First Socialist Society A History Of The Soviet Union From Within:

The First Socialist Society Geoffrey A. Hosking, 1993 The First Socialist Society is the compelling and often tragic history of what Soviet citizens have lived through from 1917 to the present told with great sympathy and perception It ranges over the changing lives of peasants urban workers and professionals the interaction of Soviet autocrats with the people the character and role of religion law education and literature within Soviet society and the significance and fate of various national groups As the story unfolds we come to understand how the ideas of Marxism have been changed taking on almost unrecognizable forms by unique political and economic circumstances Hosking s analysis of this vast and complex country begins by asking how it was that the first socialist revolution took place in backward autocratic Russia Why were the Bolsheviks able to seize power and hold on to it The core of the book lies in the years of Stalin s rule how did he exercise such unlimited power and how did the various strata of society survive and come to terms with his tyranny The later chapters recount Khrushchev s efforts to reform the worst features of Stalinism and the unpredictable effects of his attempts within the East European satellite countries bringing out elements of socialism that had been obscured or overlaid in the Soviet Union itself And in the aftermath of the long Brezhnev years of stagnation and corruption the question is posed can Soviet society find a way to modify the rigidities inherited from the Stalinist past The First Socialist Society Geoffrey A.

Studyguide for First Socialist Society Cram101 Textbook Reviews, 2013-05 Never HIGHLIGHT a Book Again Includes all testable terms concepts persons places and events Cram101 Just the FACTS101 studyguides gives all of the outlines highlights and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanies 9780872893795 This item is printed on demand **God, Science, and Society: The Origin of the Universe, Intelligent Life, and Free Societies** Anthony Walsh, 2020-07-07 It may seem bizarre but in my opinion science offers a surer path to God than religion science has actually advanced to the point where what were formerly religious questions can be seriously tackled Paul Davies Astrophysicist Anthony Walsh s latest riposte to atheistic arguments against God s existence draws on Natural Theology a knowledge of God based on evidence from both the natural and social sciences Covering everything from the Big Bang and the origins of life to the mystery of intelligent consciousness Walsh makes even the most technical scientific writings accessible to the general reader and tackles a question few books on the relationship between science and religion have ever sought to address how does Christianity positively affect societies families and individuals in terms of democracy justice happiness health and prosperity The French Revolutionary Tradition in Russian

and Soviet Politics, Political Thought, and Culture Jay Bergman, 2019-08-14 Because they were Marxists the Bolsheviks in Russia both before and after taking power in 1917 believed that the past was prologue that embedded in history was a Holy Grail a series of mysterious but nonetheless accessible and comprehensible universal laws that explained the course of history from beginning to end Those who understood these laws would be able to mould the future to conform to their own expectations But what should the Bolsheviks do if their Marxist ideology proved to be either erroneous or insufficient if it could not explain or explain fully the course of events that followed the revolution they carried out in the country they called the Soviet Union Something else would have to perform this function The underlying argument of this volume is that the Bolsheviks saw the revolutions in France in 1789 1830 1848 and 1871 as supplying practically everything Marxism lacked In fact these four events comprised what for the Bolsheviks was a genuine Revolutionary Tradition The English Revolution and the Puritan Commonwealth of the seventeenth century were not without utility the Bolsheviks cited them and occasionally utilized them as propaganda but these paled in comparison to what the revolutions in France offered a century later namely legitimacy inspiration guidance in constructing socialism and communism and not least useful fodder for political and personal polemics

Encyclopedia of the Cold War Ruud van Dijk, William Glenn Gray, Svetlana Savranskaya, Jeremi Suri, Qiang Zhai, 2013-05-13 Between 1945 and 1991 tension between the USA its allies and a group of nations led by the USSR dominated world politics This period was called the Cold War a conflict that stopped short of a full blown war Benefiting from the recent research of newly open archives the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose developed and was resolved This work examines the military economic diplomatic and political evolution of the conflict as well as its impact on the different regions and cultures of the world Using a unique geopolitical approach that will present Russian perspectives and others the work covers all aspects of the Cold War from communism to nuclear escalation and from UFOs to red diaper babies highlighting its vast ranging and lasting impact on international relations as well as on daily life Although the work will focus on the 1945 1991 period it will explore the roots of the conflict starting with the formation of the Soviet state and its legacy to the present day

Trust and Social Transformation Heiko Schrader, 2004 Literature on trust has experienced a continuous growth from the 1970s onward The focus of sociological and political science theories is not so much on what trust is rather than what trust does its function where it comes from its origin and how it changes in course of time Books on transformation in Eastern Europe however are mainly related to questions of system transfer and institutional change rather than interpersonal relations within society that can constitute both an opportunity for and an obstacle to social transformation With this book German and Russian scholars intend to fill this gap This collection includes theoretical papers articles that link topics of trust and empirical historical observations and empirical research on trust and transformation

Power and Protest Jeremi Suri, 2005-04-15 Suri puts the tumultuous 1960s into international perspective in the first study to examine connections between great power diplomacy and global

social protest He examines the decade through leaders and protesters on three continents including Mao Zedong Charles de Gaulle Martin Luther King Jr Daniel Cohn Bendit and Aleksandr Solzhenitsyn The American Bibliography of Slavic and East European Studies Patt Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology **Living Soviet in Ukraine from Stalin to Maidan** Michael T. Westrate, 2016-04-29 What the world is now witnessing in Ukraine is the cumulative effect of history and memory in the lives of the people of the region and this book directly addresses those subjects Although the majority of scholarship on the Soviet Union focuses on top level political and intellectual elites these groups were only tiny minorities What was life like for the rest of society What was it like for the vast population that usually supported the regime mostly accepted the rules essentially internalized the ideology and generally made the same choices as their neighbors and friends What was it like to live Soviet as the USSR hit its peak as a superpower and then fell apart What was it like to live Soviet in Ukraine in the decade after independence This book answers those questions It is an oral history of a group of military colonels and their wives children and contemporaries covering their lives from childhood to the present During this period these military families went from comfortable economic circumstances professional prestige and political influence as part of the Soviet upper stratum to destitution and disgrace in the 1990s Today many of them are part of Europe's largest ethnic minority Russians in Ukraine The geographic focus is Kharkiv the second largest city in Europe's second largest country a Russian speaking city in eastern Ukraine Based on 3 000 pages of interview transcripts and supplemented with materials gleaned from unprecedented access to personal family and institutional archives the book investigates how families endured shifting social cultural and political realities By analyzing the lives of individuals in context Westrate provides insights at the grassroots level He reveals how ideological professional gender ethnic and national imperatives as developed and transmitted by elites were internalized transformed or rejected by the rank and file He reveals how the subjective identities of individuals and small groups developed and changed over time and how that process relates to the parallel projects pursued by the leaders of their countries In the process he shows what those experiences have to offer the study of Soviet post Soviet and transnational history bridging the boundaries created by the collapse of the USSR and exploring the foundations of both twenty first century Ukraine and today's conflicts *Life and Terror in Stalin's Russia, 1934-1941* Robert W. Thurston, 1998-11-10 Examining Stalin's reign of terror this text argues that the Soviet people were not simply victims but also actors in the violence criticisms and local decisions of the 1930s It suggests that more believed in Stalin's quest to eliminate internal enemies than were frightened by it **Russia and the Idea of the West** Robert English, 2000-10-25 An intriguing intellectual portrait of a generation of Soviet reformers this book is also a fascinating case study of how ideas can change the course of history In most analyses of the Cold War's end the ideological aspects of

Gorbachev's new thinking are treated largely as incidental to the broader considerations of power as gloss on what was essentially a retreat forced by crisis and decline Robert English makes a major contribution by demonstrating that Gorbachev's foreign policy was in fact the result of an intellectual revolution English analyzes the rise of a liberal policy academic elite and its impact on the Cold War's end English worked in the archives of the USSR Foreign Ministry and also gained access to the restricted collections of leading foreign policy institutes He also conducted nearly 400 interviews with Soviet intellectuals and policy makers from Khrushchev and Brezhnev era Politburo members to Perestroika era notables such as Eduard Shevardnadze and Gorbachev himself English traces the rise of a Westernizing worldview from the post Stalin years through a group of liberals in the late 1960s 70s to a circle of close advisers who spurred Gorbachev's most radical reforms

Alchemists of Human Nature Petteri Pietikainen, 2015-10-06 A study of Modernist utopias of the mind This book examines the psychodynamic writings of Otto Gross C G Jung Wilhelm Reich and Erich Fromm It argues utopianism became increasingly important to the fundamental ambitions of all four thinkers and places the utopian impulse with the historical context of the early twentieth century Victor Serge Susan Weissman, 2013-02-12 Revolutionary novelist historian anarchist Bolshevik and dissident Victor Serge is one of the most compelling figures of Soviet history Set against some of the momentous events of the twentieth century Victor Serge reveals dauntless vigor of a man whose views often reflect the struggles of our own time *The Suburb of Dissent* Caren Irr, 1998 A study of a range of leftist literature of the 30s in its cultural milieu *The Cold War* Spencer C. Tucker, 2020-10-27 This sweeping reference work covers every aspect of the Cold War from its ignition in the ashes of World War II through the Berlin Wall and the Cuban Missile Crisis to the collapse of the Soviet Union in 1991 The Cold War superpower face off between the Soviet Union and the United States dominated international affairs in the second half of the 20th century and still reverberates around the world today This comprehensive and insightful multivolume set provides authoritative entries on all aspects of this world changing event including wars new military technologies diplomatic initiatives espionage activities important individuals and organizations economic developments societal and cultural events and more This expansive coverage provides readers with the necessary context to understand the many facets of this complex conflict The work begins with a preface and introduction and then offers illuminating introductory essays on the origins and course of the Cold War which are followed by some 1 500 entries on key individuals wars battles weapons systems diplomacy politics economics and art and culture Each entry has cross references and a list of books for further reading The text includes more than 100 key primary source documents a detailed chronology a glossary and a selective bibliography Numerous illustrations and maps are inset throughout to provide additional context to the material *Anarchy and the Law* Edward P. Stringham, 2017-07-05 Private property anarchism also known as anarchist libertarianism individualist anarchism and anarcho capitalism is a political philosophy and set of economic and legal arguments that maintains that just as the markets and private institutions of civil society provide food shelter and other

human needs markets and contracts should provide law and that the rule of law itself can only be understood as a private institution To the libertarian the state and its police powers are not benign societal forces but a system of conquest authoritarianism and occupation But whereas limited government libertarians argue in favor of political constraints anarchist libertarians argue that to check government against abuse the state itself must be replaced by a social order of self government based on contracts Indeed contemporary history has shown that limited government is untenable as it is inherently unstable and prone to corruption being dependent on the interest group politics of the state s current leadership Anarchy and the Law presents the most important essays explaining debating and examining historical examples of stateless orders Section I Theory of Private Property Anarchism presents articles that criticize arguments for government law enforcement and discuss how the private sector can provide law In Section II Debate limited government libertarians argue with anarchist libertarians about the morality and viability of private sector law enforcement Section III History of Anarchist Thought contains a sampling of both classic anarchist works and modern studies of the history of anarchist thought and societies Section IV Historical Case Studies of Non Government Law Enforcement shows that the idea that markets can function without state coercion is an entirely viable concept Anarchy and the Law is a comprehensive reader on anarchist libertarian thought that will be welcomed by students of govern

Mothers of the Nation Patrizia Albanese, Professor Department of Sociology Patrizia Albanese, 2006-01-01 Comparing nationalist and non nationalist polities in order to establish how these governments differ in their treatment of women and families Albanese concludes that the efforts of most ethno nationalist regimes to return women to their natural place in the home as housewives and mothers have been largely unsuccessful Policies to this effect have provoked considerable opposition by women s groups and individual women have often been reversed by subsequent governments and have had little long term demographic impact *Mothers of the Nation* makes an important contribution to the literature on feminism nationalism and social and economic policy within a comparative political context Jacket

To the Success of Our Hopeless Cause (Pulitzer Prize Winner) Benjamin Nathans, 2025-09-02 WINNER OF THE 2025 PULITZER PRIZE A riveting history Wall Street Journal of the Soviet dissident movement which hastened the end of the USSR and still provides a model of opposition in Putin s Russia and beyond A book about a past time that is very much a book for our time A story from which we all stand to learn as we face a new wave of authoritarianism Los Angeles Review of Books Beginning in the 1960s the Soviet Union was unexpectedly confronted by a dissident movement that captured the world s imagination Demanding that the Kremlin obey its own laws an improbable band of Soviet citizens held unauthorized public gatherings petitioned in support of arrested intellectuals and circulated banned samizdat texts Soviet authorities arrested dissidents subjected them to bogus trials and vicious press campaigns sentenced them to psychiatric hospitals and labor camps sent them into exile and transformed them into martyred heroes Against all odds the dissident movement undermined the Soviet system and hastened its collapse Taking its title from a toast

made at dissident gatherings *To the Success of Our Hopeless Cause* is a definitive history of a remarkable group of people who helped change the twentieth century Benjamin Nathans s vivid narrative tells the dramatic story of the men and women who became dissidents from Nobel laureates Andrei Sakharov and Alexander Solzhenitsyn to many others who are virtually unknown today Drawing on diaries memoirs personal letters interviews and KGB interrogation records *To the Success of Our Hopeless Cause* reveals how dissidents decided to use Soviet law to contain the power of the Soviet state This strategy as one of them put it was simple to the point of genius in an unfree country they began to conduct themselves like free people An extraordinary account of the Soviet dissident movement *To the Success of Our Hopeless Cause* shows how dissidents spearheaded the struggle to break free of the USSR s totalitarian past a struggle that continues in Putin s Russia and that illuminates other struggles between hopelessness and perseverance today
