Understanding Ubuntu for Enhancing Intercultural Communications Mukuni, Joseph, Tlou, Josiah, 2021-05-28 Given the importance of cross cultural competence it is important that scholars from different parts of the world describe the conceptual frameworks underlying their cultures to provide people with knowledge helpful for understanding and navigating cultural barriers and promoting harmony and productivity in places of work The literature is replete with reference points for understanding Eurocentric worldviews Little has been written about non Eurocentric worldviews with respect to the subject

of socio cultural harmony and interpersonal relations such as Ubuntu Africa s indigenous philosophy and its relevancy This philosophy teaches the importance of maintaining good human relations and sensitivity to the wellbeing of other people both as individuals and collectively In the teachings of this African conceptual framework the wellbeing of others is more important than that of self Another important distinguishing feature of Ubuntu is that it places great value on communalism as opposed to individualism The tenets of Ubuntu include human centeredness teamwork collaboration cooperation respect for diversity of opinion and joint consideration of problems These tenets can be applied for intercultural competence and communications Understanding Ubuntu for Enhancing Intercultural Communications sheds some light on Ubuntu Africa s unique philosophy and explores how the knowledge of Ubuntu can help minimize cross cultural communication barriers Within this context the chapters work to make readers aware of the existence of an African worldview specifically Ubuntu and its possible contribution to interpersonal communication This book also shares the lived experiences of being born and raised in sub Saharan Africa where Ubuntu is a way of life This book is essential for businesses seeking to expand internationally and managers overseeing diverse workforces as well as business executives government officials public relations officers academicians researchers and students including those studying African studies world religions international business international relations management communication and more **Christian Missionaries,**

Ethnicity, and State Control in Globalized Yunnan Gideon Elazar,2023-10-31 Following the Communist Revolution of 1949 missionaries were kicked out of China and proselytizing was outlawed However since the beginning of the reform era China has witnessed a massive return of missionary workers Today there are more Christians in church on a given Sunday in China than anywhere else on the globe This book investigates the interaction of Western missionaries ethnic minorities and Han Chinese converts with the Chinese state in an increasingly globalized China Based on extensive ethnographic fieldwork conducted in Yunnan it tries to make sense of the disparity between official state rhetoric and everyday reality Examining morality in the context of the free market system spatial practices linguistic activity and Christian welfare organizations Gideon Elazar reveals the ways in which the previously conflicting Communist Party and Christian civilizing projects have reached a measure of convergence enabling local authorities to treat missionaries with a degree of tolerance Elazar shows how this unofficial arrangement relates to the social realities and challenges of the reform era including ethnic culture and identity Yunnan s many social problems and the integration of ethnic minorities into the state system By exploring the continuously shifting social and religious borders negotiated by converts missionaries and state authorities in Southwest China this book sheds light on the larger issue of contemporary religion in China s global era It will be of interest to researchers of religion Christianity and minority groups in the People s Republic of China Accounting for Ethnic and Racial Diversity Patrick Simon,Victor Piché,2013-08-21 By the end of the 20th century the ethnic question had resurfaced in public debate Every country had been affected by what is commonly known as cultural pluralism as a result of conflicts

interpreted from an ethnic perspective for instance in the Balkans and central Africa nationalist struggles such as the Basque country Quebec and Belgium and demands for recognition and political representation by new ethnic minorities This resurgence or extension of the salience of ethnicity in most of the societies around the world can now be found not only in public discourse policy making scientific literature and popular representation but also in the pivotal realm of statistics This volume explores the ethnic and racial classification in official statistics as a reflection of the representations of population and as an interpretation of social dynamics through a different lens Spanning all continents a wide range of international authors discuss how ethnic and racial classifications are built their lack of accuracy and their contribution to the representation of ethnic and racial diversity of multicultural societies This book was originally published as a special issue of *Ethnic and Racial Studies* Historicizing Anti-Semitism—Proceedings of the International Conference on the Post-September 11th New Ethnic/Racial Configurations in Europe and the United States: The Case of Anti-Semitism *Maison des Science de l'Homme (MSH) Paris, June 29-30, 2007* Mohammad H. Tamdgidi, Lewis R. Gordon, Ramón Grosfoguel, Eric Mielants, 2009-03-01 The articles collected in this Spring 2009 VII 2 issue of *Human Architecture Journal of the Sociology of Self Knowledge* entitled *Historicizing Anti-Semitism* were part of an international conference entitled *The Post September 11 New Ethnic Racial Configurations in Europe and the United States The Case of Anti-Semitism* organized by Lewis Gordon and Ramón Grosfoguel at the *Maison des Sciences de l'Homme MSH* in Paris on June 29 30 2007 Part of a series inaugurated by a discussion on Islamophobia they brought a majority Jewish group of scholars together in the hope of bringing to the forum a critical exchange and conversation among the participants The articles gathered here do not represent a unified voice but those often unheard in discussions of anti-Semitism The focus on anti-Semitism in this collection raises the question of how ancient and Medieval versions of anti-Jewish practices should be interpreted especially since even the term Semite came about as an effort in eighteenth century French and German scholarship to organize Arabic Aramaic and Hebrew under a single linguistic nomenclature which was crystallized in the nineteenth century in the work of the French scholar Ernest Renan Contributors include Lewis R Gordon also as journal issue guest editor Ramón Grosfoguel also as journal issue guest editor Eric Mielants also as journal issue guest editor David Ost James Cohen Santiago E Slabodsky Rabson Wuriga Walter Mignolo Ramón Grosfoguel Marc H Ellis Etienne Balibar Ivan Davidson Kalmar Martine Chard Hutchinson Michael L wy Jean Paul Rocchi and Mohammad H Tamdgidi also as journal editor in chief *Human Architecture Journal of the Sociology of Self Knowledge* is a publication of OKCIR The Omar Khayyam Center for Integrative Research in Utopia Mysticism and Science Utopistics For more information about OKCIR and other issues in its journals Edited Collection as well as Monograph and Translation series visit OKCIR's homepage *Religious Diversity in Post-Soviet Society* Ingo W Schröder, Dr Milda Ališauskiene, 2013-06-28 Since the end of state repression against religion two major processes have taken place in the formerly socialist countries historically dominant churches strive to reassert their position in society while new religious

groups and ideas from various parts of the world are proliferating This generates pluralism of religious communities and individual religious attitudes Religious Diversity in Post Soviet Society presents the first collection of ethnographies of this new religious diversity for Lithuania a country that has a long history of a dominant Catholic Church The authors reveal how Catholicism has become increasingly diversified and other religions Charismatic Protestantism Baltic Paganism Eastern religions and other alternative spiritualities are claiming their space in the religious field *The Next Space Race* Richard M. Ethnicity in China: A Critical Introduction Xiaowei Zang,2015-06-05 On the global stage China is often seen to be a homogenous nation when in fact it is a diverse multi ethnic society with 55 minority nationality groups recognized by the government Scattered across the vast landmass ethnic minorities in China occupy a precarious place in the state where the Confucian concept of cultural community plays down ethnicity and encourages integration of minority nationalities into the majority Han Chinese society This insightful book reveals the ethnic diversity underlying the People s Republic of China and examines how ethnicity intersects with social and political issues through key themes such as ethnic inequality the preservation and contribution of the rich traditions and customs of minority cultures and the autonomy of regions such as Tibet and Xinjiang The author investigates the important role of the state and Beijing s assimilation stance to show how its nationality policy driven by Confucian assimilation ideology has dictated China s own minority rights regime and influenced its foreign policy towards international minority rights This book by a distinguished scholar of ethnicity in China will be essential reading for students and scholars of race and ethnic relations nationalism and Chinese culture and society

Monthly Catalog of United States Government Publications ,1995 **Life and Moral Education in Greater China** John Chi-Kin Lee,Stephen Yam-wing Yip,Raymond Ho-Man Kong,2021-03-29 Arguing for life moral and values education as a bedrock for the original goals of school education this monograph explores how life and values education is conceptualised and imparted in Greater China Under a globalized transnational and technological world where there has been an increase in people s mobility in information and cultural exchanges there is also a growing emphasis on personal and professional ethics Against this context life moral and values education has gained attention for its impact on shaping students characters as future citizens However the cultivation of these values is made deeply diversified and complex by varying interpretations of life education and values education across societies given that different societies are influenced by different socio cultural traditions educational ideologies and religious beliefs The means and approaches towards life education also vary vastly from formal school subjects school based programmes as well as teachers and peers role modelling community services extra curricular activities school discipline charity work pastoral care and school ethos Recognising this

inherent diversity and complexity in the approach to and the dissemination of life education the contributors to this volume survey the practice of life education in Greater China so far suggesting that life education is most effective when it is diversified dynamic and developmental across contexts This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China

Violence, Discourse, and Politics in China's Uyghur Region Pablo A. Rodríguez-Merino, 2022-12-30 This book investigates how Uyghur related violent conflict and Uyghur ethnic minority identity religion and the Xinjiang region more broadly became constituted as a terrorism problem for the Chinese state Building on securitization theory Critical Terrorism Studies CTS and the scholarly definitional debate on terrorism it develops the concept of terroristization as a critical analytical framework for the study of historical processes of threat construction Investigating the violent events reported in Xinjiang since the early 1980s the evolving discursive patterns used by the Chinese state to make sense of violent incidents and the crackdown policies that the official terrorism discourse has legitimized the book demonstrates how the securitization and later terroristization of Xinjiang and the Uyghurs is the result of a discursive and political choice of the Chinese state The author reveals the contingent and unstable nature of such construction and how it problematizes the inevitability of the rationale behind China's war on terror that has prescribed a brutal crackdown as the most viable approach to governing the tensions that have historically characterized China's rule over the Turkic Muslim ethnic minorities in Xinjiang This book will be of interest to scholars and students of the politics of

contemporary China security and ethnic minority issues International Relations and Security as well as those adopting discursive approaches to the study of security notably those within the critical security and terrorism studies fields
