Imitating Jesus Richard A. Burridge, 2007-10-22 In contrast to many studies of New Testament ethics which treat the New Testament in general and Paul in particular this book focuses on the person of Jesus himself Richard Burridge maintains that imitating Jesus means following both his words which are very demanding ethical teachings and his deeds and example of being inclusive and accepting of everyone Burridge carefully and systematically traces that combination of rigorous ethical instruction and inclusive community through the letters of Paul and the four Gospels treating specific ethical issues pertaining to each part of Scripture The book culminates with a chapter on apartheid as an ethical challenge to reading the New Testament using South Africa as a contemporary case study enables Burridge to highlight and further apply his previous discussion and

An Introduction to Christian Ethics Alberto de Mingo Kaminouchi, 2020-10-15 What does it mean to live and build up the Kingdom of God In this book professor and priest Alberto de Mingo Kaminouchi introduces the contemporary reader to Christian ethics by examining the New Testament through the three key concepts of Aristotle's ethics happiness virtue and love In turn the three affirmations orient this reflection through the Gospel First when the triune God appears on the horizon it becomes easier to understand that existence has a purpose namely participating with the entire human family in this project of happiness called the Kingdom of God Second happiness is not something outside of us it consists in the practice of the virtues that bring about a personal transformation Third the project of the Kingdom leads us to live in love with others De Mingo Kaminouchi shows the reader a real model of this in the community we call the church the field hospital for all those in need of hope This book is accessibly written for readers not already well versed in Christian ethics

Ethics in the New Testament Jack T. Sanders, 2012-03 This book puts forward a controversial argument which has not been countered in the decade since it first appeared Underlying its approach is the view that the New Testament may be of less relevance to the modern world than is commonly supposed The ethical perspective of Jesus Professor Sanders argues is so inescapably linked to his expectation of the imminent coming of the kingdom of God that the two cannot be separated Paul shares Jesus' expectation of an imminent end and consequently makes frequent use of arbitrary divine pronouncements and so on Professor Sanders makes it quite clear that the years have not made him change his mind over essentials Of course scholarship has moved on but If I were revising the present work I would still continue to hold that Jesus provides no guide for ethics today that Paul's ethics are equally eschatologically orientated except for his brief glimpse of the transcendence of love and also that John's simple ethics are intended to be valid only in the church not generally I would also still maintain that James offers more promise for providing a continuing Christian ethical base than do the other New Testament writers

for it is James who best points beyond the disappointment of eschatological hopes to the real world and to everyday problems
Controversial this thesis may be but there is much to be said for it and it cannot be pushed aside Jack T Sanders was
Professor of Religious Studies In the University of Oregon
