Kevin G. Barnhurst, John Nerone, 2002-04-01 This book takes a fresh look at the role of the newspaper in United States civic culture. Unlike other histories which focus only on the content of newspapers, this book digs deeper into ways of writing, systems of organizing content, and genres of presentation, including typography and pictures. The authors examine how these elements have combined to give newspapers a distinctive look at every historical moment from the colonial to the digital eras. They reveal how the changing form of news reflects such major social forces as the rise of mass politics, the industrial revolution, the growth of the market economy, the course of modernism, and the emergence of the Internet. Whether serving as town meeting, court of opinion, marketplace, social map, or catalog of diversions, news forms are also shown to embody cultural authority, allowing readers to see and relate to the world from a particular perspective. Including over 70 illustrations, the book explores such compelling themes as the role of news in a democratic society, the relationship between news and visual culture, and the ways newspapers have shaped the meaning of citizenship. Winner of the International Communication Association Outstanding Book Award.      *The Best of News Design, 35th Edition* The Society for News Design, 2014-11-15 The Best of News Design 35th Edition is the latest edition of Rockport's highly respected series. It features the best of the best in news design of various kinds.      **Manuals Combined: U.S. Navy Journalist Basic, Journalist Advanced And Journalist 3 & 2 Training Publications**, Over 1,300 total pages To the young man or woman choosing a Navy career field, whether for one enlistment or for 30 years, the journalist rating offers endless avenues for an imaginative yet mature thinker.
