Ethnicity Propaganda Myth Making:

Ethnicity, Propaganda, Myth-making Tibor Frank, 1999 **Historians Across Borders** Nicolas Barreyre, Michael Heale, Stephen Tuck, Cecile Vidal, 2014-03-14 In this stimulating and highly original study of the writing of American history twenty four scholars from eleven European countries explore the impact of writing history from abroad Six distinguished scholars from around the world add their commentaries Arguing that historical writing is conditioned crucially by the place from which it is written this volume identifies the formative impact of a wide variety of institutional and cultural factors that are commonly overlooked Examining how American history is written from Europe the contributors shed light on how history is written in the United States and indeed on the way history is written anywhere The innovative perspectives included in *Historians across Borders* are designed to reinvigorate American historiography as the rise of global and transnational history is creating a critical need to understand the impact of place on the writing and teaching of history This book is designed for students in historiography global and transnational history and related courses in the United States and abroad for US historians and for anyone interested in how historians work **Arminius Vambéry and the British Empire** David Mandler, 2016-07-21 This book frames the fascinating life and influential works of the Hungarian Orientalist Arminius Vambéry 1832 1913 within the context of nineteenth century identity politics and contemporary criticisms of Orientalism Based on extensive research the book authoritatively presents a comprehensive narrative of Arminius Vambéry's multiple identities as represented in Hungary and in Great Britain The author traces Vambéry's development from a marginalized Jewish child to a recognized authority on Hungarian ethnogenesis as well as on Central Asian and Turkish geopolitical developments Throughout the book the reader meets Vambéry as the Hungarian traveler to Central Asia the British and Ottoman secret agent the mostly self taught professor of Oriental languages the political pundit and the highly sought after guest lecturer in Great Britain known for his fierce Russophobia pronouncements The author devotes special attention to the period that transformed Vambéry from a linguistically talented but penniless Hungarian Jewish youth into a pioneering traveler in the double disguise of a Turkish effendi masquerading as a dervish to Central Asia in 1863 64 He does so because Vambéry's published observations of an arena still closed to Europeans facilitated his emergence as a colorful personality and a significant authority on Central Asia and Turkey in Great Britain for the next fifty years In addition the book also devotes significant space to Vambéry's dynamic relationship to his most famous student Ignác Goldziher 1850 1921 who is considered to be one of the founders of modern Islamic Studies Lastly Vambéry's impact on Bram Stoker the author of *Dracula* is also explored Original Language English **Storia della storiografia** , 2007 *Map Men* Steven Seegel, 2018-06-29 More than just colorful clickbait or pragmatic city grids maps are often deeply emotional tales of political projects gone wrong budding relationships that failed and countries that vanished In *Map Men* Steven Seegel takes us through some of these historical dramas with a detailed look at the maps that made and unmade the world of East Central Europe through a long continuum

of world war and revolution As a collective biography of five prominent geographers between 1870 and 1950 Albrecht Penck Eugeniusz Romer Stepan Rudnytsky Isaiah Bowman and Count Pál Teleki *Map Men* reexamines the deep emotions textures of friendship and multigenerational sagas behind these influential maps Taking us deep into cartographical archives Seegel recreates the public and private worlds of these five mapmakers who interacted with and influenced one another even as they played key roles in defining and redefining borders territories nations and ultimately the interconnection of the world through two world wars Throughout he examines the transnational nature of these processes and addresses weighty questions about the causes and consequences of the world wars the rise of Nazism and Stalinism and the reasons East Central Europe became the fault line of these world changing developments At a time when East Central Europe has surged back into geopolitical consciousness *Map Men* offers a timely and important look at the historical origins of how the region was defined and the key people who helped define it

Redefining Hungarian Music from Liszt to Bartók Lynn M. Hooker, 2013-10 In the early twentieth century Bela Bartók and his circle argued for a new definition of Hungarianness one which centered around folksong rather than the Hungarian Gypsy style relied upon by Franz Liszt and his contemporaries This book traces the historical process that defined the conventions of Hungarian Gypsy style and reveals through this decades long debate what it meant to be Hungarian European and modern

Exiles from European Revolutions Sabine Freitag, 2003 Studies on exile in the 19th century tend to be restricted to national histories This volume is the first to offer a broader view by looking at French Italian Hungarian Polish Czech and German political refugees who fled to England after the European revolutions of 1848-49 The contributors examine various aspects of their lives in exile such as their opportunities for political activities the forms of political cooperation that existed between exiles from different European countries on the one hand and with organizations and politicians in England on the other and finally the attitude of the host country towards the refugees and their perceptions of the country which had granted them asylum

Neutrals and Non-Belligerents During the Second World War Neville Wylie, 2002 This collection provides a comprehensive English language survey of the conduct of neutral and non belligerent states during the war Instead of narrowly focusing on the few neutrals that survived the war intact the volume broadens our understanding of neutrality by including chapters on non belligerents and those neutrals of south east Europe such as Romania and Yugoslavia The essays focus on how individual neutral governments perceived international developments and throw light on the domestic political circumstances that critically affected their response to the course of the war They therefore provide the political context that has been overlooked in controversies surrounding their humanitarian and financial activities While based on the authors own research the essays draw widely on secondary literature and provide invaluable analytical introductions to the large amount of historical writing on these countries

The United States in Global Contexts Walter Grünzweig, 2004 The momentous events since September 11 2001 both challenged the field of American Studies and opened up new opportunities for research teaching and activism This book presents more than 160 short contributions by Americanists and Non Americanists from around the world in an essayistic brainstorm that brings together many questions asked about America and American Studies in the age of globalization

Hungary in the Cold War, 1945-1956 László Borhi, 2004-07-10 Based on new archival evidence examines Soviet Empire building in Hungary and the American response to it Hungary was not important enough to resist the Soviets its democratic opposition failed to win American sympathy the US simply had no leverage over the Soviets who sacrificed cooperation with the West for a closed sphere in Eastern Europe The imposition of a Stalinist regime assured Hungary s unconditional loyalty to Soviet imperial needs Unlike the GDR Eastern Europe was never considered a bargaining chip for bettering relations with the West The book analyzes why given all its idealism and power the US failed even in its minimal aims concerning the states of Eastern Europe Eventually both powers pursued power politics the Soviets in a naked form the US subtly but both with little regard for the fate of Hungarians

An Exiled Generation Heléna Tóth, 2014-10-30 Heléna Tóth considers exile in the aftermath of the revolutions of 1848-9 as a European phenomenon with global dimensions

Miklós Horthy: The Hungarian Anti-Hero, Miklós Horthy is perhaps one of history's most controversial figures Glorified by one side as a pragmatic leader and vilified on the other as a slippery Nazi puppet Admiral Miklós Horthy lived a life of adventure sorrow and complexity in one of history's darkest chapters From his time at sea during World War One to leading a nation surrounded by fascist barbarism in the dying days of World War Two this is Horthy's untold story An episode in history that is not only guaranteed to entertain but perhaps even change your very perception of history in its entirety Not a history buff Don't have the time to read thick textbooks Then this book is perfect for you It covers the life of Miklós Horthy at a quick and enjoyable pace that's easy to digest introducing small bits of 20th century history as you make your way through Plus there are pictures Though certainly not as academic as other books on the subject this one will give you a detailed look into everything you need to know about the Kingdom of Hungary's only Admiral Regent

Religion, Ethnicity, and Gender in Western Hunan during the Modern Era Paul R. Katz, 2021-08-19 This book explores how beliefs and practices have shaped the interactions between different ethnic groups in Western Hunan as well as considering how religious life has adapted to the challenges of modern Chinese history Combining historical and ethnographic methodologies chapters in this book are structured around changes that occurred during the interaction

between Miao ritual traditions and religions such as Daoism with particular focus on the commonalities and differences seen between Western Hunan and other areas of Southwest China In addition investigation is made into how gender and ethnicity have shaped such processes and what these phenomena can teach about larger questions of modern Chinese history As such this study transcends existing scholarship on Western Hunan which has stressed the impact of state policies and elite agendas by focusing instead on the roles played by ritual specialists Such findings call into question conventional wisdom about the standardization of Chinese culture as well as the integration of local society into the state by means of written texts Religion Ethnicity and Gender in Western Hunan during the Modern Era will prove valuable to students and scholars of history ethnography anthropology ethnic studies and Asian studies more broadly **Deutschland - ein**

Einwanderungsland? Edda Currle, Tanja Wunderlich, 2016-09-12 Keine ausführliche Beschreibung für Deutschland ein Einwanderungsland verfügbar *Patterns of Secularization* Daphne Halikiopoulou, 2017-05-15 The politicization of religion is a central feature of the modern world pointing to the continued relevance of the secularization debate does modernization result in the decline of the social and political significance of religion or rather in a reaffirmation of religious values This book examines the emergence of different patterns of secularization It identifies the circumstances under which religion may remain or cease to be politically active and legitimate in societies where secularization has been initially inhibited given a strong identification with the nation Arguing that in such societies the Church draws its power not only from its relationship with the state but also its relationship with the nation this book identifies two patterns of secularization a co-optation and b confrontation The redefinition of the Church state and nation nexus is likely to result in secularization if a the church obstructs the modernisation process church and state and b if external threat perceptions decline church and nation The simultaneous presence of these constraints serves to redefine the role of religion in the formation of national identity Comparing Greece and the Republic of Ireland as two cultural defence cases with a strong variation in the political and social salience of religion this book explains Ireland's current secularization drive in terms of the fluidity of Irish national identity and the rigidity of the Irish Catholic Church confrontation It contrasts this with the Greek case where the Church's resilience is linked to institutional flexibility on the one hand and a reliance on an ethnic religious national identity on the other co-optation In conceptualizing the contemporary role of religion in the Republic of Ireland and Greece this book draws a number of generalizable conclusions about the political role of religion in cultural defence cases *"The" Hungarian Quarterly*, 2009
