Fiscal Harmonization In Common Markets:

Fiscal Harmonization in Common Markets: Practice Carl Sumner Shoup, 1967 *Fiscal Harmonization in Common Markets: Theory* Columbia University. School of International Affairs, 1967 *Fiscal Harmonization in Common Markets* Carl S. Shoup, 1967 *International Economic Integration: Monetary, fiscal and factor mobility issues* Miroslav N. Jovanović, 1998 *Fiscal Federalism* Robin Boadway, Anwar Shah, 2009-05-11 This book comprehensively examines the principles and practices of fiscal federalism based on the accepted theoretical framework and best practices Public Finance Carl Shoup, 2017-07-05 Broad in scope and carefully balanced in emphasis this book is a major treatise on the theory and practice of public finance It is unique in its presentation of a worldwide perspective and in its treatment of both the instruments of public finance and the goals effects and criteria of public finance measures The book is divided into three parts Book One defines the field specifies the possible meaning of the effects of a public finance measure and describes the criteria by which these measures are commonly appraised Book Two is concerned with micro public finance and opens with a discussion of the theory of public goods in general Each of the major free government services and types of transfer payments as well as the taxes that government employs are then examined This section concludes with a chapter on the relevant aspects of government borrowing and inflationary finance Book Three considers the major goals of public finance policy and describes how the various instruments described in Book Two can be used in achieving these goals Among the topics treated are the use of appropriate instruments to resolve conflict in goals conceptual problems of measuring the public finance sector and its maximum and minimum economic limits consensus goals of equity full employment and Pareto optimism use of resources and goals that evoke conflicts of interest within any community **Regional Integration and Factor Income Taxation** Valeria De Bonis, 1997 *External Research. ER List* United States. Department of State. External Research Division, 1966 **Tax Coordination in the European Community** Sijbren Cnossen, 2013-06-29 The results of the work of the Conference on Tax Coordination in the European Community appear at a time when the Community has undertaken as a priority task the completion of the internal market The Commission's programme and proposed timetable for the achievement of that goal are spelt out in the White Paper which was endorsed by the European Council at Milan in June 1985 an endorsement which was repeated at the Council's subsequent meeting in Luxemburg in December 1985 The Commission wholly endorses the views of the Conference as regards the need for urgent action to remove the grave restrictions on the free movement of the factors of production which continue to exist within the Community It is the Commission's firm view that only a true dismantling of fiscal frontiers can permit the creation of an area without internal frontiers for which the Single European Act provides To that end a certain approximation of rates of indirect taxation is indispensable if unacceptable distortion of competition is to be avoided It is noteworthy that the Conference attaches great importance to the Community's problems in the field of direct taxation This work will be particularly useful to the

Commission which intends to produce a further White Paper on company taxation in the near future As the Conference rightly notes action in this field is important for equalisation of the conditions of competition necessary for the completion of the internal market

Fiscal Harmonization in Common Markets Carl Sumner Shoup,1967 **The Free Trade Area of the Common Market for Eastern and Southern Africa** Victor Murinde,2017-05-15

In the last ten years while GATT and later WTO were actively advocating the doctrine of free trade the world witnessed unprecedented formation of regional trading blocs Focusing on the prospects and challenges of the free trade area of the Common Market for Eastern and Southern Africa COMESA and the question of regional trade integration the book also combines in depth theoretical and empirical analysis with leading edge discussion of institutional and policy issues from a variety of African economies This text makes a timely contribution not only to our understanding of the prospects and challenges of regional trading arrangements in Africa but also to the paradigm of regional trade integration in developing countries Systematically structured with thematically linked chapters and rigorous referencing it is an essential guide for an international audience of academics researchers students and practitioners in International Trade International Economics Development Finance and Development Economics

Fiscal Reforms in the Middle East Ehtisham Ahmad,Abdulrazaq Al Faris,2010-01-01

This insightful book focuses on the role of fiscal policy in common markets especially in the context of the supranational constructs in the Gulf Cooperation Council comprising Saudi Arabia Kuwait Bahrain Qatar the United Arab Emirates and Oman It draws on the experience of the EU and the importance of VAT and reflects on the other main common market in Central America Although oil windfalls have opened a window of opportunity for the Gulf States at the same time they have created numerous problems In particular the uncertainty associated with periods of boom and bust in the oil market has made the formulation and implementation of sound fiscal policies a formidable task In this study the distinguished authors present the background to current fiscal reforms and address the critical challenges facing the Gulf States including the choice between consumption and saving or current needs and future requirements intra generational equity issues the pro cyclicity of fiscal policy fiscal sustainability and the prudent management of revenues from finite oil reserves They examine the case for VAT to substantially replace customs duties a significant source of non oil revenue which would be lost as a result of free trade agreements between the GCC and key trading partners They also demonstrate how an agreed design for VAT would assist in furthering economic integration and enhance trade and exports If properly sequenced VAT would have a negligible impact on both inflation and the poor and would be progressive in relation to the customs duties replaced This highly topical book will be of great interest to academics specializing in public sector economics and public finance and to national and international policymakers involved in fiscal reform

European Integration in the World Economy

Hans-Jürgen Vosgerau, 2013-04-17 Hans Jtlrgen Vosgerau The world economy has been subjected to extreme changes during the last three years These changes affect not only trade flows financial transfers and movements of people but also the institutional framework The ongoing process of European integration has to be viewed in this global context and that is what the present volume tries to do for six important problem areas viz the field of Money Currency and International Stabilization Federal Tax Systems and the European Community the area of International Factor Mobility the International Debt Problem the Econometrics of International Trade and aspects of International Political Economy In each chapter an effort is made to direct attention to the connections between international economic transactions of various kinds and the political and legal institutions which constitute the organizational framework The 26 contributions are revised versions of papers originally presented at the Second Konstanz Symposium on International Economics and Institutions which was organized by the Long term Research Programme Sonderfor schungsbereich Internationalization of the Economy on October 1 and 2 1990 The majority of contributions are reports on research conducted in the Sonderforschungsbereich during the preceding years and in most cases supple mented by comments from invited guests In addition there are some important papers contributed by colleagues from outside most of whom have close co operative relations with members of the Sonderforschungsbereich
