

## **The Ethical Perspectives of the Eastern Christian Churches**

Christian ethics (moral theology) is a particular form of systematic theology which focuses on the practical life of faith. On the other hand, moral philosophy, or philosophical ethics reflect the nature of moral life and what constitutes right and wrong behaviour, without any reference whatsoever to God's revelation and to Christian beliefs. As a separate discipline and area of theological study, Christian ethics is a late development in Christian history. However, the subject matter of Christian ethics is found in the original sources of Christian life and faith. There are different kinds of ethical approaches in Christian tradition, such as Jewish, Protestant, Anglican, Eastern Christian, and Catholic. Although there are not many writings in Eastern Ethics, the ethical outlook of the east is relevant today. According to the Russian moralist S. Tyszkiewicz, "the West has seen many books, collections, and articles on philosophy, dogmatic theology, monastic spirituality, mysticism, iconography and liturgical life of our separated Eastern brethren, but almost nothing has been written about their moral teachings. Even though literature in the East is comparatively very limited, today, there is renewed interest in ethical issues."<sup>1</sup> Moreover, many are not aware of the richness of the eastern ethical outlook. The main purpose of this chapter is to introduce the ethical perspectives of the Eastern Churches.

### **1. Eastern Christian Ethics**

The development of theology within the Eastern and the Western churches is different. Eastern Christian theologians (John Meyendorff, Y. Congar, Hans Urs von Balthasar, Mathew Vellanickal, and Xavier Koodapuzha) depict the difference in Eastern and Western theology.<sup>2</sup> This difference is evident in their ethical approaches too. The foundation of Eastern Ethics is different from those of the other Confessions.<sup>3</sup>

Eastern Churches have a deep sense of history, in continuity with the early Church, and see themselves as fully sharing and expressing the early church's doctrinal teachings.

**Ethical perspectives of the Eastern Churches** Scaria Kanniyakonil, 2004 Papers presented at the Placid Symposium held at Changanacherry on 21st June 2003     *The Fundamentals of Bioethics: Legal Perspectives and Ethical Approaches* Scaria Kanniyakonil, 2007     Living Organ Donation and Transplantation Scaria Kanniyakonil, 2005     Eastern Orthodox Christianity and Animal Suffering Christine Nellist, 2018-10-25 This book is the first academic work in Eastern Orthodox theological literature on the subject of animal suffering and human soteriology. It represents a natural progression of the contemporary Eastern Orthodox academic debate on the environment and will be of interest not only to academic scholars in theology, religion, philosophy and ethics but also to the wider Christian and secular communities. Using Biblical and Patristic teachings together with new social science research and contemporary science, it presents arguments that animal suffering is against God's Will and that the abuse or misuse of animals or indifference to animal suffering will result in negative consequences for human salvation. The book posits a revisionist interpretation of the Noahic narrative when addressing the challenging question of why God allows the dispensation of animals as food and offers compelling arguments on why the contemporary animal food production industries and animal testing model should be rejected     **Encyclopaedia Britannica: Edwardes-Evangelical Association** Hugh Chisholm, 1910 This eleventh edition was developed during the encyclopaedia's transition from a British to an American publication. Reichberg, Henrik Syse, 2014-05-26 This volume offers a comprehensive selection of texts from the world's major religions on the ethical dimensions of war and armed conflict. Despite a considerable rise of interest in Eastern and Western religious teachings on issues of war and peace, the principal texts in which these teachings are expounded have in most cases remained inaccessible to all but a handful of specialists. This is especially true of traditions such as Islam, Buddhism and Judaism where the key authoritative treatments are often embedded in texts e.g. Koranic jurisprudence, religious epics or Talmudic commentary that are not overtly about matters pertaining to the ethics of war, thus requiring a difficult process of interpretation and selection and for which English translations frequently do not exist. Topical and timely for today's debates in the public arena and essential reading for students of religious ethics and the relationship between religion and politics, this book aims to give the reader a proper knowledge of the textual traditions that inform the key struggles over issues of peace and security, identity and land     **Christian Ethics: The Basics** Robin Gill, 2020-02-13 *Christian Ethics: The Basics* sets out clearly and critically the different ways that Augustine, Aquinas and

Luther continue to shape ethics today within and across Christian denominations It assumes no previous knowledge of the subject and can be read by religious believers and non believers alike Readers are introduced to Christian ethics from the ground up before being invited to consider some of the most controversial but important questions facing people across the world today Topics addressed include Social justice War and peace Migration immigration Climate change Euthanasia Same sex marriage Religiously inspired violence Biotechnology Abrahamic ethics Concise readable and authoritative this is the ideal primer for anyone interested in the study of religious ethics and Christianity
