**Unusually Cruel** Marc Morjé Howard,2017 The United States incarcerates far more people than any other country in the world at rates nearly ten times higher than other liberal democracies Indeed while the U S is home to 5 percent of the world s population it contains nearly 25 percent of its prisoners But the extent of American cruelty goes beyond simply locking people up At every stage of the criminal justice process plea bargaining sentencing prison conditions rehabilitation parole and societal reentry the U S is harsher and more punitive than other comparable countries In *Unusually Cruel* Marc Morjé Howard argues that the American criminal justice and prison systems are exceptional in a truly shameful way Although other scholars have focused on the internal dynamics that have produced this massive carceral system Howard provides the first sustained comparative analysis that shows just how far the U S lies outside the norm of established democracies And by highlighting how other countries successfully apply less punitive and more productive policies he provides plausible solutions to addressing America s criminal justice quagmire

**Encyclopedia of Law Enforcement** Larry E Sullivan, 2005 Vols 1 and 2 cover U S law enforcement Vol 3 contains articles on individual foreign nations together with topical articles on international law enforcement **Quarterly List of Parliamentary Publications** Great Britain. His Majesty's Stationery Office, 1899 *Women's Access to Transitional Justice in Timor-Leste* Noemí Pérez Vásquez, 2022-06-16 Seeing the role of transitional justice as an area of contestation this book focuses on the principle of equality guaranteed in the access to transitional justice mechanisms By raising women's experiences in dealing with the law and policies as well as the implications of community and family practices during post conflict situations the book shows how these mechanisms may have been implemented mechanically without considering the different intersections of discrimination the public and private divides that exist in the local context or the stereotypes and values of international and national actors The book argues that without unpacking the barriers in the administration of transitional justice the different mechanisms that are implemented in a post conflict situation may set a higher threshold for the participation of women Moreover by taking into account women's perceptions of justice it further argues that scholars have paid insufficient attention to the welfare structures that are produced after a conflict particularly the pensions of veterans Going beyond the focus on sexual violence a relationship between the violations and post conflict economic justice may have longer term consequences for women since it perpetuates their inequality and lack of recognition in times of peace The use of transitional justice may thus exacerbate the invisibility of and discrimination against certain sections of the population Inspired by the work of Hannah Arendt and based on extensive field research in Timor Leste the book has larger implications for the overarching debate on the social consequences of transitional justice *Treatise on International Criminal Law* Kai Ambos, 2021-07-15 Since the adoption of the Rome Statute of the International Criminal Court in 1998 international criminal law has rapidly grown in importance This second edition of the first volume of an acclaimed three volume *Treatise on International Criminal Law* deals with the foundations and general part of international criminal law and general principles of international criminal justice Taking into account the scholarly literature not only sources written in English but also in French German Italian Portuguese and Spanish the book draws on the author's extensive academic work and practical experience in international criminal law This second edition of the authoritative volume has been completely revised updated and rewritten in some parts These comprehensive updates ensure that Kai Ambos *Treatise* remains an indispensable reference work for academics and practitioners of international criminal law
