SURFING THE INTERNET, THEN, NOW, LATER. Andreas Sofroniou, 2014-03-10. This book describes the prospects of the Internet and the Web as a system covering Surfing in Cyberspace, Fiction and Reality, Cyber ethics, Social Interactions, and other subjects related to the Internet and the World Wide Web. It covers the history of the Internet, its current functions, and the possible growth of the Internet in the future. It includes the Internet as a hybrid medium combining aspects of the printing press, the telephone, the public bulletin board, and the private letter. It also covers transmission without the physical plant required by conventional broadcasting. Also, the prediction of super speed and a possible successor network, that of an information superhighway, a term which refers to a unified interactive system of electronic communication.

The Internet Election John C. Tedesco, Andrew Paul Williams, 2006-05-12. During the 2004 presidential campaign, 63 million people used the Internet for political information, 43 million discussed politics via e-mail, and 13 million used the Internet to make campaign contributions or arrangements for volunteer efforts. For these reasons and more, this presidential race has been termed the Internet election. *The Internet Election* analyzes the unprecedented role of the Web in the 2004 presidential campaign. This volume responds to the drastically changing political landscape and specifically its effect on the Bush-Kerry race, with an eye toward future elections. Leading political communication scholars cover campaign websites, grassroots organizing via the Internet, candidate e-mail strategies, blogs, online discourse about candidates, spouses, and the gendering of other than presidential candidates on

websites Political strategists and Internet enthusiasts as well as political communication scholars and students will welcome this well researched and informative book
