#### **Ethics And Religion In A Pluralistic Age:**

Ethics and Religion in a Pluralistic Age Brian Hebblethwaite, 1997-01-01 This important work explores the distinctiveness of Christian ethics particularly through its interconnections with doctrine and the wider history of religions Brian Hebblethwaite shows how the distinctiveness of Christian ethics can only be understood and appreciated against this wider background In a remarkably skilful and sensitive way he brings out the pluriform and complex nature of that distinctiveness in Christian individuals and communities as they reflect something of the triune love of God and in contemporary humanism and the major world faiths in which this love is also discernible to different degrees He concludes with an extended exploration of the strengths and weaknesses of the different religions in their contributions to the overcoming of evil The result is a seminal study for everyone interested in ethics theology and religious studies **Ethics** and Religion in a Pluralistic Age Brian Hebblethwaite, 1998-01-01 This important work explores the distinctiveness of Christian ethics particularly through its interconnections with doctrine and the wider history of religions Brian Hebblethwaite shows how the distinctiveness of Christian ethics can be understood and appreciated He brings out the complex nature of that distinctiveness in Christian individuals and communities as they reflect something of the triune love of God and in contemporary humanism and major world faiths in which this love is also discernable He concludes with an extended exploration of the strengths and weaknesses of the different religions in their contributions to the overcoming of **Authenticity and Religion in the Pluralistic Age** Francesca E.S. Montemaggi, 2019-03-19 This book provides an evil original concept of authenticity to illuminate the transformation of Christian consciousness in the increasingly more secular and pluralistic culture of Western societies. The present work is unique in offering an in depth study of Simmel's sociology and philosophy in dialogue with an ethnographic account of contemporary Christians It develops original concepts drawing on Simmel's writings on individuality and religion and connecting them with classical and contemporary scholarship in sociology and philosophy The theoretical framework is illustrated through an analysis of the narratives and practices of Christians in an evangelical church in the UK and several New Monastic communities in the UK US and Canada The book proposes an understanding of belief as relational and experiential and a concept of authenticity as self transcendence articulated in dialogue with religious tradition and the Other Religious tradition is developed through an on going process of interpretation and sacralization of what is considered within and without the tradition s boundaries The book also proposes an innovative approach to the study of morality by distinguishing between a people centered ethic of compassion and a norm centered ethic of purity to account for the the different ways in which Christians engage with the Other This allows an exploration of the relationship between ethics and the making and breaking of boundaries in a given community The case studies in this book show that committed Christians attempt to reconcile commitment to their tradition with the value of inclusiveness and to affirm their moral and religious identity as a distinctive moral lifestyle not superior but of equal

worth to those of non Christians 
Liberty for All Andrew T. Walker, 2021-05-04 Christians are often thought of as defending only their own religious interests in the public square They are viewed as worrying exclusively about the erosion of their freedom to assemble and to follow their convictions while not seeming as concerned about publicly defending the rights of Muslims Hindus Jews and atheists to do the same Andrew T Walker an emerging Southern Baptist public theologian argues for a robust Christian ethic of religious liberty that helps the church defend religious freedom for everyone in a pluralistic society Whether explicitly religious or not says Walker every person is striving to make sense of his or her life The Christian foundations of religious freedom provide a framework for how Christians can navigate deep religious difference in a secular age As we practice religious liberty for our neighbors we can find civility and commonality amid disagreement further the church s engagement in the public square and become the strongest defenders of religious liberty for all Foreword by noted Princeton scholar Robert P George

Navigating Right and Wrong Daniel E. Lee, 2002-10-09 How should I live my life Is there really anything that is inherently right or wrong These may sound like simple questions but finding answers to them is anything but simple particularly in an age of ethical pluralism In our multicultural multiethnic world is there any meaningful way to talk about moral obligations Daniel Lee says yes In Navigating Right and Wrong this long time ethicist and teacher helps us begin to reconcile our personal moral commitments with an openness to alternatives with an eye to responsibly negotiating ethics and morality in our pluralistic age Through concise thoughtful prose and engaging anecdotes Lee introduces readers to various philosophical and theological moral theories ultimately arguing that we must embrace a faith based ethics or succumb to the alternative ethical subjectivism In the final analysis Lee asserts we can do no more than acknowledge that the value claims we make are part of the faith we affirm be it one that is explicitly religious or entirely secular in nature Assuming no prior philosophical knowledge Navigating Right and Wrong will be of use to general readers students and anyone else who has ever earnestly asked the question Is there really anything that is right or wrong Ethics, Religion, and the Good **Society** Joseph Runzo, 1992-01-01 People living in a pluralistic age are aware of diversity among themselves and consider it both natural and enriching for humankind However there are many disagreements that create ethical questions on the nature of human good religion and public morality and more Joseph Runzo with the help of a diverse group of contributors skillfully deals with these ethical issues A Protestant Theology of Religious Pluralism Livingstone Thompson, 2009 In this book three main things have been accomplished First it locates the emergence of religious pluralism as a problem for Christian theology Secondly it shows the critical weaknesses in the approaches to pluralism that we find in the works of Gavin D Costa George Lindbeck and John Hick all major players in the field of religious pluralism Retrieving theological material from seventeenth century Comenius and eighteenth century Zinzendorf the book shows that the Protestant tradition has suitable theological material that can better serve the development of a theology of religious pluralism Thirdly the book

enters into dialogue with Islam and highlights exciting new approaches to addressing the issues of salvation the Qur an and Christology One critical outcome of the book is that it breaks new ground in showing the limitations of liberation theology and proposes a fascinating new pluralism sensitive hermeneutical approach to contextual theology Philosophy of Religion Charles Taliaferro, Paul Draper, Philip L. Quinn, 2010-01-19 In 85 new and updated essays this comprehensive volume provides anauthoritative guide to the philosophy of religion Includes contributions from established philosophers and risingstars 22 new entries have now been added and all material from the previous edition has been updated and reorganized Broad coverage spans the areas of world religions theism atheism the problem of evil science and religion Fifty Years of Philosophy of Religion: A Select Bibliography (1955-2005) Andy Sanders, Kristof de Ridder, 2007-06-28 The bibliography lists about 10 000 titles of monographs collections and articles in the field of the philosophy of religion and philosophical theology that appeared between 1955 and 2005 The majority of them are in the English language but publications in German Dutch and French are listed as well Though it is not claimed to be exhaustive the bibliography offers a fairly representative survey of scholarly work on the main topics of interest Publications have been systematically classified according to eleven main categories Introductions Surveys and Historical Issues Part I Religious Language Part II Religious Experience Part III Religious Epistemology Part IV Theism Part V Hermeneutics Part VI Religion and Science Part VII Religion and Aesthetics Part VIII Religion and Morality Part IX Religious Pluralism Part X and Feminist Philosophy of Religion Part XI Part III has been subdivided into Religious Experience and Mystical Experience Part VII into The Concept of God arguments for The Existence of God The Problem of Evil and Atheism and Part VII into General and Historical Issues Theological Issues and implications of Modern Physics Cosmology and Biology The bibliography will particularly be useful to scholars teachers and students in the philosophy of religion philosophical theology and systematic theology as well as to those who are interested professionally or otherwise in the results of academic scholarship in those fields Philosophy of Religion Paul Copan, Chad Meister, 2007-10-22 Philosophy of Religion Classic and Contemporary Issues offers a comprehensive and authoritative overview of the most important ideas and arguments in this resurgent field Provides a solid foundation on the history of religious philosophy while broadening our understanding of religion s significance in today s world Features 18 newly commissioned essays by well known scholars with varied viewpoints on the philosophy of religion Examines the evolution of religious philosophy from it roots to contemporary issues while expanding its analysis to include non Western religious themes Includes charts questions and annotated suggested readings to stimulate Catholicism in Italy in the Age of Pluralism Franco Garelli, 2012-07-10 Religious pluralism is further study and reflection increasing due to progressively more culturally interactive societies and an escalating exchange of migrants Nevertheless as this book shows the situation in Italy is characterized by several distinct features Statistically the level of religiosity is noticeably higher than in other European countries and the majority of the population declares itself Catholic Within the

Catholic world however there are distinct differences in the ways and forms of believing ranging from the convinced and active faithful to the occasional believer or the development of new forms of Catholic Catholic sentiment endures although many believers may not agree with the ethical indications of the ecclesiastical hierarchy Furthermore the Church and Catholic groups have reinforced their presence in the public sphere by participating in various campaigns to reassert Christian values on fundamental issues for civil harmony from the family to bioethics the limitations of science to the goals of economic development religious freedom to the secular State national identity to global equilibriums and more The Church therefore moves at various levels in order to keep the nation closely tied to Catholic culture a commitment which is both applauded and criticized Some non believers express appreciation for the Catholic campaigns set out to counteract the lack of values and loss of memory typical of advanced modernity However in the non believing secular world many more criticize the Catholic presence for acting as a lobby in Italian society accusing the Italian Church of excessive alignment to the diktat issued by the Vatican The particularity of the Italian case poses unique questions to those who study social phenomena Why is the Catholic Church in Italy experiencing a period of such vitality in the public sphere How can this situation be reconciled with the undisputed advance of secularization And what kind of organizational problems does the assertive dynamism of Italian Catholicis Christian Theology in a Pluralistic Age David H. Jensen, 2024-12-16 How does today s context of radical pluralism affect Christian theology Can Christian theologians be claimed by more than one religious tradition What makes constructive interreligious dialogue possible The authors of this volume explore the challenges and opportunities of religious diversity and religious non affiliation for Christian faith By exploring the ways in which engagement of other traditions changes them these theologians offer hopeful reflections for the church's dialogical future **Finite and Infinite Goods** Robert Merrihew Adams, 1999-07-29 The book proposes a framework for ethics that is organized around a transcendent Good and its relation to the many finite goods of our experience Two main themes are the central role of the Good in ethics and the transcendence of the infinite Good which is identified with God The Reconciliation of Humanity in Christ Peter Y. Hong, 2024-12-10 The Reconciliation of Humanity in Christ is essential reading for Christians who wish to lead and serve the globalized world This book is about theological engagement with globalization Although people are now living in a world in which a universal and inclusive society has emerged the church has remained powerless in uniting peoples nations and civilizations as one in Christ In order for the church to regain its credibility and confidence it must address three theological issues social justice religious pluralism and ethics and the missional method The rationale for this book is that the power of true religion becomes evident in the world when all Christians are engaging with globalization to reconcile humanity with God and with each other in preparation for the consummation of God's kingdom In response to the problems of globalization Christians can become agents of renewal for globalization by administering God's grace and peace for humanity This book will educate and equip the readers to engage with the issues of globalization in the public arena Readers

God and Moral Obligation C. Stephen Evans, 2013-03-01 Is there a connection between religion and morality Ivan Karamazov in Dostoevsky s The Brothers Karamazov famously declares that if God does not exist then everything is permitted Most philosophers reject such a view and hold that moral truths do not depend on God C Stephen Evans argues that the truth lies somewhere between these two claims It is not quite right to say that there would be nothing left of morality if God did not exist but moral obligations do depend on God ontologically Such obligations are best understood as God s commands or requirements communicated to humans in a variety of ways including conscience In God and Moral Obligation Evans also argues that two views often thought to be rivals to a divine command morality natural law ethics and virtue ethics are not rivals at all but provide necessary complementary elements of a comprehensive morality A number of objections to a divine command account of moral obligations are posed and answered In the concluding chapters Evans points out the advantages such an account has over secular rivals The authority and objectivity of moral obligations are best explained by seeing them as divine commands

Enseignement Du Droit Ecclésiastique de L'état Dans Les Universités Européenes

European Consortium for Church-State Research. Conference, 2005 There is great concern nowadays regarding the character

and position of University studies all over Europe as the result of a possible coordination of University studies Within this context the subject of this book is the teaching and research activities of Universities and other European institutions in the field of Church State relations Four University scholars Basdevant Gaudemet Puza Kotiranta and Garcia Pardo report along similar lines on the situation of University studies in this field in the different countries of the European Union The first report also contains a historical description of the origins and development of the University studies of Church State relations

Monotheism & Ethics Y. Tzvi Langermann, 2011-11-11 The nexus between monotheism and ethics especially in the forms professed by the three Abrahamic faiths is the theme that binds together the studies in this volume Fourteen leading academics from around the world discuss philosophical and theological connections historical interactions as well as responses to new and contemporary issues Most though not all of the essays find a meaningful connection between monotheism and ethics but none shy away from the problems involved The Concept of Humanity in an Age of Globalization Longxi Zhang, 2012 Rethinking humanity as a concept in our age of globalization and its relevance to the social and political reality of our times are the topic of this book It calls for the reclaiming of humanism as an effective response to the conflict turmoil and violence we witness in the world today Concepts of humanity and humanism have become suspect of naivete at best and guilty of bad faith and repressive ideologies at worst Yet hope for improvement is incorrigibly human the concept of humanity still holds enormous attraction to intellectuals and humanistic scholars At the same time it is important to realize that the critique of humanism is very much based on and limited to Western social and historical experience To re conceptualize humanity and humanism from a truly global perspective will help in relclaiming a more inclusive kind of humanism In this sense a cross cultural perspective is important for reclaiming humanism in our age of globalization The present volume is the result of such an effort The diversity of the authors views speaks eloquently to the complexity of the concept of humanity or what constitutes the distinctly human and therefore the necessity to have an in depth dialogue on the fate of humanity
