## **Ethical Crises Of Civilization Moral Meltdown Or Advance:**

**The Ethical Crises of Civilization** Leslie Lipson, 1993-08-10 From the crisis confronting the former Yugoslav state to an increase in crime in our cities humanity today has arrived at a perilous crossroad According to Leslie Lipson we have arrived at a critical stage in human history a stage framed in a lowering of ethical standards The Ethical Crises of Civilization examines those periods in history where similar crossroads occurred crossroads that could serve as examples for confronting and solving today's problems Lipson argues that through such an examination of the past humanity might be able to comprehend what is at stake and be impelled to collective and individual action The Ethical Crises of Civilization is a book that should be read by all scholars and students in a wide array of disciplines including history political science religious studies philosophy anthropology and sociology About this volume This book is written in the tradition of Spengler and Toynbee but my focus differs sharply from theirs I am attempting to evaluate the course of civilization its benefits and its curses at a time when its potentiality for either good or evil has been vastly increased My study has drawn principally on the record of four major civilizations still in existence today the Chinese Indian Islamic and Western The values and the standards of judgement are those of a humanist emphasizing our needs in this life in this world and not believing in salvation in some other existence I consider that the present system of government by so called nation states is becoming obsolete and will be replaced in the Twenty First Century and that the organized religious are responsible for dividing humanity into separate and often hostile groupings Leslie Lipson Ph D Praise for this volume Professor Lipson draws on his deep interest in history to assess the progress of civilizations toward increasing their ethical content He sees a growing awareness of ethical choices advance as well as a growing danger of civilizations self destruction melt down He argues that it is the obligation of a scholar to contribute to the understanding of both ethical issues and values The author treats this difficult subject matter with impressive knowledge humor originality and with literary grace World Affairs Council of Northern California An important and quite original contribution to the large and growing literature on the general theory of civilization going back in about the last 100 years to Hegel Spengler Brooks Adams Albert Schweitzer Arnold Toynbee and so on Makes an important contribution to this discipline bringing many new ideas into it It has an easy almost conversational style Kenneth E Boulding late of the University of Colorado at Boulder Distinguished Professor of Economics This book attempts something which is very unfashionable in our days It examines sympathetically but critically the thesis that history is progressive that civilizations are improving because their ethical content is increasing And the author does it with wit verve and a marvelous style that makes almost every sentence a joy to read He also displays a most impressive knowledge of history and literature This is an unusual book Despite the difference between my taste and the author's I found it to be an original courageous and highly enlightening inquiry into a subject that cries out for serious treatment not merely tracts that celebrate the end of communism or proclaim the beginning of a new age in which western values no longer dominate or even serve as guidelines

in non western parts of the world Its lack of conventionality its intellectual originality ought to appeal to historically minded people who are tired of having their values and judgements debunked by the sound bites of particularistic notions of ethics Ernst B Haas Robson Research Professor of Government University of California at Berkeley Professor Leslie Lipson s newest book *The Ethical Crises of Civilization Moral Meltdown or Advance* is a sweeping examination of the major moral transitions in human history World Affairs Council of Northern California About the author Interpreting the course of human history and using the past as a guide to the present and the future has been Leslie Lipson s abiding intellectual interest In addition to his 33 years of service as Professor of Political Science at the University of California Berkeley he is known in the United States and abroad as an author visiting lecturer and consultant to international agencies He has worked for the United Nations in Brazil and for the Atlantic Institute in Paris he founded the academic discipline of political science in New Zealand and he has lectured under the auspices of the U S I A at universities in Europe and Asia His best known book *The Great Issues of Politics* in print since 1954 and now in its ninth edition has been translated into eight languages and is studied in universities worldwide His other major work *The Democratic Civilization* has also been widely translated and is considered by many to be a classic in its field Of his many articles some have been in the *Encyclopedia Britannica* 1969 edition and in *Unesco s Dictionary of the Social Sciences* Other articles have appeared in professional journals of several countries and in other media Leslie Lipson came to the United States as a Commonwealth Fund Fellow from Balliol College Oxford University where he was a senior scholar and took his doctorate in political science at the University of Chicago The University of California has honored him with the award of the Berkeley Citation In addition to his academic pursuits he is known nationally for his 13 years of participation in the Public Broadcasting System s weekly televised program *World Press* on which he reported the press of Great Britain

**The Crisis of Muslim Religious Discourse** Lahouari Addi, 2021-12-30 Showing that Muslim societies are facing a crisis that is more cultural than religious this book focuses on cultural representations through which social life is experienced in the Muslim world It brings a new theoretical framework to address the secularization process that is underway and the contradictions it entails This volume will arouse a new debate on secularization and the relations between religion culture and philosophy The crisis Muslim societies are undergoing pertains to the culture and not to the Qur an to the extent that people do not have access to the sacred in itself but only for oneself meaning a cultural interpretation of the sacred The Qur

an in itself is not an obstacle to secularization and modernization since any sacred text is experienced through culture If we consider the European experience where secularization has first emerged we see that culture has been transformed from medieval metaphysics to modern philosophy upholding a civic culture Discussing secularization through cultural representation this book launches new ideas that fill an important gap in the literature on secularization It is a key resource for any readers interested in religious studies philosophy and the anthropology of religion

*Islam Between Culture and Politics* Bassam Tibi,2005-08-31 Bassam Tibi offers a radical solution to the problems faced by Islam in a rapidly changing and globalizing world He proposes a depoliticization of the faith and the introduction of reforms to embrace secular democracy pluralism civil society and individual human rights The alternative to this is the impasse of fundamentalism The pivotal argument is that Islam is being torn between the pressure for cultural innovation and a defensive move towards the politicization of its symbols for non religious ends

The School, Teacher - Student Relations And Values D. R. Prasad, *Islamic Legitimacy in a Plural Asia* Anthony Reid,Michael Gilsenan,2008-03-25 A global debate

has emerged within Islam about how to coexist with democracy Even in Asia where such ideas have always been marginal radical groups are taking the view that scriptural authority requires either Islamic rule Dar ul Islam or a state of war with the essentially illegitimate authority of non Muslims or secularists This book places the debate in a specifically Asian context It draws attention to Asia east of Afghanistan as not only the home of the majority of the world s Muslims but also Islam s historic laboratory in dealing with religious pluralism In Asia pluralism is not simply a contemporary development of secular democracies but a long tested pattern based on both principle and pragmatism For many centuries Muslims in Asia have argued about the legitimacy of non Islamic government over Muslims and the legitimacy of non Muslim peoples politics and rights under Islamic governance This book analyses such debates and the ways they have been reconciled in South and Southeast Asia up to the present The evidence presented here suggests that Muslims have adapted flexibly and creatively to the pluralism with which they have lived and are likely to continue to do so Future Survey Annual ,1995 Islam - Institutioneller Wandel und wirtschaftliche Entwicklung Helmut Leipold,2016-09-12 Keine ausführliche Beschreibung für Islam Institutioneller Wandel und wirtschaftliche Entwicklung verfügbar
