O'Rourke,2019-04-18 This textbook introduces students to the

strategic communication methods that are crucial to master in order to develop into effective and ethical managers at all levels of business. Effective communication skills are necessary for success in the business world and O'Rourke has written a highly readable book filled with anecdotes and examples to engage students in the learning process. This edition includes several classic and new features. The strategic approach is integrated throughout the book, allowing students to understand how a communicated message impacts the business as a whole. Case studies throughout the book provide students with hands-on experience of scenarios they will encounter in the real world. The book includes at least three dozen fresh classroom-tested cases. An ethical thread is woven through the text, demonstrating how ethical decision making can be applied in all aspects of communication. Separate chapters on technology, including social media, intercultural communication, nonverbal communication, and conflict management provide students with the skills to building relationships and influencing stakeholders, key skills for any manager. A companion website includes comprehensive support material to teach this class, making *Management Communication* a complete resource for students and instructors.

Keyguide: Media Ethics Barrie MacDonald, Michel Petheram, 1998-08-13 This guide to information sources in media ethics is divided into three parts. Part I is an overview of the literature covering the mass media in general, telecommunications, broadcasting in all its forms, cinema and video, the press, advertising, publishing, and ethical issues of the media such as government policy and influence, legislation, codes of practice, censorship, representation, and reportage issues, etc. Part II is an annotated bibliography, and Part III is an international directory of organizations related to the subject. A detailed index completes the work.

Technical Communication Today Richard Johnson-Sheehan, 2005 Up-to-date treatment of actual practices in the field of technical communication with hands-on advice for using computers in every stage of the process of creating technical documents and presentations, coverage of finding a job in the field of technical communication.
