## **Ethics Of Indeterminacy In The Novels Of William Gaddis:**

*The Ethics of Indeterminacy in the Novels of William Gaddis* Gregory Comnes, 1994 I wouldn't recommend just any book on Gaddis simply because it dealt with my favorite author But Comnes's book is a truly valuable study that raises Gaddis criticism to a new level of critical sophistication Steven Moore senior editor Dalkey Archive Press William Gaddis is one of the most significant postwar American novelists His three large and experimental works *The Recognitions* *J R* which won the National Book Award in 1975 and *Carpenter's Gothic* sell to a reverential underground In this first discussion of the ethical dimension of Gaddis's novels Gregory Comnes maintains that Gaddis writes epistemological novels narratives whose form provides readers with the means to understand how a postmodern ethics is possible To establish this position Comnes argues three points The first is that ethical concepts derive from fundamental epistemological principles that oughts are legitimated by what passes for what is The second is that Gaddis's novels employ the epistemological concepts grounded in quantum science as principles of composition and form From this interpretation the novels dramatize the truth described by contemporary science Readers of Gaddis come to realize what Bohr and Heisenberg understood Comnes argues that life is not linear aimed at one fixed point and seeking consummation there He concludes that Gaddis wants readers to understand the issue of ethics in a way that one of his characters describes as *Agape agape* Within the constraints of an indeterminate world love itself can serve as the basis of meaning and value The three novels each postmodern and ethical correlate the worlds of science religion art and economics to show that ethical choice not conformity and passivity is possible even when the absolute is replaced with the probable as the basis for judgment Gregory Comnes is professor of philosophy at Hillsborough Community College in Tampa He is the author of other works on William Gaddis published in literary journals

UPDATED WITH OVER TWO DOZEN NEW LETTERS AND PHOTOGRAPHS Now recognized as one of the giants of postwar American fiction William Gaddis shunned the spotlight during his life which makes this collection of his letters a revelation Beginning in 1930 when Gaddis was at boarding school and ending in September 1998 a few months before his death these letters function as a kind of autobiography and also reveal the extent to which he drew upon events in his life for his fiction Here we see him forging his first novel *The Recognitions* 1955 while living in Mexico fighting in a revolution in Costa Rica and working in Spain France and North Africa Over the next twenty years he struggles to find time to write the National Book Award winning *J R* 1975 amid the complications of work and family deals with divorce and disillusionment before reviving his career with *Carpenter's Gothic* 1985 then teaches himself enough about the law to produce *A Frolic of His Own* 1994 Resuming his lifelong obsession with mechanization and the arts he finishes a last novel *Agap Agape* published in 2002 as he lies dying This newly revised edition includes clarifying notes by Gaddis scholar Steven Moore as well as an afterword by the author's daughter Sarah Gaddis

**Powerless Fictions?** Ricardo Miguel-Alfonso, 2023-04-12. Postmodern Studies deals with any aspect of postmodernism or of postmodernity and the postmodern in relation to literature.

**Rhetoric and Evidence** Peter Schneck, 2011-10-27. The book traces the changing relation and intense debates between law and literature in U.S. American culture using examples from the 18th to the 20th century, including novels by Charles Brockden Brown, James Fenimore Cooper, Harper Lee, and William Gaddis. Since the early American republic, the critical representation of legal matters in literary fictions and cultural narratives about the law served an important function for the cultural imagination and legitimation of law and justice in the United States. One of the most essential questions that literary representations of the law are concerned with, the study argues, is the unstable relation between language and truth, or more specifically between rhetoric and evidence. In examining the truth claims of legal language and rhetoric and the evidentiary procedures and protocols which are meant to stabilize these claims, literary fictions about the law aim to provide an alternative public discourse that translates the law's abstractions into exemplary stories of individual experience. Yet while literature may thus strive to institute itself as an ethical counter-narrative to the law in order to become, in Shelley's famous phrase, the legislator of the world, it has to face the instability of its own relation to truth. The critical investigation of legal rhetoric in literary fiction thus also and inevitably entails a negotiation of the intrinsic value of literary evidence.

**The Craft of Fiction** David Letzler, 2017-06. A 2017 Choice Outstanding Academic Title. What is the strange appeal of big books? The mega-novel, a genre of erudite tomes with encyclopedic scope, has attracted wildly varied responses, from fanatical devotion to trenchant criticism. Looking at intimidating mega-novel masterpieces from *The Making of Americans* to *2666*, David Letzler explores reader responses to all the seemingly random, irrelevant, pointless, and derailing elements that comprise these mega-novels' elements that he labels *craft*, after the computer science term for junk code. In *The Craft of Fiction*, Letzler suggests that these books are useful tools to help us understand the relationship between reading and attention. While mega-novel text is often

intricately meaningful or experimental sometimes it is just excessive and pointless On the other hand mega novels also contain text that though appearing to be cruft turns out to be quite important Letzler posits that this cruft requires readers to develop a sophisticated method of attentional modulation allowing one to subtly distinguish between text requiring focused attention and text that must be skimmed or even skipped to avoid processing failures The Cruft of Fiction shows how the attentional maturation prompted by reading mega novels can help manage the information overload that increasingly characterizes contemporary life *New York Magazine*, 1994-01-03 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

**Who's Who of Twentieth Century Novelists** Tim Woods, 2008-02-21 Taking in novelists from all over the globe from the beginning of the century to the present day this is the most comprehensive survey of the leading lights of twentieth century fiction Superb breadth of coverage and over 800 entries by an international team of contributors ensures that this fascinating and wide ranging work of reference will be invaluable to anyone with an interest in modern fiction Authors included range from Joseph Conrad to Albert Camus and Franz Kafka to Chinua Achebe Who's Who of Twentieth Century Novelists gives a superb insight into the richness and diversity of the twentieth century novel

Hints and Guesses Christopher J. Knight, 1997 The author of four truly important novels The Recognitions in 1955 J R in 1975 Carpenter's Gothic in 1985 and A Frolic of His Own in 1995 William Gaddis is considered by many literary scholars to be one of the outstanding novelists of the twentieth century to be spoken of in the same breath as James Joyce Robert Musil and Thomas Pynchon

**Satirizing Modernism** Emmett Stinson, 2017-06-01 Satirizing Modernism examines 20th century novels that satirize avant garde artists and authors while also using experimental techniques associated with literary modernism These novels such as Wyndham Lewis's The Apes of God William Gaddis's The Recognitions and Gilbert Sorrentino's Imaginative Qualities of Actual Things were under recognized and received poor reviews at the time of publication but have increasingly been acknowledged as both groundbreaking and deeply influential Satirizing Modernism analyzes these novels in order to present an alternative account of literary modernism which should be viewed neither as a radical break with the past nor an outmoded set of aesthetics overtaken by a later postmodernism In self reflexively critiquing their own aesthetics these works express an unconventional modernism that both revises literary history and continues to be felt today

**The Business of America** Graham Thompson, 2004-03-20 The Business of America examines the complex linking of business and nationhood in post war United States literature against the backdrop of changing concepts of the nation in the field of American Studies The first part of the book examines how white male literary culture has been largely hostile to business during this period and how it has represented transnational shifts in the nature of

business as threats to supposedly American values like the individual the family or freedom The book charts the way that such an uneasiness towards business relies upon a discourse about America business and empire that is increasingly untenable in the post war world By way of comparison The Business of America looks at how literature by women and by writers from different racial ethnic and sexual groups often deals with business from the more localised angle of work Graham Thompson shows how this attention to work provides a less abstract and more oppositional approach to the connection between business and America

**Figures of Belatedness** Javier Gascueña Gahete, Paula Martín Salván, 2006

**The Last Good Land** Eugenio Suárez-Galbán, 2011-01-01 Books studying the presence of Spain in American literature and the possible influence of Spain and its literature on American authors are still rare In 1955 appeared a pioneer work in this field Stanley T Williams The Spanish Background of American Literature But that book went no further than W D Howells Familiar Spanish Travels published in 1913 The Last Good Land covers most of the twentieth century including such groups as the Lost Generation and African American writers and exiles It also considers then recent revolution in Spanish cultural and historical thought introduced by Am rico Castro which several American writers discussed in this volume may be said to have anticipated Recent studies have expanded on Williams volumes but in the majority of cases these works limit their scope to a single period the nineteenth century the Spanish Civil War a movement predominantly Romanticism or authors known for their interest in Spain Irving Hemingway The result is often a lack of continuum or the exclusion of such authors as Saul Bellow William Gaddis or Richard Wright Within American literature itself The Last Good Land contains revisions of traditional interpretations of certain writers including Hemingway The variety of authors treated both in respect to ethnicity and gender guarantees a varied and global view of Spanish culture by American writers

**Paper Empire**

Joseph Tabbi, Rone Shavers, 2007 Celebrates and illuminates the legacy of one of America s most innovative and consequential 20th century novelists In 2002 following the posthumous publication of William Gaddis s collected nonfiction and his final novel and Jonathan Franzen s lengthy attack on him in The New Yorker a number of partisan articles appeared in support of Gaddis s legacy In a review in The London Review of Books critic Hal Foster suggested a reason for disparate responses to Gaddis s reputation Gaddis s unique hybridity his ability to write in the gap between two dispensations between science and literature theory and narrative and different orders of linguistic imagination Gaddis 1922 1998 is often cited as the link between literary modernism and postmodernism in the United States His novels The Recognitions JR Carpenter s Gothic and A Frolic of His Own are notable in the ways that they often restrict themselves to the language and communication systems of the worlds he portrays Issues of corporate finance the American legal system economics simulation and authenticity bureaucracy transportation and mass communication permeate his narratives in subject setting and method The essays address subjects as diverse as cybernetics theory the law media theory race and class music and the perils and benefits of globalization The collection also contains a memoir by Gaddis s son an unpublished interview with

Gaddis from just after the publication of JR and an essay on the Gaddis archive newly opened at Washington University in St Louis The editors acknowledge that we live in an age of heightened global awareness But as these essays testify few American writers have illuminated as poignantly or incisively just how much the systemic forces of capitalism and mass communication have impacted individual lives and identity imparting global dimensions to private pursuits and desires than William Gaddis     Encyclopedic Modernisms Kevin Daniel Attell,2003     **New York Magazine** ,1994-01-03 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
