Fiscal Stress And Public Policy Sage Yearbooks In Politics And Public Policy Vol 9

Katrin Zwirgmaier

Fiscal Stress And Public Policy Sage Yearbooks In Politics And Public Policy Vol 9:

Fiscal Stress and Public Policy Charles H. Levine, Irene Rubin, 1980-12 Provides some of the most current thinking on various aspects of fiscal stress in the public sector and its implications for public management It lays out the background of financial stress at the federal state and local levels suggesting how various public bodies have responded or might respond to fiscal stress *Fiscal Stress and Public Policy* is an excellent collection of articles They are provocative readable and of enduring value of academicians scholars and students of public policy Indeed individual contributions are overshadowed only by the overall quality of the volume *Quality and Quantity* Vol 17 1983 This is an excellent collection of essays They coalesce around an extremely imp **Programs and Activities of the Economic Development Administration** United States. Congress. House. Committee on Public Works and Transportation. Subcommittee on Investigations and Oversight, 1984

Running in the Red Irene S. Rubin, 1983-06-30 This case study of a politically reformed middle sized Midwestern city provides a model of fiscal stress that contrasts sharply with that of America's vast metropolitan centers Dr Rubin examines the interaction of social political and economic causes of the city's predicament She then goes on to analyze the specific factors that solved the city's problems over a six year period Finally she offers a self correcting mechanism that would allow a city to save itself from financial trouble without direct state or federal assistance This study suggests that local political factors were even more important than national factors in contributing to the city's fiscal stress It also brings into question the theory that generosity to the poor creates urban fiscal stress and that giving less to the poor will solve urban financial problems The Political Economy of Public Policy Alan Stone, Edward J. Harpham, 1982-12 Policy experts examine the impact of the market economy on policy making the ways in which decisions are tied to the well being of businesses They put a new emphasis on the importance of goals and underlying values in policy making What should it be trying to achieve and for whose benefit The politics of social security finance and taxation the impact of class conflict on policy the ideologies that lie behind policy these are examples of the subjects researched and discussed **The Politics of Retrenchment** Charles H. Levine, Irene Rubin, George G. Wolohojian, 1981-11 Levine Rubin and Wolohojian's study is an important addition to the urban politics and administration literature The book fulfills its purpose it is valuable for both urban administrators and students of urban administration *Perspective* March 1983 provides valuable insights for urban theorists with a sociological interest in the political economy of retrenchment *Contemporary Sociology* Vol 12 No 6 November 1983 Symposium on Urban Service Distributions, 1981 **The Political Economy of Fiscal Limits** John J. Kirlin, 1982 **A History of Taxation and Expenditure in the Western World** Carolyn Webber, Aaron B. Wildavsky, 1986 In this comprehensive analysis of social systems of taxation and budgeting the authors provide detailed examples from ancient Mesopotamia and Egypt Greece and Rome the Middle Ages in Europe and modern times to show how governments through the ages have raised money and spent it They examine the two essential activities of government taxing and spending against the

background of the societies in which they were imbedded and the development of government's administrative capacities. They also argue that government mobilization of resources involves critical human concerns: waging war and providing for the welfare of the people. ISBN 0 671 54617 1 24 95

Managing Cities in Austerity Poul Erik Mouritzen, 1992-02-21. Why are some of our cities going broke while others prosper? This study of the failures and successes of city management offers new insights into how to manage cities effectively in today's economic climate. The lessons from cities around the Western world are that innovative strategies can work; that fiscal management strategies such as privatization can be made politically feasible; that the national government's urban policy forms a vital component in success or failure at the city level. *Managing Cities in Austerity* fills a major gap in the literature on urban policy making and comparative public policy. The product of one of the largest comparative social science research projects ever undertaken, the Fiscal Austerity and Urban Innovation project, it maintains a genuinely comparative approach. An international team of authors applies a coherent set of concepts about fiscal austerity to over 2 500 local governments in ten Western countries. Most significantly, survey and hard fiscal data are merged not only at city but at national level.

Crisis and Constraint in Municipal Finance James H. Carr, 1984. Throughout the United States local governments are experiencing sustained and mounting financial difficulties. As fiscal pressures edge upward, cities find it difficult to make ends meet. And while the most acute financial hardships are felt by older, declining industrial complexes, the need to reduce spending, cut services, improve productivity, and increase locally raised revenues has been recognized by a steadily growing number of municipalities across the country. Local governments have entered an age of austerity wherein traditional notions of budgeting and service provision have been brought into question. Elected officials and financial managers have begun rethinking the manner in which scarce resources are allocated; they have also given significant attention to the ways in which revenues are generated. Carr argues that we are now in a post-industrial society moving from urban centers to suburban and non-metropolitan jurisdictions. As a result, we are moving from an economy benefitting from prolonged periods of vigor and lower interest rates to an economy characterized by extended periods of recession. *Crisis and Constraint in Municipal Finance* identifies eight principal areas of concern to budget makers and municipal managers. Beginning with ways to identify fiscal performance, this volume reviews cutback practices, budgeting principles, revenue-raising strategies, alternative public service delivery systems.

and economic development initiatives Also reviewed are the changing roles of the federal and state governments in local financial matters as well as the fiscal prospects for local government finances in the coming years This is an important work that addresses concerns of the economy and should be read by urban planners and economic advisors
