**Fish-Shape Paumanok** Robert Cushman Murphy, 1964-12 The bittersweet message of this volume is at once Robert Cushman Murphy's celebration of the magnificent environment and history of Long Island that inspired him a chronicle of man's destructive tendencies as they found focus on this sandy strand and a gentle warning to change our ways Although it weaves history and natural history into a time sequenced story this is not just a book about the past Its broad scope still provides a Rosetta Stone enabling all who would know to decipher the hieroglyphics of ecology The relationship between nature and humans will continue to be of paramount importance to this earth and both sides of the equation will continue to benefit from the quiet message of this book Illustrations

*Unkechaug Indians of Eastern Long Island* John A. Strong, 2013-02-14 Few people may realize that Long Island is still home to American Indians the region's original inhabitants One of the oldest reservations in the United States the Poospatuck Reservation is located in Suffolk County the densely populated eastern extreme of the greater New York area The Unkechaug Indians known also by the name of their reservation are recognized by the State of New York but not by the federal government This narrative account written by a noted authority on the Algonquin peoples of Long Island is the first comprehensive history of the Unkechaug Indians Drawing on archaeological and documentary sources John A Strong traces the story of the Unkechaugs from their ancestral past predating the arrival of Europeans to the present day He describes their first encounters with British settlers who introduced to New England's indigenous peoples guns blankets cloth metal tools kettles as well as disease and alcohol Although granted a large reservation in perpetuity the Unkechaugs were like many Indian tribes the victims of broken promises and their landholdings diminished from several thousand acres to fifty five Despite their losses the Unkechaugs have persisted in maintaining their cultural traditions and autonomy by taking measures to boost their economy preserve their language strengthen their communal bonds and defend themselves against legal challenges In early histories of Long Island the Unkechaugs figured only as a colorful backdrop to celebratory stories of British settlement Strong's account which includes extensive testimony from tribal members themselves brings the Unkechaugs out of the shadows of history and establishes a permanent record of their struggle to survive as a distinct community

**Close to Shore** Michael Capuzzo, 2002-05-21 Combining rich historical detail and a harrowing pulse pounding narrative Close to Shore brilliantly re creates the summer of 1916 when a rogue Great White shark attacked swimmers along the New Jersey shore triggering mass hysteria and launching the most extensive shark hunt in history In July 1916 a lone Great White left its usual deep ocean habitat and headed in the direction of the New Jersey shoreline There near the towns of Beach Haven and Spring Lake and incredibly a farming community eleven miles inland the most ferocious and unpredictable of predators began a deadly rampage the first shark attacks on swimmers in U S history Capuzzo interweaves a vivid portrait of the era and meticulously drawn characters with chilling accounts of the shark s five attacks and the frenzied hunt that ensued From the unnerving inevitability of the first attack on the esteemed son of a prosperous Philadelphia physician to the spine tingling moment when a farm boy swimming in Matawan Creek feels the sandpaper like skin of the passing shark Close to Shore is an undeniably gripping saga Heightening the drama are stories of the resulting panic in the citizenry press and politicians and of colorful personalities such as Herman Oelrichs a flamboyant millionaire who made a bet that a shark was no match for a man and set out to prove it Museum of Natural History ichthyologist John Treadwell Nichols faced with the challenge of stopping a mythic sea creature about which little was known and most

memorable the rogue Great White itself moving through a world that couldn't conceive of either its destructive power or its moral right to destroy. **Modern American Environmentalists** George A. Cevalasco, Richard P. Harmond, 2009-04-27. *Modern American Environmentalists* profiles the lives and contributions of nearly 140 major figures during the twentieth-century environmental movement. Included are iconic environmentalists such as Rachel Carson, E. O. Wilson, Gifford Pinchot, and Al Gore, and important but less expected names including John Steinbeck and Allen Ginsberg. The entries recount how each individual became active in environmental conservation, detail his or her significant contributions, trace the influence of each on future efforts, and discuss the person's legacy. The individuals selected for the book displayed either an unparalleled commitment to the conservation, preservation, restoration, and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century. With a foreword by environmental historian Everett R. Mendelsohn, a timeline of key environmental events, a bibliography of groundbreaking works, and an index organized by specialization, this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement.
