Fiscal Policy For Development:

Fiscal Policy and Economic Development Mr. Peter Rangazas, Mr. Alex Mourmouras, 2008-06-01 This paper offers possible explanations for three generally observed facts about fiscal policy and development F1 The relative size of government increases as an economy develops F2 The rise in government and taxation are associated with rising or constant economic growth rates and F3 Today's developing countries have larger government sectors than did today's developed countries at similar stages of development The explanations for these facts are based on the structural transformation from traditional mostly agricultural to modern industrial and post industrial production rising public infrastructure investment and less representative governments in many of today's developing economies

Fiscal Policy for Development Tony

Addison, 2014 Fiscal policy is critical to the development of poor countries Public spending on pro poor services and public goods must be increased tax revenues must be mobilized and macro economic stabilization must be achieved without inhibiting growth poverty reduction and post conflict reconstruction This book provides both a comprehensive and balanced guide to the current policy debate and new results on the development impact of fiscal policies It is essential reading for students of development economics as well as all those seeking to improve policy effectiveness
