## First Cause:

**The First Cause, Or, a Treatise Upon the Being and Attributes of God** John Charles Wish, 1855 *Great First Cause, or the Self-Moving Forces of the Universe* Orson PRATT, 1851 **Philosophy no friend to Atheism; or the Certainty of a first cause impartially investigated. Copious MS. notes** George Brown (teacher of the mathematics.), 1797 **On the Great First Cause, his existence and attributes. By Z.**, 1867 Library of Universal Literature: First principles, 1900 *First Principles* Herbert Spencer, 1864 Man, a Creative First Cause. Two Discourses Delivered at Concord, Mass July, 1882 Rowland Gibson Hazard, 2024-02-29 Reprint of the original first published in 1883

**Avoiding the First Cause of Death** Wulf Dröge, 2009-05 Interventions that delay aging are expected to improve health In the current US National Institute on Aging s Interventions Testing Program ITP the immunosuppressive drug rapamycin was found to increase the maximum life span in mice These mice started receiving this treatment at an age corresponding to 60 years in humans Rapamycin targets the same mechanism which was critically involved in the life span extension previously seen in certain mutants of worms flies and mice The maximum life span was increased in some of these mutants by more than 250 percent suggesting 1 that the maximum life span is limited by a common mechanism of death and 2 that humans may possibly gain a few more decades beyond 120 years by interfering in this mechanism As rapamycin has important adverse effects this books looks into the underlying mechanisms and describes several natural interventions likely to decrease the rate of aging without using pharmacological drugs **Collected Articles on the Existence of God** Gaven Kerr, 2022-10-15 The twentieth century witnessed an explosion of scholarly interest in the philosophical thought of St Thomas Aquinas One of the fruits of that Thomistic revival was an uncovering of St Thomas s original contributions to many areas of philosophy not least metaphysics In the twenty first century there has been renewed interest in Aquinas s argumentation for the existence of God This interest flows from an engagement with the work of the twentieth century scholars in presenting Aquinas s own characteristic metaphysics What we have seen is an interpretation and presentation of Aquinas s proofs for God s existence in terms of Thomas s unique insights into the nature of being and the metaphysical structure of reality Gaven Kerr has been one such author who has contributed in numerous ways to the revival of interest in Aquinas s argumentation for the existence of God and its metaphysical buttressing Over the last ten years Kerr has published articles on Aquinas s various proofs for God s existence and the metaphysics standing behind those proofs this volume draws together those articles Herein are included Kerr s articles on per se ordered series existential inertia the proof in De Ente et Essentia the argument from motion in the Summa Contra Gentiles and the five ways themselves Kerr has also written two new articles for this volume one on the possibility of demonstrating God s existence and the other on how to move from God s existence to God s nature This volume offers an overview of Kerr s thinking over the last decade on Aquinas s thought on the existence of God *Avicenna on the Necessity of the Actual* Celia Kathryn Hatherly, 2022-09-28 According to Avicenna whatever exists

while it exists exists of necessity Not all beings however exist with the same kind of necessity Instead they exist either necessarily per se or necessarily per aliud Avicenna on the Necessity of the Actual His Interpretation of Four Aristotelian Arguments explains how Avicenna uses these modal claims to show that God is the efficient as well as the final cause of an eternally existing cosmos In particular Celia Kathryn Hatherly shows how Avicenna uses four Aristotelian arguments to prove this very un Aristotelian conclusion These arguments include Aristotle s argument for the finitude of efficient causes in Metaphysics 2 his proof for the prime mover in the Physics and Metaphysics 12 his argument against the Megarians in Metaphysics 9 and his argument for the mutual entailment between the necessary and the eternal in De Caelo 1 12 Moreover Hatherly contends when Avicenna s versions of these arguments are correctly interpreted using his distinctive understanding of necessity and possibility the objections raised against them by his contemporaries and modern scholars fail

**The Nitty-Gritty Baseline Quiddity Collection of Dave Wolske** Dave Wolske,2010-09-15 [Aquinas' Proofs for God's Existence](#) D. Bonnette,2012-12-06 The purpose of this study is to investigate the legitimacy of the principle The per accidens necessarily implies the per se as it is found in the writings of St Thomas Aquinas Special emphasis will be placed upon the function of this principle in the proofs for God s existence The relevance of the principle in this latter context can be seen at once when it is observed that it is the key to the solution of the well known problem of infinite regress The investigation of the principle in question will be divided into two Parts A preliminary examination of the function of the principle will be made in Part I Domains Other Than That of Creature God The domains to be considered in this Part are those of accident substance change and knowledge Employing what is learned of the function of the principle in these areas of application Part II The Domain of Creature God will analyze the role of the principle in the proofs for God s existence This latter Part will constitute the greater portion of the book since the domain of creatures in their relation to God is the most significant application of the principle in the writings of St Thomas In the course of this investigation relevant analyses by St Thomas commentators both classical and contemporary will be considered Finally in light of the insights offered by St

**The Philosophical and Mathematical Commentaries on the First Book of Euclid's Elements, to which are Added, a History of the Restoration of Platonic Theology, by the Latter Platonists; and a Translation from the Greek of Proclus's Theological Elements** Proclus Diadochus,1792 *Summa Theologica, Volume 2 (Part II, First Section)* St Thomas Aquinas,2007-05-01 The Summa Theologica is the best known work of Italian philosopher scholar and Dominican friar SAINT THOMAS AQUINAS 1225 1274 widely considered the Catholic Church s greatest theologian Famously consulted immediately after the Bible on religious questions at the Council of Trent Aquinas s masterpiece has been considered a summary of official Church philosophy ever since Aquinas considers approximately 10 000 questions on Church doctrine covering the roles and nature of God man and Jesus then lays out objections to Church teachings and systematically confronts each using Biblical verses theologians and philosophers to bolster his arguments In Volume II Aquinas addresses happiness good and

evil love and hatred hope and despair anger virtue sin and grace and much more This massive work of scholarship spanning five volumes addresses just about every possible query or argument that any believer or atheist could have and remains essential more than seven hundred years after it was written for clergy religious historians and serious students of Catholic thought

**Meditations on First Philosophy** René Descartes, 2008-05-08 It is some years now since I realized how many false opinions I had accepted as true from childhood onwards I saw that at some stage in my life the whole structure would have to be utterly demolished In Descartes s *Meditations* one of the key texts of Western philosophy the thinker rejects all his former beliefs in the quest for new certainties Discovering his own existence as a thinking entity in the very exercise of doubt he goes on to prove the existence of God who guarantees his clear and distinct ideas as a means of access to the truth He develops new conceptions of body and mind capable of serving as foundations for the new science of nature Subsequent philosophy has grappled with Descartes s legacy questioning many of its conclusions and even his basic approach but his arguments set the agenda for many of the greatest philosophical thinkers and their fascination endures This new translation includes the Third and Fourth Objections and Replies in full and a selection from the rest of these exchanges with Descartes s contemporaries that helped to expound his philosophy

**ABOUT THE SERIES** For over 100 years Oxford World s Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford s commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

*Proclus and his Legacy* Danielle Layne, David D. Butorac, 2017-02-06 This volume investigates Proclus own thought and his wide ranging influence within late Neoplatonic Alexandrine and Byzantine philosophy and theology It further explores how Procline metaphysics and doctrines of causality influence and transition into Arabic and Islamic thought up until Richard Hooker in England Spinoza in Holland and Pico in Italy John Dillon provides a helpful overview of Proclus thought Harold Tarrant discusses Proclus influence within Alexandrian philosophy and Tzvi Langermann presents ground breaking work on the Jewish reception of Proclus focusing on the work of Joseph Solomon Delmedigo 1591-1655 while Stephen Gersh presents a comprehensive synopsis of Proclus reception throughout Christendom The volume also presents works from notable scholars like Helen Lang Sarah Wear and Crystal Addey and has a considerable strength in its presentation of Pseudo Dionysius Proclus transmission and development in Arabic philosophy and the problem of the eternity of the world It will be important for anyone interested in the development and transition of ideas from the late ancient world onwards
