

Jim Malley

The following essay is essentially a review of my favorite Christmas present, a book given to me by my sister-in-law, entitled Ethics for the New Millennium by His Holiness The Dalai Lama, spiritual leader of the Tibetan people.

The turn of a millennium is a good time to take stock of the human condition. How are we doing as a species? In what direction are we heading? What are the chief problems of our time and how can we solve them? As counselors, we have a special interest in answering these questions because we belong to a profession that is dedicated to the enhancement of human development.

How we size up the situation may be a matter of perspective. Environmentalists see our biggest problems as global warming and the degradation of natural resources. Medical experts think in terms of the problems of disability, disease, and resistant bacteria. Social Economists may see the biggest problem as the widening gap between the rich and the poor. Since we are human behavior specialists, it no surprise that we tend to view the big problems of our time as related to the way in which humans behave.

Despite the incredible technological advances of the post-modern age, there is scant evidence to suggest that humans have progressed very much socially or emotionally. Wars, crime, violence, epidemics of depression and drug and alcohol addiction are all reminders that the maturing of human nature is a painfully slow process. And, specific problems like school violence suggest that, as a society, we may

Aristoteles

Ethics And The Will Essays:

Ethics and the Will Friedrich Waismann, Josef Schächter, Moritz Schlick, 2012-12-06 The contribution made by the Vienna Circle to ethics and the philosophy of action is increasingly being recognized Here two previously unpublished pieces by Moritz Schlick and his pupil Josef Schächter set the scene showing how ethics is not dependent on metaphysics but does require a sensitivity to strata of language other than that of science Schächter author of *Prolegomena to a Critical Grammar* also in the VCC and now doyen of educational philosophers in Israel further develops this ethical theme in a too little known study of pessimistic dicta that he published in 1938 He succeeds without ever assenting to it in giving sense to the idea that it were better for a man never to have been born The bulk of the book is devoted to two works by Friedrich Waismann probably written not long after his emigration to England also in 1938 There are a paper on ethics and science which defends the Wittgensteinian view that morality is something one cannot defend but only profess and itself more than half the volume a treatise on will and motive where the influence of Wittgenstein is mediated by that of Ryle and where many points in modern theory of action are anticipated with the author's usual sensitivity both to language and to the complexity of the human situation Joachim Schulte recently edited these two works in the original German otherwise they have remained unpublished This valuable addition to the VCC should illuminate both the history of the Circle and the kind of reflection on language and action which dominates the practical philosophy of our own day Essays on Free Will and Moral Responsibility Daniel Cohen, Nick Trakakis, 2009-05-05 The problem of free will has fascinated philosophers since ancient times Do we have free will or at least the kind of free will that seems necessary for moral responsibility Does determinism threaten the idea that everything that happens is necessitated to happen given the past and the laws of nature threaten the commonly held assumption that we are indeed free and morally responsible Although these questions have been widely discussed in the past the present volume offers a variety of new perspectives from philosophers who have made significant contributions to this debate over recent years including Derk Pereboom Robert Kane Ishtiyaque Haji Michael McKenna John Martin Fischer David Widerker and Saul Smilansky The emphasis in these essays is not merely on free will but on allied notions such as moral responsibility moral obligation fairness and meaningfulness and on whether any room can be made for these notions in a deterministic or an indeterministic universe The Ethics of Aristotle Illustrated with Essays and Notes. By Sir Alexander Grant ... Second Edition, Revised and Completed Aristotle, 1866 **Essays on Ethics and Method** Henry Sidgwick, 2000-12-21 *Essays on Ethics and Method* is a selection of shorter writings on the 19th century philosopher Henry Sidgwick The essays develop further Sidgwick's ethical ideas and illuminate other aspects of his thought **The ethics of Aristotle illustrated with essays and notes by Alex. Grant** Aristoteles, 1858 Moral Psychology Today David K. Chan, 2008-02-03 *Moral Psychology Today* David K Chan Philosophers working in the field of moral psychology concern themselves with issues and questions that straddle across more than one sub discipline in philosophy The answers that they

propose and the theories that they propound have implications for moral philosophy the philosophy of mind epistemology and metaphysics Philosophers with an interest in the will or the motivational psychology of human action divide between those investigating psychological and behavioral concepts for their own sake and those working on action theory for the sake of answering larger questions especially ethical ones The essays in this volume all of which were presented at a conference on Values Rational Choice and the Will belong largely in the latter category of research The essays here contribute to debates and discussions on a wide range of topics that are of current interest in moral psychology These essays demonstrate both the breadth of the field of moral psychology and the importance of the questions investigated Artificial boundaries between sub disciplines of philosophy are crossed in putting these essays together in the same anthology There are essays here in meta ethics and in normative ethics There are essays in ethical theory and in applied ethics There are essays that draw on discoveries in empirical psychology

Essays on Ethics and Feminism Sabina Lovibond, 2015-10-08 *Essays on Ethics and Feminism* is a selection of the shorter writings of Sabina Lovibond one of the most distinctive voices in contemporary philosophy since the 1980s This work lays claim to a broad thematic unity based on its affiliation to the realist or rationalist traditions in moral philosophy Some of the essays seek to clarify the relation of feminism to these traditions and to current anti rationalist tendencies especially important here are the status and prospects of normativity autonomy purposive action and other conceptual resources for critical thinking which were called into question over roughly the last third of the twentieth century not least by feminist writers heedful of continental European developments All of the essays are concerned with fundamental ethical questions including but not restricted to questions of feminist ethics such as the nature of value and the good life moral requirements and their associated epistemology character formation and the ideological critique of the processes by which this is effected The essays deploy ideas drawn both from Platonic Aristotelian and from Kantian ethics as well as from the later philosophy of Wittgenstein However they also attempt to respond to the destabilizing impact of Nietzschean and postmodernist thought The writing is addressed to those engaged in or with some interest in academic philosophy and draws on a wide range of philosophical source materials but avoids unnecessary technicality In the same way it should appeal to those with a pre existing interest in academic feminism and in some forms of feminist activism but could also serve to draw new readers into the domain of feminist thought

The Ethics of Aristotle Illustrated with Essays and Notes by Alexander Grant Alexander Grant, Aristotle, 1874

Essays in Religion and Morality William James, 1982 *Essays in Religion and Morality* brings together a dozen papers of varying length to these two themes so crucial to the life and thought of William James Reflections on the two subjects permeate first James's presentation of his father's Literary Remains second his writings on human immortality and the relation between reason and faith third his two memorial pieces one on Robert Gould Shaw and the other on Emerson fourth his consideration of the energies and powers of human life and last his writings on the possibilities of peace especially as found in his famous essay The Moral Equivalent of War These

speeches and essays were written over a period of twenty four years The fact that James did not collect and publish them himself in a single volume does not reflect on their intrinsic worth or on their importance in James s philosophical work since they include some of the best known and most influential of his writings All the essays throughout their varied subject matter are consistently and characteristically Jamesian in the freshness of their attack on the problems and failings of humankind and in their steady faith in human powers

Essays on the History of Ethics Michael Slote,2010-01-28 Michael Slote collects his essays that deal with aspects of both ancient modern ethical thought seek to point out conceptual normative comparisons contrasts among different views The relationship between ancient ethical theory modern moral philosophy is a major theme of several of the papers

Normativity and the Will R. Jay Wallace,2006 How to argue about practical reason Three conceptions of rational agency Explanation deliberation and reasons Normativity and the will Normativity commitment and instrumental reason Reason and responsibility Moral responsibility and the practical point of view Addiction as defect of the will some philosophical reflections Caring reflexivity and the structure of volition Ressentiment value and self vindication making sense of Nietzsche s slave revolt Virtue reason and principle Scanlon s contractualism The rightness of acts and the goodness of lives Moral reasons and moral fetishes rationalists and anti rationalists on moral motivation

Ethics in Practice Hugh LaFollette,2020-02-12 The bestselling and field defining textbook which has introduced generations of students to the field of practical ethics now in a new fully revised fifth edition For more than twenty years Ethics in Practice has paved the way for students to confront the difficult ethical questions they will must or do already face Accessible to introductory students yet sufficiently rigorous for those pursuing advanced study this celebrated collection encourages and guides readers to explore ethical dimensions of important controversial topics such as euthanasia environmental action economic injustice discrimination incarceration abortion and torture In combining new and revised modern texts with works of classic scholarship Ethics in Practice equips readers to consider wide ranging ideas in practical ethics and to understand the historical basis for contemporary developments in ethical theory Revisions and updates to the new edition of Ethics in Practice focus on covering pressing global issues and adding depth to key sections Many sections have been expanded to offer more thorough coverage of topics in ethical theory Edited by Hugh LaFollette highly regarded for his contributions in the field of practical ethics this important volume Explores the connections between ethical theory and divisive contemporary debates Includes general and section introductions which map the conceptual terrain making it easy for students to understand and discuss the theoretical and practical dimensions of the issues Offers up to date incisive discussion global local and personal ethical issues Provides original essays new perspectives and revisions of key critical texts Enables instructors to discuss specific practical issues broader groupings of topics and common themes that connect major areas in ethics Already a market leading text for introductory and applied ethics courses the latest edition of Ethics in Practice An Anthology continues to be an essential resource for instructors and students in philosophy departments around the world

The Will to Believe, and Other Essays in Popular Philosophy William James, 2024-11-06 The City of God Volume II an enduring work by Saint Augustine invites readers into a profound examination of faith society and the eternal battle between divine and earthly realms Written during a period of societal upheaval Saint Augustine addresses the tumult of the collapsing Roman Empire providing a vision of a spiritual kingdom transcending earthly trials In this second volume Augustine builds upon the philosophical and theological foundation laid in Volume I continuing to explore the ultimate destinies of the City of God and the City of Man He delves deeply into human history exposing the flaws of a society built on pride and selfish desires contrasting it with the values of humility and love that characterize the heavenly city His insights into virtue sin and the nature of evil provide a roadmap for those seeking understanding in a world marked by conflict and change The City of God Volume II is celebrated not only as a theological classic but also as a timeless reflection on the relationship between church and state morality and the soul's journey This work transcends its historical context offering modern readers invaluable perspectives on spirituality ethics and the human condition Saint Augustine's eloquent prose and rigorous arguments resonate with anyone who questions the purpose of life and the nature of justice Readers are drawn to The City of God for its intellectual depth and spiritual wisdom finding answers to the age old questions that still challenge society today This book is a must read for those seeking to understand the deeper purposes of human existence and the conflict between worldly ambitions and spiritual fulfillment Owning a copy of The City of God Volume II offers readers an opportunity to engage with one of the most influential thinkers in Christian philosophy making it an essential addition to any serious collection on theology and philosophy

Free Will and Moral Responsibility Justin Caouette, Ishtiyaque Haji, 2013-10-03 Determinism is roughly the thesis that facts about the past and the laws of nature entail all truths A venerable age old dilemma concerning responsibility distils to this if either determinism is true or it is not true we lack responsibility grounding control Either determinism is true or it is not true So we lack responsibility grounding control Deprived of such control no one is ever morally responsible for anything A number of the freshly minted essays in this collection address aspects of this dilemma Responding to the horn that determinism undermines the freedom that responsibility or moral obligation requires the freedom to do otherwise some papers in this collection debate the merits of Frankfurt style examples that purport to show that one can be responsible despite lacking alternatives Responding to the horn that indeterminism implies luck or randomness other papers discuss the strengths or shortcomings of libertarian free will or control Also included in this collection are essays on the freedom requirements of moral obligation forgiveness and free will a desert free conception of free will and vicarious legal and moral responsibility The authors of the essays in this volume are philosophers who have made significant contributions to debates in free will moral responsibility moral obligation the reactive attitudes philosophy of action and philosophical psychology and include John Martin Fischer Robert Kane Michael McKenna Alfred Mele and Derk Pereboom

Essays in Moral Skepticism Richard Joyce, 2016 This volume draws

together Richard Joyce's work from the last decade on moral skepticism the view that there is no such thing as moral knowledge Joyce's radical view is that in making moral judgments speakers attempt to state truths but that the world isn't furnished with the properties and relations necessary to render such judgments true *William James, Moral Philosophy, and the Ethical Life* Jacob L. Goodson, 2017-12-20 Virtue theory natural law deontology utilitarianism existentialism these are the basic moral theories taught in Ethics History of Philosophy and Introduction to Philosophy courses throughout the United States When the American philosopher William James 1842 1910 finds his way into these conversations there is uncertainty about where his thinking fits While utilitarianism has become the default position for teaching James's pragmatism and radical empiricism this default position fails to address and explain James's multiple criticisms of John Stuart Mill's formulaic approach to questions concerning the moral life Through close readings of James's writings the chapters in William James Moral Philosophy and the Ethical Life catalogue the ways in which James wants to avoid the following a the hierarchies of Christian natural law theory b the moral calculus of Mill's utilitarianism c the absolutism and principle-ism of Immanuel Kant's deontology and d the staticity of the virtues found in Aristotle's moral theory Elaborating upon and clarifying James's differences from these dominant moral theories is a crucial feature of this collection This collection is not however intended to be wholly negative that is only describing to readers what James's moral theory is not It seeks to articulate the positive features of James's ethics and moral reasoning what does it mean to an ethical life and how should we theorize about morality **Twenty-six Additional Scientific Papers and Philosophical Essays That Will Eventually Compel**

Scholars to Rethink the World Daniel Zanou, 2024-01-08 This compilation of twenty-six scientific papers and philosophical essays expands the mind-body problem of the French philosopher and mathematician René Descartes We expose the nature of consciousness we discuss its origin and manifestations in living organisms We distinguish it from life and elaborate on human existence on Earth From there we solve the ancient enigma posited by Epicurus the Greek philosopher In science we take over Schrödinger's works on the body's entropy and use the research of the Japanese Nobel laureate Yoshinori Ohsumi to explain how non-living atoms transition to living molecules Francis Crick's faded dream that becomes reality We delve into the living organisms to explain various losses of consciousness and awareness including sleep syncope and death We mainly focus on sleep to elucidate this mystery that no living organisms escape *The Ethical State - An Essay On Political Ethics*

John David Garcia, 2003-11-11 *Four Views on Free Will* John Martin Fischer, Robert Kane, Derk Pereboom, Manuel Vargas, 2024-01-17 A lively and engaging debate between four representative views on free will completely revised and updated with new perspectives Four Views on Free Will is a robust and careful debate about free will how it interacts with determinism and indeterminism and whether we have it or not Providing the most up-to-date account of four major positions in the free will debate the second edition of this classic text presents the opposing perspectives of renowned philosophers John Martin Fischer Robert Kane Derk Pereboom and Manuel Vargas Substantially revised throughout this new volume

contains eight in depth chapters almost entirely rewritten for the new edition in which the authors state their different positions on the debate offer insights into how their views have evolved over the past fifteen years respond to recent critical literature in the field and interact and engage with each other in dialogue In the first four chapters the authors defend their distinctive views about free will libertarianism compatibilism hard incompatibilism and revisionism The subsequent four chapters consist of direct replies by each of the authors to the other three Offering a one of a kind interactive conversation about the most recent work on the subject *Four Views on Free Will Second Edition* provides a balanced and enlightening discussion on all the key concepts and conflicts in the free will debate Part of the acclaimed *Great Debates in Philosophy* series it remains essential reading for undergraduate and graduate students lecturers and scholars in philosophy ethics free will philosophy of mind political philosophy law and related subjects

An Essay intended to interpret and develop unsolved ethical questions in Kant's "Groundwork of the Metaphysic of Ethics.". David ROWLAND (Solicitor.), 1871
