**A First Year Latin Course (Classic Reprint)** James B. Smiley, 2017-09-12. Excerpt from A First Year Latin Course. Reading lessons forty-six in number. Occur at intervals at first and later in successive lessons throughout the book. They increase in difficulty by easy stages and are gradually led up to by vocabulary forms and constructions found in preceding lessons. They are with two exceptions either adapted from Caesar or taken directly from the easier portions of his text. The Latin syntax has been presented from the English point of view. It has not been thought best to assume the pupil's previous knowledge of even the simplest facts of English grammar. The space occupied by this feature of the book is fully offset by the greater ease with which the student will grasp the subject.
