makers Race Relations in Britain Tessa Blackstone, Bhikhu Parekh, Peter Sanders, 2005-06-27 Bringing together distinguished experts in the field of race relations this book addresses questions which are increasingly relevant in the current socio political context of Great Britain The kind of visions of multicultural Britain which are currently being canvassed and the problems which ethnic minorities continue to face are addressed together with an examination of the new policy initiatives which are needed to tackle these problems Race Relations in Britain falls into three parts which analyse contemporary trends articulating a vision of multicultural Britain and exploring important theoretical controversies identify the obstacles that stand in the way of a racism free Britain looking at current policy in areas such as immigration employment education the criminal justice system as well as the role of the media offer a vision of a multi cultural Britain advancing new policies based on current research **Ethnicity, Social Mobility, and Public Policy** Glenn C. Loury, Tariq Modood, Steven M. Teles, 2005-05-12 This major comparative study of the social mobility of ethnic minorities in the US and UK argues that social mobility must be understood as a complex and multi dimensional phenomenon incorporating the wealth and income of groups but also their political power and social recognition Written by leading sociologists economists political scientists geographers and philosophers in both countries the volume addresses issues as diverse as education work and employment residential concentration political mobilisation public policy and social networks while drawing larger lessons about the meaning of race and inequality in the two countries While finding that there are important similarities in the experience of ethnic and especially immigrant groups in the two countries the volume also concludes that the differences between the US and UK especially in the case of American blacks are equally important **Shaping Race Policy** Robert Lieberman, 2011-06-27 Shaping Race Policy investigates one of the most serious policy challenges facing the United States today the stubborn persistence of racial inequality in the post civil rights era Unlike other books on the topic it is comparative examining American developments alongside parallel histories of race policy in Great Britain and France Focusing on on two key policy areas welfare and employment the book asks why America has had such uneven success at incorporating African Americans and other minorities into the full benefits of citizenship Robert Lieberman explores the historical roots of racial incorporation in these policy areas over the course of the twentieth century and explains both the relative success of antidiscrimination policy and the failure of the American welfare state to address racial inequality He chronicles the rise and resilience of affirmative action including commentary on the recent University of Michigan affirmative action cases decided by the Supreme Court He also shows how nominally color blind policies can have racially biased effects and challenges the common wisdom that color blind policies are morally and politically superior and that race conscious policies are merely second best Shaping Race Policy has two innovative features that distinguish it from other works in the area First it is comparative examining American developments alongside parallel histories of race policy in Great Britain and France Second its argument merges ideas and institutions which are usually considered separate and competing factors into

a comprehensive and integrated explanatory approach The book highlights the importance of two factors America's distinctive political institutions and the characteristic American tension between race consciousness and color blindness in accounting for the curious pattern of success and failure in American race policy *Black British Culture and Society* Kwesi Owusu,2003-09-02 *Black British Culture and Society* brings together in one indispensable volume key writings on the Black community in Britain from the Windrush immigrations of the late 1940s and 1950s to contemporary multicultural Britain Combining classic writings on Black British life with new specially commissioned articles *Black British Culture and Society* records the history of the post war African and Caribbean diaspora tracing the transformations of Black culture in British society *Black British Culture and Society* explores key facets of the Black experience charting Black Britons struggles to carve out their own identity and place in an often hostile society The articles reflect the rich diversity of the Black British experience addressing economic and social issues such as health religion education feminism old age community and race relations as well as Black culture and the arts with discussions of performance carnival sport style literature theatre art and film making The contributors examine the often tense relationship between successful Black public figures and the media and address the role of the Black intellectual in public life Featuring interviews with noted Black artists and writers such as Aubrey Williams Mustapha Matura and Caryl Phillips and including articles from key contemporary thinkers such as Stuart Hall A Sivanandan Paul Gilroy and Henry Louis Gates *Black British Culture and Society* provides a rich resource of analysis critique and comment on the Black community's distinctive contribution to cultural life in Britain today , *Race Politics in Britain and France* Erik Bleich,2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel *The Deadly Ethnic Riot* Donald L. Horowitz,2023-11-15 Donald L Horowitz's comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethnic group on civilian members of another ethnic group Serious frequent and destabilizing these events result in large numbers of casualties Horowitz examines approximately 150 such riots in about fifty countries mainly in Asia Africa and the former Soviet Union as well as fifty control cases With its deep and thorough

scholarship incisive analysis and profound insights The Deadly Ethnic Riot will become the definitive work on its subject Furious and sadistic the riot is nevertheless directed against a precisely specified class of targets and conducted with considerable circumspection Horowitz scrutinizes target choices participants and organization the timing and supporting conditions for the violence the nature of the events that precede the riot the prevalence of atrocities during the violence the location and diffusion of riots and the aims and effects of riot behavior He finds that the deadly ethnic riot is a highly patterned but emotional event that tends to occur during times of political uncertainty He also discusses the crucial role of rumor in triggering riots the surprisingly limited role of deliberate organization and the striking lack of remorse exhibited by participants Horowitz writes clearly and eloquently without compromising the complexity of his subject With impressive analytical skill he takes up the important challenge of explaining phenomena that are at once passionate and calculative Donald L Horowitz s comprehensive consideration of the structure and dynamics of ethnic violence is the first full scale comparative study of what the author terms the deadly ethnic riot an intense sudden lethal attack by civilian members of one ethni

The Schematic State Debra Thompson, 2016-10-20 By examining the political development of racial classifications on the national censuses of the United States Canada and Great Britain *The Schematic State* maps the changing nature of the census from an instrument historically used to manage and control racial populations to its contemporary purpose as an important source of statistical information employed to monitor and rectify racial discrimination Through a careful comparative analysis of nearly two hundred years of census taking it demonstrates that changes in racial schemas are driven by the interactions among shifting transnational ideas about race the ways they are tempered and translated by nationally distinct racial projects and the configuration of political institutions involved in the design and execution of census policy This book argues that states seek to make their populations racially legible turning the fluid and politically contested substance of race into stable identifiable categories to be used as the basis of law and policy [Ethnicity without Groups](#)

Rogers Brubaker, 2006-09-01 Despite a quarter century of constructivist theorizing in the social sciences and humanities ethnic groups continue to be conceived as entities and cast as actors In this timely and provocative volume Brubaker challenges this pervasive and commonsense groupism and shows that ethnicity race and nation are not things in the world but perspectives on the world ways of seeing interpreting and representing the social world [Racial Conflict in Contemporary Society](#) John Stone, 1985 Examination of race relations passing references to Australian Aboriginal context

Boston Against Busing Ronald P. Formisano, 2012-01-01 Perhaps the most spectacular reaction to court ordered busing in the 1970s occurred in Boston where there was intense and protracted protest Ron Formisano explores the sources of white opposition to school desegregation Racism was a key factor Formisano argues but racial prejudice alone cannot explain the movement Class resentment ethnic rivalries and the defense of neighborhood turf all played powerful roles in the protest In a new epilogue Formisano brings the story up to the present day describing the end of desegregation orders in Boston and

other cities He also examines the nationwide trend toward the resegregation of schools which he explains is the result of Supreme Court decisions attacks on affirmative action white flight and other factors He closes with a brief look at the few school districts that have attempted to base school assignment policies on class or economic status The SAGE Handbook of Electoral Behaviour Kai Arzheimer, Jocelyn Evans, Michael S. these questions and a variety of other issues involving the experiences of immigrants in the city at the workplace and in schools and churches Their essays examine the issues of nationality citizenship law and politics that define the life of an immigrant population Focusing on the United States and France this volume is a social history and a legal and public policy study that comprehensively portrays the dilemmas immigrants present and face Contributors include Sophie Body Gendrot Danielle Boyzon Frader Andre Clement Decoufle Veronique de Rudder Lawrence H Fuchs Nathan Glazer Philip Gleason Stanley Lieberson Lance Liebman Daniele Lochak Michel Oriol Martin A Schain Peter H Schuck Roxane Silberman Werner Sollors Stephan Thernstrom Maryse Tripier Maris A Vinovskis and Myron Weiner *Negotiating Identities* Riva

Kastoryano, 2021-08-10 Immigration is even more hotly debated in Europe than in the United States In this pivotal work of action and discourse analysis Riva Kastoryano draws on extensive fieldwork including interviews with politicians immigrant leaders and militants to analyze interactions between states and immigrants in France and Germany Making frequent comparisons to the United States she delineates the role of states in constructing group identities and measures the impact of immigrant organization and mobilization on national identity Kastoryano argues that states contribute directly and indirectly to the elaboration of immigrants identity in part by articulating the grounds on which their groups are granted legitimacy Conversely immigrant organizations demanding recognition often redefine national identity by reinforcing or modifying traditional sentiments They use culture national references in Germany and religion in France to negotiate new political identities in ways that alter state composition and lead the state to negotiate its identity as well Despite their different histories Kastoryano finds that Germany France and the United States are converging in their policies toward immigration control and integration All three have adopted similar tactics and made similar institutional adjustments in their efforts to reconcile differences while tending national integrity The author builds her observations into a model of negotiations of identities useful to a broad cross section of social scientists and policy specialists She extends her analysis to consider how the European Union and transnational networks affect identities still negotiated at the national level The result is a forward thinking book that illuminates immigration from a new angle
