Koerner, Aleksander Szwedek, 2001-12-04 Apart from the names of Jan Baudouin de Courtenay 1845 1929 Miko aj Kruszewski 1851 1887 and later Jerzy Kury owicz 1895 1978 Polish linguists and Polish linguistics generally have been little known in the West The first two were mentioned with approval by Saussure in an unpublished paper and this reference was picked up by Roman Jakobson and others many years later Kury owicz for his part made himself well known in the West through his important work as Indo Europeanist even Semiticist and as a general linguist The present volume is a first attempt to broaden the perspectives on the Polish contribution to linguistics both inside and outside of Poland during the past centuries Specialists in their respective fields contributed chapters on the origins and development of general linguistics Z W sik applied linguistics F Grucza lexicology T Piotrowski dialectology St Gogolewski and onomastics S Gala followed by five chapters presenting the theories of the arguably most remarkable Polish linguistic thinkers from Baudouin de Courtenay A Adamska Sa aciak Kruszewski F M Berezin and Kury owicz W Smoczy ski to Miko aj Rudnicki 1881 1978 and Ludwik Zabrocki 1907 1977 both written by J Ba czerowski Detailed individual bibliographies a full index of names with life dates of Polish linguists from the Renaissance to the present day and a thorough index of subjects and terms make this volume an important reference tool for anyone wishing to acquaint himself with the rich heritage of Polish linguistic thought *Vocabulary* Ronald Carter, 1998 Vocabulary has

Semiotics in Poland 1894-1969 J. Pelc, 2012-12-06 In the Introduction to the Polish language version of the present book I expressed the hope that Polish studies in semiotics would before long be numerous enough to make possible another anthology on semiotics in Poland containing material published since 1970 That hope has in fact come true The fact that semiotic research has been gaining momentum in this country is reflected in the growing interest in the discipline in expanding international contacts and in the steady increase in the number of publications Thus 1972 saw the setting up of the Department of Logical Semiotics headed by the present writer at Warsaw University Institute of Philosophy The seminar on semiotics which I started in 1961 had met more than two hundred times by the end of 1976 since 1968 meetings have been held jointly with the Polish Semiotic Society Another seminar confined to university staff and concerned with logical semiotics which was initiated in 1970 had met more than fifty times by the end of 1976 The former seminar often plays host to foreign visiting professors so far scholars from Australia Belgium Britain Canada Czechoslovakia France the German Democratic Republic Italy the Netherlands the Soviet Union and the United States have attended

Versus, 1980 **Elements of Semiology** Roland Barthes, 1977-04 In his *Course in General Linguistics* first published in 1916 Saussure postulated the existence of a general science of signs or Semiology of which linguistics would form only one part Semiology therefore aims to take in any system of signs whatever their substance and limits images gestures musical sounds objects and the complex associations of all these which form the content of ritual convention or public entertainment these constitute if not languages at least systems of signification The Elements here presented have as their sole aim the extraction from linguistics of analytical concepts which we think a priori to be sufficiently general to start semiological research on its way In assembling them it is not presupposed that they will remain intact during the course of research nor that semiology will always be forced to follow the linguistic model closely We are merely suggesting and elucidating a terminology in the hope that it may enable an initial albeit provisional order to be introduced into the heterogeneous mass of significant facts In fact what we purport to do is furnish a principle of classification of the questions These elements of semiology will therefore be grouped under four main headings borrowed from structural linguistics I Language and Speech II Signified and Signifier III Syntagm and System IV Denotation and
