Ethical Issues In Palliative Care Reflections And Considerations:

Ethical Issues in Palliative Care Pat A. Webb, 2005 Initial definitions and some theoretical input leads on to a practice based text which will enable people from a variety of professions to discuss and debate issues familiar to their practice

Ethical Foundations of Palliative Care for Alzheimer Disease Ruth B. Purtilo, Henk A.M.J. ten Have, 2010-09-01 Alzheimer disease afflicts more than twelve million people worldwide and its incidence is increasing at a staggering rate People with the disorder are living longer than have those in previous generations and they require interventions for quality of life issues associated with palliative care However the symptoms of Alzheimer disease often fail to place such persons into settings where palliative care resources are available to them Indeed clinicians and other caregivers may be unsure about what constitutes effective palliation in these cases At the same time the ethical issues involved in providing end of life care to persons with Alzheimer disease remain on the margins of mainstream bioethics In *Ethical Foundations of Palliative Care for Alzheimer Disease* leading ethicists and clinicians from the United States and Europe explore ethical and scientific concerns about the diagnosis and prognosis of Alzheimer disease challenges arising from applying palliative procedures to its symptoms key philosophical and theological concepts central to our understanding of the disease and to end of life decisions and the changing patterns of relevant medical social and economic policies Cross cultural multidisciplinary and state of the art this volume is a unique and important resource for bioethicists clinicians and policy makers everywhere Contributors David A Bennahum M D University of New Mexico Pierre Boitte Ph D Catholic University of Lille France Roger A Brumback M D Creighton University Medical Center Wim J M Dekkers M D Ph D University Medical Centre Nijmegen The Netherlands Elizabeth Furlong R N Ph D J D Creighton University Medical Center Eugenijus Gefenas M D Ph D Vilnius University Lithuania Bert Gordijn Ph D University Medical Centre Nijmegen The Netherlands Amy M Haddad R N Ph D Creighton University Medical Center S ren Holm M D Ph D Dr Med Sci University of Manchester Franz J Illhardt D D Ph D Freiburg University Rien Janssens Ph D University Medical Centre Nijmegen The Netherlands Givi Javashvili M D Ph D State Medical Academy of Georgia Tbilisi Judith Lee Kissell Ph D Creighton University Medical Center Gunilla Nordenram D D S Ph D Karolinska Institute Stockholm Richard L O'Brien M D Creighton University Medical Center Marcel G M Olde Rikkert M D Ph D University Medical Centre Nijmegen The Netherlands Winifred J Ellenchild Pinch R N Ed D Creighton University Medical Center Patricio F Reyes M D Creighton University Medical Center Anne Sophie Rigaud M D Ph D H pital Broca Paris Linda S Scheirton Ph D Creighton University Medical Center Jos V M Welie M Med S J D Ph D Creighton University Medical Center

Spirituality and Coping with Loss Wendy Greenstreet, 2017-04-28 *Spirituality and Coping with Loss End of Life Healthcare Practice* describes a research study that reflects nurses experience of the nature of loss encountered in end of life care settings as well as the ways in which spirituality is a resource in coping in these situations Key findings indicate how nurses spiritual development impacts their proficiency in spiritual care These findings will be of interest to nurses and nurse

educators as well as other healthcare professionals

Supporting the Child and the Family in Paediatric Palliative

Care Erica Brown, Brian Warr, 2007-06-15 This book provides a comprehensive overview of good practice in caring for terminally ill children young people and their families The material offers helpful suggestions on how to support families in making informed choices during distressing periods such as where their child will die and how to prepare for the funeral

The Ethics of Palliative Care H. ten Have, David Clark, 2002 This volume provides a picture of palliative care ethics in the European context It should interest those involved in the delivery and management of palliative care services as well as students and researchers

A Hospice in Change Martin Lipscomb, 2013-10-15 A Hospice in Change Applied Social Realist Theory reports upon a study into aspects of the ways in which structural and organisational developments professional cultures and bedside or patient focused clinical practice interact within a single UK institution While the findings of this study are time and context specific the events and social processes being described may nonetheless resonate closely with the experience of healthcare practitioners at other hospices both within and without the UK The work examines themes and ideas that hospice and palliative care practitioners as well as those involved or interested more broadly in end of life issues may find relevant It is argued that differential morphogenesis can be identified between structures social and cultural and agents individual and group at an independent healthcare charity in southern England A Hospice in Change connects theory and philosophy with concrete research practice to provide a worked example of Margaret Archer's realist social theory

Virtual Reality Interventions for Patients Under Palliative Care Olive K. L. Woo, 2025-06-23 Virtual Reality Interventions for Patients under Palliative Care is a groundbreaking guide that empowers healthcare professionals to transform end of life care with the innovative use of virtual reality VR This book equips clinicians with the knowledge and skills they need to seamlessly integrate state of the art VR technology into palliative care addressing a wide range of patient needs from pain management to wish fulfillment The book's special features include evidence based VR interventions practical implementation strategies assessment tools case studies clinical tips and suggested scripts for engagement preparation and assessment Grounded in robust research theory and practical expertise this guidebook is a must read for any researcher or professional who wants to enhance the quality of life for terminally ill patients and their families through VR technology which offers a novel and transformative approach that sets it apart from traditional palliative care practices

Trends in Contemporary Ethical Issues Aidan E. Wurtzel, 2006 This book presents theoretical and applied issues including ethical theory moral social political and legal philosophy This book covers issues such as biology and medicine business education environment government mass media science agriculture and food production and religion

International Journal of Palliative Nursing, 2001 **Palliative Care** Jean Lugton, Rosemary McIntyre, 2006-01-04 This title is directed primarily towards health care professionals outside of the United States Palliative Care The Nursing Role is an introductory text for nurses and other health care professionals who deliver palliative care across a range of

settings It lays a clear foundation of knowledge focusing on the needs and perspectives of patients and families who face the challenge of advanced incurable illness The style is highly accessible yet challenges readers to analyze key issues that present within palliative care Covering the wide range of care provision in hospices hospitals and patients homes the book draws widely from practice based examples to explain and expand upon theoretical issues Research evidence underpins each of the chapters Guided activities encourage readers to reflect in a focused way on their clinical experience and current practice This new edition has been fully updated to reflect ongoing developments and shifting trends in palliative care education and practice It will suit the needs of both pre and post qualifying students seeking to develop their knowledge and is well suited to practitioners working within either generalist or specialist palliative care settings or within acute or community settings as well as those studying a range of palliative care educational curricula The authors have a wide range of experience in palliative care and all are actively engaged in practice and or education A clear broad based approach offers a thorough introduction for the non specialist nurse Written and edited by an experienced team of nurses working in this field grounding it in current practice Learning outcomes listed at the start of each chapter aid learning and comprehension Reflective practice activities and an outline of CPD is especially useful for students working independently Case histories recommended reading lists and references provide a solid evidence base for clinically based practice and facilitate further study Thoroughly revised and updated to reflect changes in policy direction A new chapter on pain and symptom management Revised content reflects the recent shift in the evidence base concerning spirituality Includes psychosocial issues of loss for the patient their family and careers

Participatory Research in Palliative Care J. M. Hockley, Jo Hockley, Katherine Froggatt, Katharina Heimerl, 2013 Participatory Research in Palliative Care discusses participatory research methods within the discipline of palliative care Providing an overview of the action research methods it uses exemplars from studies within palliative care as well as discusses the prominent issues currently faced in this methodology from a global perspective

Ethical Considerations at the Intersection of Psychiatry and Religion John Peteet, Mary Lynn Dell, Wai Lun Alan Fung, 2018-01-05 Psychiatry and religion spirituality R S share an interest in human flourishing a concern with beliefs and values and an appreciation for community Yet historical tensions between science and religion continue to impede dialogue leaving clinicians uncertain about how to approach ethical questions arising between them When are religious practices such as scrupulosity disordered What distinguishes healthy from unhealthy religion How should a therapist approach a patient s existential moral or spiritual distress What should clinicians do with patients R S convictions about faith healing same sex relationships or obligations to others Discussions of psychiatric ethics have traditionally emphasized widely accepted principles generally admired virtues and cultural competence Relatively little attention has been devoted to the ways that R S inform the values of patients and their clinicians shape preferred virtues and interact with culture Ethical Considerations at the Intersection of Psychiatry and Religion aims to give mental health professionals a

conceptual framework for understanding the role of R S in ethical decision making and serve as practical guidance for approaching challenging cases Part I addresses general considerations including the basis of therapeutic values in a pluralistic context the nature of theological and psychiatric ethics spiritual issues arising in diagnosis and treatment unhealthy and harmful uses of religion and practical implications of personal spirituality Part II examines how these considerations apply in specific contexts inpatient and outpatient consultation liaison child and adolescent geriatric disability forensic community international addiction and disaster and emergency psychiatry as well as in the work of religious professionals ethics committees psychiatric education and research Thick descriptions of case examples analyzed using the framework of Jonson and Winslow show the clinical relevance of understanding the contributions of religion and spirituality to patient preferences quality of life decision making and effective treatment

Evidence-Based Palliative Care H. H. Abu-Saad, 2008-04-15 This book describes the current state of the art in the field of palliative care in children and adults Special emphasis is placed on addressing the efficacy and effectiveness of palliative care models pain and symptom management and on measuring quality of life In addition the book evaluates current research methods in palliative care and suggests suitable alternatives Finally the book bridges the gap between science and practice by providing the reader with the current evidence and how it can be applied in the practice setting

Research Handbook on End of Life Care and Society David Clark, Annemarie Samuels, 2025-09-10 This is an open access title available under the terms of a CC BY 4.0 License It is free to read download and share on Elgaronline.com This comprehensive Research Handbook provides an accessible overview of research on palliative and end of life care in its social context It examines key theories methods and research findings presenting crucial social science and public health perspectives

Oxford Textbook of Palliative Nursing Associate Professor Specialty Director Palliative Care Tara A Albrecht, Tara A. Albrecht, Senior Nursing Director Palliative Care Fellowship Director Palliative Care Adult Nurse Practitioner Fellowship Vanessa Battista, Vanessa Battista, Abraham A. Brody, Mathy Mezey Professor of Geriatric Nursing Professor of Medicine Associate Director Hign Abraham A Brody, Director of Research Hospice and Palliative Nurses Association Associate Professor College of Nursing Heather Coats, Heather Coats, 2025-10-08 Palliative and hospice care is a specialty that is constantly evolving alongside the needs of its patients Practitioners must navigate a rapidly growing field to best advocate for and deliver high quality primary and specialty palliative care to persons and families of those living with serious illness The Oxford Textbook of Palliative Nursing remains the most comprehensive treatise on the art and science of palliative care nursing available This new edition of the textbook brings together more than 150 nursing experts to help answer real world questions around the physical psychological social and spiritual needs pertinent to a successful palliative care team Organized within 9 Sections this new edition covers the gamut of principles of care from the time of initial diagnosis of a serious illness to the end of a patient's life and beyond This sixth edition of The Oxford Textbook of Palliative Nursing mirrors developments in Palliative Care including several new

chapters to support the delivery of palliative care to diverse populations These chapters explore care for patients living with pulmonary cardiac liver renal and hematologic diseases as well as chapters on health inequalities LGBTQ communities rural communities and care of those with substance use disorders and serious mental illness Each chapter is rich with tables and figures case examples for improved learning and a strong evidence based practice to support the highest quality of care The book offers a valuable and practical resource for students and clinicians across all settings of care The content is relevant for specialty hospice agencies and palliative care programs as well as generalist knowledge for schools of nursing oncology critical care and pediatrics Developed with the intention of emphasizing the need to extend palliative care beyond the specialty to be integrated in all settings and by all clinicians caring for the seriously ill this new edition will continue to serve as the cornerstone of palliative care education
