the United States at least in myth once was a bucolic landscape of wooded hills neat farms and handsome villages before modern forces transformed our agrarian nation into an urban industrial giant Vermonters have long been respected as sturdy Americans who prize hard work honest dealing town meeting government and dry humor Their way of life along with the beauty of their Green Mountains and quiet valleys remains immensely attractive to natives and newcomers who seek beauty and the satisfaction of self sufficiency in a natural environment where rocky soil and a varied climate have always compelled respect

The Countryside Ideal Michael Bunce, 2005-10-26 Draws together diverse images of landscape to explore the historical processes shaping our continuing attachment to the countryside seen in artistic expression attitudes to nature country life and the development of rural and urban land

Harrison, 2006 With its small native population proximity to major metropolitan areas and bucolic rural beauty Vermont was fated to be a tourist mecca forever associated in the popular imagination with maple syrup fall colors and ski bunnies Tourism for good and ill has always been the decisive factor in the conception of rural Vermont What is surprising however is the degree to which we have accepted this notion of rural Vermont as a somehow timeless entity Blake Harrison's rich and rewarding study instead presents the construction of Vermont's landscape as a complex and ever changing dynamic informed by progressive modernist and reformist thought competing views of economic expansion rural and urban prejudice and social exclusion and more recently by land use planning and environmentalism This broad based study includes the early history of Vermont tourism the concomitant abandonment of farms with the rise of the summer home the creation of an unspoiled

Vermont from billboards at least the impact of Vermont's ski industry on tradition bound tourism and later efforts to legislate growth and protect an increasingly static ideal of a rural Vermont While grounded within a specific Vermont view Harrison has much to contribute to broader studies of rural places tourism and landscapes in American culture His analysis of how physical landscapes affect and are affected by our imagined landscape and the insight afforded by his juxtaposition of leisure and labor will deeply inform our understanding of rural tourist landscapes for years to come This is a truly interdisciplinary work that will satisfy and challenge historians and geographers alike **Vermont Life** ,2006 Nature Writing Don Scheese,2013-10-28 In this comprehensive study of the genre Don Scheese traces its evolution from the pastoralism evident in the natural history observations of Aristotle and the poetry of Virgil to current American writers He documents the emergence of the modern form of nature writing as a reaction to industrialization Scheese's personal observations of natural settings sharpen the reader's understanding of the dynamics between author and locale His study is further informed by ample use of illustrations and close readings core writers such as Thoreau John Muir and Mary Austin showing how each writer's work exemplifies the pastoral tradition and celebrate a spirit of place in the United States *Moon Vermont* Jen Rose Smith,2019-05-21 From snowy resorts and fall foliage to maple syrup and artisanal cheese get to know the Green Mountain State with Moon Vermont Inside you'll find Strategic flexible itineraries like a week touring the food scene the great outdoors and the best of the state with ideas for families foodies outdoor adventurers and more Must see highlights and unique experiences Wander through historic Montpelier quirky Brattleboro or charming Woodstock Take a horse drawn sleigh ride through fresh fluffy snow visit the woods that inspired Robert Frost or stock up on flannels at an old fashioned country store Cruise the highway to see the stunning changing leaves go cross country skiing hike a segment of the Long Trail or cool off in a swimming hole Dine at innovative restaurants serving forest foraged cuisine and sample small batch artisanal cheese a flight of craft brews and maple syrup Scenic drives in Vermont for viewing fall foliage the best romantic getaways and the top ski areas in the state Honest recommendations from Vermont local Jen Rose Smith on when to go where to eat and where to stay from budget campgrounds to historic bed and breakfasts Full color photos and detailed maps throughout Accurate up to date information on the landscape wildlife and history Handy tips for international visitors seniors travelers with disabilities and more With Moon Vermont's practical tips and local know how you can find your adventure Expanding your trip Try Moon Maine Vermont New Hampshire Hitting the road Check out Moon New England Road Trip
