Elephant The Mousedeer A New Version:

Mahathir's Islam Sven Schottmann, 2018-09-30 Mahathir Mohamad's legacy as Malaysia's longest serving prime minister 1981-2003 is deeply controversial. His engagement with Islam, the religion of just over half Malaysia's population, has often been dismissed as partisan maneuvering. Yet his willingness to countenance a more prominent place for Islam in government and society is what distinguished him from other modernist politicians, and his instinct to set Malaysian politics against the backdrop of the wider Muslim world was politically astute. Author Sven Schottmann argues that Mahathir's transformative effect on Malaysia can only be fully appreciated if we also take him seriously as one of the postcolonial Muslim world's most significant political thought leaders. Schottmann sees Mahathir's representations of Islam as a relatively coherent discourse that can legitimately be described as Mahathir's Islam. This discourse contains Mahathir's assessment of the economic, political, and sociocultural problems facing the contemporary Muslim world and the range of solutions and corrective measures that he proposed Muslims should adopt. His ideas are fraught with flaws and contradictions. On the one hand, he emphasized the individualistic, egalitarian, pluralistic, democratic, and dynamic qualities of Islam. On the other, his government enacted legislation and acquiesced in the activities of religious bodies that curtailed religious freedoms of both Muslims and non-Muslims. His ideas contributed to Malaysia's worsening state of interethnic relations, yet his insistence that every Muslim had the right to speak for Islam may have paradoxically prepared the ground for a future democratization of Malaysian politics. Mahathir's Islam is based on rigorous analysis of Mahathir's speeches, interviews, and writings, which the author is able to link to parallel processes elsewhere in the Muslim world: Indonesia, the Middle East, Pakistan, Turkey, and diaspora communities in the West. Mahathir's Islamic discourse, Schottmann suggests, must be read against the wider late twentieth-century resurgence of religion in general and the post-1970s Islamic revival in particular. Balanced in approach and engagingly written, this book will be of interest to scholars and students of political science, religious studies, and others interested in Malaysia, Southeast Asia, or Mahathir himself.

The Peasant Robbers of Kedah, 1900-1929 Cheah Boon Kheng, 2014-08-15 In the early twentieth century, social banditry was endemic in the countryside near the border between the northern Malaysian state of Kedah and Siam, and some outlaws became local heroes. Cheah Boon Kheng's account of peasant banditry and the society where it flourished draws on colonial records, literary sources, and interviews to examine the circumstances that led the Governor Sir Laurence Guillemard to call the border area one of the most lawless and insecure districts in British Malaya during the 1920s. Considering banditry from the perspective of the peasant community, Cheah concludes that it grew out of lax government, weak policing, the geography of the border region, and underdevelopment, and suggests that bandit heroes might be seen as symbols of rural protest. His discussion of the details of rural life in the early twentieth century and the conditions that underlay rural crime provide a unique social history of rural society in Malaya. This innovative volume broke new ground in Malaysian studies when it first appeared in 1988. This second edition is intended for

A History of Malaysia Barbara Watson Andaya, Leonard Y. Andaya, 2001-01-01 Malaysia's multicultural society supports one of the most dynamic economies in Asia This completely revised new edition of the standard text first published twenty years ago traces the history of the country from early times to the present day The authors give particular attention to the evolution of Malay polities and their close links with indigenous groups who lived on the coasts and in the deep jungles of the region from Sumatra to Borneo This provides the background to the establishment of the Malay port of Melaka which was conquered by the Portuguese in 1511 foreshadowing the establishment of a British colonial regime in the late nineteenth century Although the large numbers of Chinese and Indian migrants who arrived to work in the tin and rubber industries contributed to economic expansion colonial policies did not encourage communal interaction The authors trace the process by which post independence leaders in Malaya attempted to counter the legacy of ethnic hostility while answering Malay demands for an affirmation of their rights and a stronger commitment to Islam The incorporation of the Borneo states of Sarawak and Sabah into the Federation of Malaysia in 1963 rendered the goal of welding a nation from areas that were geographically separated and culturally disparate even more problematic The intense emotions attached to issues of race were made tragically evident in the racial riots of May 1969 which this book sees as a watershed in modern Malaysian history As Malaysia enters the twenty first century the government is determined to oversee the transition to an economy focused on manufacturing and advanced technology and to eliminate poverty and the association between occupation and race While several recent studies deal with the impact of colonial rule and Malaysia's spectacular economic transition this book is unique because it tracks developments from early times and identifies continuities as well as change Combining the authors' specialist knowledge of precolonial sources with the most recent contemporary research this new edition reinforces the position of *A History of Malaysia* as a standard reference for all those interested in the historical processes which led to the emergence of this culturally varied and economically energetic country
