## **Ethnic Nationalism And State Power The Rise Of Irish Nationalism afrikaner Nationalism And Zionism:**

**Ethnic Nationalism and State Power** M. Suzman, 2016-01-18 This controversial book rejects the view that the growth of Irish nationalism Afrikaner nationalism and Zionism was due primarily to issues of race religion or language Instead drawing on a new analytical framework and close historical analysis it shows how their ultimate success was the result of political economic and organisational factors conditioned by sustained conflict with the existing state and other ethnic groups

**Global Nationalism: Ideas, Movements And Dynamics In The Twenty-first Century** Pablo De Orellana, Nicholas Michelsen, 2022-10-04 The twenty first century is witnessing a truly transnational revival of a very old set of ideas Despite romantic attachments to old symbols these late modern nationalism movements are not simply replicas of the previous two waves of nationalism in the 1860s and 1920s Nor is it true that today s nationalism movements want simply to return to the past and effect a nationalist 1930s style retrenchment From Putin s macho revivalism through to Trump s shocking victory and Xi s strongman regionalism nationalists engage with the economic context of our time and address issues born of globalization Crucially in their vision for international relations they seek the destruction of key international norms in a drive to restore a vision of sovereignty predicated on a survivalist understanding of state power *Global Nationalism* edited and framed by Pablo de Orellana and Nicholas Michelsen brings together the latest research by up and coming early career researchers and scholars Beginning with a succinct history and typology of contemporary nationalism and its predecessors this book offers analysis of several cases of contemporary nationalism examining how specific movements define identity address grievances and propose identity based solutions Key themes and lessons emerge from the study of a variety of cases from the very ideas animating nationalist thought to their expression in a wide variety of nationalist movements around the world The reflections on the ecosystem of nationalist ideas and movements offered in this volume are a vital starting point in the study of contemporary nationalism as a global twenty first century phenomenon *The Unspoken Alliance* Sasha Polakow-Suransky, 2011-06-14 Prior to the Six Day War Israel was a darling of the international left vocally opposed to apartheid and devoted to building alliances with black leaders in newly independent African nations South Africa for its part was controlled by a regime of Afrikaner nationalists who had enthusiastically supported Hitler during World War II But after Israel s occupation of Palestinian territories in 1967 the country found itself estranged from former allies and threatened anew by old enemies As both states became international pariahs a covert and lucrative military relationship blossomed between these seemingly unlikely allies Based on extensive archival research and exclusive interviews with former generals and high level government officials in both countries *The Unspoken Alliance* tells a troubling story of Cold War paranoia moral compromises and startling secrets *Nationalism and Ethnic Conflict* Berch Berberoglu, 2005-12-13 This book examines the origins and development of nationalism and national movements in the twentieth century and provides an analysis of the nature and dynamics of nationalism and ethnic conflict in a variety of national settings Examining the intricate

relationship between class state and nation the book attempts to develop a critical approach to the study of nationalism and ethnonational conflict within the broader context of class relations and class struggles in the age of globalization The book consists of three parts made up of seven chapters Part I examines classical and contemporary conventional and Marxist theories of nationalism Part II provides a series of empirical comparisons of nationalism and ethnic conflict on a world scale focusing on the Third World the advanced capitalist countries and Eastern Europe and the former Soviet Union A highlight of this section of the book is a detailed comparative case study of the Palestinian and Kurdish nationalism and national movements Part III provides a political analysis of the relationship between class state and nation and lays out the class nature of nationalism and the role of the state in ethnonational conflicts that are the political manifestations of deeper class struggles that have been the driving force of nationalism and ethnic conflict in the era of globalization Berberoglu contends that future studies of nationalism and ethnonational conflict must pay closer attention to the dynamics of class forces that are behind the ideology of nationalism by examining national movements in class terms For only through a careful class analysis of these forces and their ideological edicts will we be able to clearly understand the nature of nationalism and ethnonational conflicts around the world [Ethnic Nationalism and the State](#) Lewis Mark Suzman,1996 **Irish Freedom** Richard

English,2008-09-04 Richard English's brilliant new book now available in paperback is a compelling narrative history of Irish nationalism in which events are not merely recounted but analysed Full of rich detail drawn from years of original research and also from the extensive specialist literature on the subject it offers explanations of why Irish nationalists have believed and acted as they have why their ideas and strategies have changed over time and what effect Irish nationalism has had in shaping modern Ireland It takes us from the Ulster Plantation to Home Rule from the Famine of 1847 to the Hunger Strikes of the 1970s from Parnell to Pearse from Wolfe Tone to Gerry Adams from the bitter struggle of the Civil War to the uneasy peace of the early twenty first century Is it imaginable that Ireland might as some have suggested be about to enter a post nationalist period Or will Irish nationalism remain a defining force on the island in future years a courageous and successful attempt to synthesise the entire story between two covers for the neophyte and for the exhausted specialist alike Tom Garvin Irish Times **Science, Technology, and Irish Modernism** Kathryn Conrad,Cóilín Parsons,Julie McCormick

Weng,2019-09-13 Since W B Yeats wrote in 1890 that the man of science is too often a person who has exchanged his soul for a formula the anti scientific bent of Irish literature has often been taken as a given Science Technology and Irish Modernism brings together leading and emerging scholars of Irish modernism to challenge the stereotype that Irish literature has been unconcerned with scientific and technological change The collection spotlights authors ranging from James Joyce Elizabeth Bowen Flann O'Brien and Samuel Beckett to less studied writers like Emily Lawless John Eglinton Denis Johnston and Lennox Robinson With chapters on naturalism futurism dynamite gramophones uncertainty astronomy automobiles and more this book showcases the far reaching scope and complexity of Irish writers engagement with innovations in science and

technology Taken together the fifteen original essays in *Science Technology and Irish Modernism* map a new literary landscape of Ireland in the twentieth century By focusing on writers often ignored interest in science and technology this book uncovers shared concerns between revivalists modernists and late modernists that challenge us to rethink how we categorize and periodize Irish literature

*Transatlantic History* Steven G. Reinhardt, Dennis Reinhartz, 2006 The transatlantic world has had immense influence on the direction of world history The six illuminating studies in *Transatlantic History* address cultural exchanges and intercontinental developments that contribute to our modern understanding of global communities Transatlantic history encompasses a variety of scholarly problems and approaches from multiple disciplines and volume editors Steven G Reinhardt and Dennis P Reinhartz have assembled a collection of essays that reflect the diversity within the field Introducing the book William McNeill provides a unifying overview of the concept and practice of transatlantic history by placing it within the larger context of world history The chapter authors bring distinctive styles and methods to the investigation of the processes of interaction and adaptation among Africans Native Americans and Europeans Their studies range from the Spanish imperial crisis in the 1600s to the urbanization of Europe and the Americas from graphic portrayals of the Atlantic world to the settlement of Ireland America and South Africa and the recent diaspora of West Africans Readers interested in world history communication and cultural studies will find *Transatlantic History* provocative and challenging as it convincingly argues for the importance of this new field

**Terrorist Histories** Caoimhe Nic Dhaibheid, 2016-11-03 This book addresses provides a series of in depth portraits of men and women who have been labelled terrorists from the 19th 20th and 21st centuries Bridging historical methodologies and theoretical approaches to terrorism studies it seeks to contribute to the developing historicising of terrorism studies This is achieved principally through a prosopographical approach In the preponderance of detailed statistical and quantitative data on the practice of terrorism and political violence the individuals who participate in terrorist acts are often obscured While ideologies and organisations have attracted much scholarly interest less is known of the personal trajectories into political violence particularly from a historical perspective The focus on a relatively narrow cast of high profile terrorist villains to a large part driven by popular and media attention results in a somewhat skewed picture of equal value arguably is a more sustained reflection on the lives of lesser known individuals The book sits at the juncture between terrorism studies historical biography and ethnography It comprises case studies of ten individuals who have engaged in political violence in the nineteenth twentieth and twenty first centuries in a number of locations and with a variety of ideological motivations from Russian inflected anarchism to Islamist extremism Through detailed empirical research crucial themes in the study of terrorism and political violence are explored the diverse

individual radicalisation pathways the question of disengagement and re engagement various counter terrorist and counter insurgency strategies adopted by governments and security forces and the changing nature and perception of terrorism over time Although not explicitly comparative a number of themes resonate between the case studies which will be drawn together in the conclusion to this book These include the role of migration in radicalisation the influence of radical family heritages the experience of imprisonment and the narratives which individuals construct to tell their own terrorist life stories It also provides an historically grounded answer to one of the most contentious and heated debates in recent literature on terrorism studies what leads a person to turn to political violence In examining the life narratives of a diverse range of men and women who at some point embraced violence this book seeks to contribute to a growing understanding of the entire arc of a terrorist lifespan from radicalisation to mobilisation to disengagement and beyond This book will be of much interest to students of political violence terrorism studies security studies and politics in general

Peace Settlements and Political Transformation in Divided Societies Adrian Guelke, 2022-10-03 Peace Settlements and Political Transformation in Divided Societies examines what happened to Northern Ireland and South Africa after their miraculous political settlements in the 1990s in which comparison between the two cases played a small but significant role The author extends the story by exploring the connections between these two deeply divided societies during the consolidation of their settlements He shows the ways in which their paths have subsequently diverged in both reality and perception At the outset of the transformation of the two polities the similarities between the two cases tended to be overstated In this context the book explains how the South African case came to be misidentified as an example of consociationalism and the influence that this has continued to exert on comparative studies of power sharing In the process other aspects of South Africa's political transformation including respect for the constitution and the rule of law have been overlooked and underappreciated In the case of Northern Ireland a missing element in the treatment of its settlement as a model for other deeply divided societies has been the role that external mediation played in the creation and survival of its institutions Northern Ireland's dependence on favourable external circumstances explains in large part why the Good Friday Agreement is now facing a threat to its survival By contrast South Africa's political institutions seem relatively secure despite the vast scale of the country's socio economic problems This book will be of interest to students researchers and scholars of conflict resolution and peace processes comparative politics ethnic politics and democratisation as well as those involved in the governance of deeply divided societies

Democracy and Ethnic Conflict A. Guelke, 2004-03-31 Democracy and Ethnic Conflict addresses the problem of establishing durable democratic institutions in societies afflicted by ethnic conflict While the holding of multi party elections usually plays a role in the ending of conflict consolidating democracy presents a much larger challenge as does preventing the perversion of democracy through the dominance of a particular ethnic group

The Crescent Moon and the Magen David Karel Valansi, 2018-02-20 The nationalist outlook of the Turkish state since the beginning of the Republican era in 1923

targeted uniform identity formation While Turkey did not recognize the existence of ethnic identities as long as they were Muslim non Muslims were challenging this ideal During this social engineering the religious minorities and the state had very turbulent relations based on mistrust resulting in many discriminative legislations The Republican story of the Jews provides significant insight to highlight the difficulties and challenges encountered in the formation of the Turkish Republic as well as the changes in the Turkish public with the new nation state in effect Following the Second World War a new state was established in the Middle East During the Cold War the Soviet threat led Turkey to recognize the State of Israel established as a Jewish state The main reasoning of Turkey in recognizing Israel was to be accepted to the Western camp While the bilateral relations of Turkey and Israel increased gradually a surprisingly high number of Turkish Jews nearly 40 percent of the Jewish community in Turkey immigrated to the new country This book is an attempt to investigate the establishment of the State of Israel Turkey s recognition of the Jewish state and its repercussions on the Turkish public between the years 1936 and 1956 It explains the establishment of the State of Israel and the first three decades of the Turkish Republic It includes the religious minorities of Turkey with a special focus on the Jewish community as it is one of the major links between Turkey and Israel It combines Turkish public reaction to the establishment and recognition of the State of Israel shedding light on the reasons of the mass Jewish immigration which is at the same time the second biggest immigration out of Turkey after the labor immigration to Europe starting from the 1960s

**Afrikaners in the New South Africa** Rebecca Davies,2009-02-28 How has the position of Afrikaners changed since the end of the Apartheid regime in South Africa While the links between Afrikaner nationalist identity and the apartheid regime have been irrevocably altered it is evident that this newly disempowered minority still commands a vast material and cultural capital Certain Afrikaans speakers have become important players in the new South Africa and on the world stage Davies argues that the global political economy and the closely associated ideology of globalization are major catalysts for change in Afrikaner identifications and positions She identifies multiple Afrikaner constituencies and identities and shows how they play out in the complex social economic and political landscape of South Africa Accessible informative and well written Afrikaners in the New South Africa is a vital contribution to our understanding of post apartheid South Africa It will be indispensable for those interested in South Africa identity politics globalization international political economy and geography Global Change, Civil Society and the Northern Ireland Peace Process C. Farrington,2008-01-23 Northern Ireland s Belfast Agreement has faced continual crises of implementation over a variety of security related issues This book places the implementation of the Belfast Agreement in a wide context to provide an analysis of why implementation has been so difficult Charles Stewart Parnell and His Times N. C. Fleming,Alan O'Day,2011-07-06 Charles Stewart Parnell 1846 1891 wrote remarkably little about himself but he has attracted the attention of many writers politicians and scholars both during his lifetime and ever since His controversial and provocative role in Irish and British affairs had him vilified as a murderer in The Times and afterwards

dramatically vindicated by the Westminster Parliament It cast him as a romantic hero to the young James Joyce and a self serving opportunist to the journalists of the Nation Parnell has been the subject of court cases parliamentary enquiries and debates journalism plays poems literary analysis and historical studies For the first time all these have been collected catalogued and cross referenced in one volume an invaluable resource for scholars of late nineteenth century Ireland and Britain Divided into fifteen chapters including a biographical sketch the volume contains information on manuscript and archival collections printed primary sources Parnell s writing Parnell s speeches in the House of Commons and outside Parliament contemporary journalism contemporary writing and contemporary illustrations on Irish affairs and a substantial list of scholarly work including biographies books articles chapters and theses This volume offers readers a clear record of the substantial material already available on Parnell and in doing so offers resources to future research in this area

**The Failure of the Middle East Peace Process?** Guy Ben-Porat,2008-04-10 This volume examines the gap between agreements and actual peace It offers different explanations for the successes and failures of the three processes in South Africa Northern Ireland and Israel Palestine and provides historical and comparative perspectives on the failure of the Middle East peace process

*Política* Phillip B. Gonzales,2016-10 *Política* offers a stunning revisionist understanding of the early political incorporation of Mexican origin peoples into the U S body politic in the nineteenth century Historical sociologist Phillip B Gonzales reexamines the fundamental issue in New Mexico s history namely the dramatic shift in national identities initiated by Nuevomexicanos when their province became ruled by the United States Gonzales provides an insightful rigorous and controversial interpretation of how Nuevomexicano political competition was woven into the Democratic and Republican two party system that emerged in the United States between the 1850s and 1912 when New Mexico became a state Drawing on newly discovered archival and primary sources he explores how Nuevomexicanos relied on a long tradition of political engagement and a preexisting republican disposition and practice to elaborate a dual party political system mirroring the contours of U S national politics *Política* is a tour de force of political history in the nineteenth century U S Mexico borderlands that reinterprets colonization reconstructs Euro American and Nuevomexicano relations and recasts the prevailing historical narrative of territorial expansion and incorporation in North American imperial history Gonzales provides critical insights into several discrete historical processes such as U S racialization and citizenship integration and marginalization accommodation and resistance internal colonialism and the long struggle for political inclusion in the borderlands shedding light on debates taking place today over Latinos and U S citizenship

**The Mortality and Morality of Nations** Uriel Abulof,2015-07-24 This book answers how mortality and morality figure and intertwine in the life and death of nations both in theory and in practice

**Hegemony in the Digital Age** Stephen M. E. Marmura,2010-07-08 Internet technology has arguably changed the rules by which individuals social movements and institutions compete for political and cultural influence in technologically advanced societies The author considers this reality through reference to the concept of

hegemony looking to the ways in which diverse actors in American civil society compete with one another while simultaneously challenging dominant sources of authority The Arab Israeli conflict is drawn upon as a boundary object holding direct interest to a wide range of state aligned lobbies broadly based social movements and marginalized extremist groups each of which hopes to affect the course of U S Mid East policy While various dimensions of internet use and activism are explored Stephen Marmura directs particular attention to the importance and limitations of the World Wide Web as a mass medium Examining phenomena ranging from mainstream news dissemination to the propaganda warfare visible online amongst racist religious fundamentalist and ultra nationalist organizations he argues the Net s greatest advantages are ultimately accrued by those most vested in the political status quo Marmura argues further that widespread use of the Web is likely contributing to processes of social fragmentation even as it reinforces ideological discourses favorable to state power
