Ethnic Identities In A Transnational World:

Ethnic Identities in a Transnational World John F. Stack, 1981-09-17 Race and Ethnicity in Latin America Peter Wade, 2010-05-12 For over ten years *Race and Ethnicity in Latin America* has been an essential text for students studying the region. This second edition adds new material and brings the analysis up to date. Race and ethnic identities are increasingly salient in Latin America. Peter Wade examines changing perspectives on Black and Indian populations in the region, tracing similarities and differences in the way these peoples have been seen by academics and national elites. Race and ethnicity as analytical concepts are re-examined in order to assess their usefulness. This book should be the first port of call for anthropologists and sociologists studying identity in Latin America.

Imagined Identities Gönül Pultar, 2014-04-14 How are identities being forged during the age of globalization? This collection of essays by scholars from various disciplines and regions of the world discusses both the construction and deconstruction of identity in its engagement with culture, ethnicity, and nationhood. The authors explore the tension resulting from the desire to create a new cultural space for identities that are at once national, regional, linguistic, and religious. Among the wide-ranging approaches, Tanja Stampfl looks at the elusiveness of cultural identity in Khaled Hosseini's *The Kite Runner*. Dawn Morais investigates issues of ethnicity and nationality in Malaysia's tourism advertising, and Cathy Waegner explores ethnic identities as globalized market commodities. Throughout the volume, identity is approached from a variety of sites: fiction, news analysis, film, theme parks, and field work, to contribute new insight and perspective to the well-worn debate over what identity signifies in societies where the existence of minorities, both indigenous and immigrant, challenges the dominant group.

Struggle for Ethnic Identity Pyong Gap Min, Rose Kim, 1999 Dr. Pyong Gap Min and Rose Kim present a compilation of narratives on ethnic identity written by first- and second-generation Asian American professionals. In an attempt to reconcile the dichotomies long associated with being both Asian and American, these narratives trace the formation of each author's ethnic identity and discuss its importance in shaping his or her professional career. The narratives touch upon common themes of prejudice and discrimination, loss and retention of ethnic subculture, ethnic versus non-ethnic friendship networks, and racial and inter-racial dating patterns. When coupled with Dr. Min's comprehensive introductory chapter on contemporary trends in the study of ethnicity, these narratives prove that constructing one's ethnicity is truly a dynamic process and serve as an invaluable resource for anyone interested in teaching or studying the concepts of ethnic identity.

Ethnic Capital in a Japanese Brazilian Commune Nobuko Adachi, 2017-02-16 This is a book about the power of ethnic capital and how it drives both the economics of and the quest for identity in a Japanese Brazilian commune. Adachi tells readers what this small diaspora community can teach us about how life in the trenches looks to those on the outskirts of the exploding transnational world economy. This book explores the various strategies locals use to compete with others with whom they are linked locally, nationally, and globally. Through the story of Kubo's daily life, Adachi offers insights into important aspects of social and linguistic theory as well as explicating how

cross border relations become more and more intertwined In a sense Kubo s story with its struggles to maintain its identity even its survival in an increasingly globalized world encapsulates many of the problems now faced by smaller communities around the world be they diasporic or regionally entrenched or ethnically racially or religiously composed Adachi explores the motivations for racial and ethnic boundary making based primarily on values and principles rather than purely physiological features by focusing on Kubo and its marketing of supposedly traditional Japanese cultural values in spite of the commune being located in the interior of Brazil To do this she incorporates notions from linguistic anthropology and sociolinguistics including problems of language maintenance the relationships between language and symbolic power and the intricacies of language and gender Doing so helps theorize the tensions between hybridity and purity entailed in the complexities of identity dynamics

Cultural Identity and Ethnicity in the Pacific Jocelyn Linnekin, Lin Poyer, 1990-01-01 *Transnationalism* Eliezer Ben Rafael, Yitzhak Sternberg, 2009 This book deals with transnationalism and captures its singularity as a generalized phenomenon The profusion of transnational communities is a factor of fluidity in social orders and represents confrontations between contingencies and basic socio cultural drives It has created a new era different from the past at essential respects This is an age of enriching cultural diversity fraught with threatening risks inextricably linked to contemporary globalization National sovereignty is eroded from above by global processes from below by aspirations of sub national groups and from the sides by transnational allegiances This is the backdrop against which this book delves into the fundamental issues relating to the nature scope and overall significance of transnationalism

Georges Woke Up Laughing Nina Glick Schiller, Georges Eugene Fouron, 2001-11-14 Combining history autobiography and ethnography Georges Woke Up Laughing provides a portrait of the Haitian experience of migration to the United States that illuminates the phenomenon of long distance nationalism the voicelessness of certain citizens and the impotency of government in an increasingly globalized world By presenting lively ruminations on his life as a Haitian immigrant Georges Eugene Fouron along with Nina Glick Schiller whose own family history stems from Poland and Russia captures the daily struggles for survival that bind together those who emigrate and those who stay behind According to a long standing myth once emigrants leave their homelands particularly if they emigrate to the United States they sever old nationalistic ties assimilate and happily live the American dream In fact many migrants remain intimately and integrally tied to their ancestral homeland sometimes even after they become legal citizens of another country In Georges Woke Up Laughing the authors reveal the realities and dilemmas that underlie the efforts of long distance nationalists to redefine citizenship race nationality and political loyalty Through discussions of the history and economics that link the United States with countries around the world Glick Schiller and Fouron highlight the forces that shape emigrants experiences of government and citizenship and create a transborder citizenry Arguing that governments of many countries today have almost no power to implement policies that will assist their citizens the authors provide insights into the ongoing sociological anthropological and political

effects of globalization Georges Woke up Laughing will entertain and inform those who are concerned about the rights of people and the power of their governments within the globalizing economy In my dream I was young and in Haiti with my friends laughing joking and having a wonderful time I was walking down the main street of my hometown of Aux Cayes The sun was shining the streets were clean and the port was bustling with ships At first I was laughing because of the feeling of happiness that stayed with me even after I woke up I tried to explain my wonderful dream to my wife Rolande Then I laughed again but this time not from joy I had been dreaming of a Haiti that never was from Georges Woke Up Laughing **Andean**

Entanglement Lui Hebron, John F. Stack, 1999-06-30 The ongoing reconstruction of world politics following the collapse of Soviet and Eastern European variants of communism have seemingly unleashed the power of ethnicity with a vengeance Stack Hebron and their contributors explore the concept of ethnicity in international relations seeking to address this most destabilizing yet ubiquitous dimension of the emerging new world order As a central force in international politics ethnicity and ethnonational movements raise two fundamental questions about the nature of power and politics in contemporary international relations First what is the relationship between ethnicity and conflict within across and among states Second what role does ethnicity play in exacerbating conflicts which result in the intervention by external forces both state and nonstate manifested by increasing levels of violence and spillover instability as exemplified by the Middle East the Asian Republics of the former Soviet Union and Yugoslavia This book is designed to provide scholars of international relations with a compelling approach to the study of ethnicity The study of ethnic nationalism is a growing area of scholarly inquiry not fully appreciated Thus this collection is designed to fill a void in the literature and as such will be of interest to students scholars and policy makers involved with issues of ethnicity and world politics Red Reckoning Mark Boulton, Tobias T.

Gibson, 2023-11-15 Though it ended more than thirty years ago the Cold War still casts a long shadow over American society

Kashmir and Sindh Suranjan Das,2001 Professor Das provides a fascinating study on the issue of ethnic politics in multi ethnic Third World countries and the non convergence of state and nation in this discussion of the Kashmir and Sindh questions The artificial de colonization process in the South Asian sub continent resulted in the construction of national frontiers for its two successor states that did not rest on a synchronization of ethnic and state boundaries Consequently cross border loyalties amongst significant sections of the population survived the boundaries imposed between the two successor states When in the context of centralizing nation building strategies ethnic political assertions occur in outlying or frontier areas of these nation states the distinction between domestic and external affairs or between home and foreign politics tends to lose its significance in the traditional sense Political actors from across the borders of neighbouring state can then deny the marks of their different objective nationalities and treat themselves as members of a single loyalty group Thus ethnic politics transcends its domestic contours and helps foment regional tensions In such circumstances ethnic assertions tend to constitute vital local or domestic ingredients that define the national security priorities within a particular region The current insurrection in Kashmir and turmoil in Sindh superbly demonstrate this pattern

Constructing Ethnic Identities Rachel Sharaby,2022-05-20 This book deals with how starting in the 1960s immigrant groups in Israel constructed their ethnic identity by reviving their ethnic festivals and turning them into part of Israeli society For the immigrants these festivals serve as a collective definitional ceremony with an intersection of ethnicity culture and identity They also help them to develop cultural and religious syncretism The discussion of their social and political leaders ethnic activism provides important insights about the ways in which immigrant leaders employ their ethnic tradition as a resource for mobilizing cultural social and political capital that will facilitate their penetration of the cultural mainstream

Chineseness particularly when social and economic stability is threatened and those in power are looking for a scapegoat

Global Taiwanese Fiona Moore, 2021-04-07 In *Global Taiwanese* Fiona Moore explores the different ways in which Taiwanese expatriates in London and Toronto along with professionals living in Taipei use their shared Taiwanese identities to construct and maintain global and local networks Based on a three year long ethnographic study that incorporates interviews with people from diverse backgrounds generations and histories this book explores what their different experiences tell us about migration in tolerant and hostile regimes *Global Taiwanese* considers the implications in leveraging their Taiwanese ethnic identity for both business and personal purposes As people become increasingly mobile ethnic identity becomes more important as a means of negotiating transnational encounters however at the same time the opportunities it offers are rooted in local cultural practices requiring professionals and other migrants to develop complex social strategies that link and cross the global and local levels With rich ethnographic detail this book contributes to the understanding of the migrant experience and how it varies from location to location how migration more generally changes in response to wider socioeconomic factors and finally of the specific case of Taiwan and how the distinctive nature of its diaspora emerges through wider discourses of Chineseness and pan Asian identity

The Mass Psychology of Ethnonationalism Dusan Kecmanovic, 2013-11-11 Throughout the nineteenth and twentieth centuries ethnonationalism has left its indelible mark on Europe and every other continent The latest events in the Balkans in central and eastern Europe and in the former Soviet Union unequivocally testify to the power and influence of ethnonationalism at the end of the second millennium What forces make people so committed to their ethnonational groups that they are ready to ignore all other concerns first and foremost the rights and interests of people of other ethnicities What is the social psychological and anthropological underpinning of ethnonationalism And finally why and how do people adhere to nation alist attitudes and beliefs These questions are virtually impossible to avoid for anyone who has directly felt the impact of ethnonationalism but they also present themselves to anyone who has indirectly experienced the prejudices unleashed by ethnonationalist forces This book attempts to answer all

these questions by focusing on national feeling and the social psychological and anthropological foundations that underly the sense of belonging that is essential to nationalism. No matter how qualitatively different nationalist attitudes and beliefs are from national sentiment, the latter has to be considered in any study of nationalism.
