Ethnicity and Democratisation in the New Europe Karl Cordell, 2006-08-21 A broad ranging study that explores the complex relationship between ethnicity and democratization focusing on specific case studies including France Spain Slovakia the Czech Republic Russia Albania and Hungary Marrying the empirical and theoretical the book begins by conceptualizing the nature of ethnicity and relating these ideas to different theories of democracy and democratization The contributors locate ethnic experiences within a series of common frameworks to shed light on key issues such as the effect of democratization and authoritarian rule on ethnic tensions the extent to which ethnicity is constructed as an ideological tool whether democracy can only function if all citizens are fully assimilated **Ethnicity and Democratisation in the New Europe** Karl Cordell, 2006-08-21 A broad ranging study that explores the complex relationship between ethnicity and democratization focusing on specific case studies including France Spain Slovakia the Czech Republic Russia Albania and Hungary Marrying the empirical and theoretical the book begins by conceptualizing the nature of ethnicity and relating these ideas to different theories of democracy and democratization The contributors locate ethnic experiences within a series of common frameworks to shed light on key issues such as the effect of democratization and authoritarian rule on ethnic tensions the extent to which ethnicity is constructed as an ideological tool whether democracy can only function if all citizens are fully assimilated **Nationalist Politics and Everyday Ethnicity in a Transylvanian Town** Rogers Brubaker, Margit Feischmidt, Jon Fox, Liana Grancea, 2018-06-05 Situated on the geographic margins of two nations yet imagined as central to each Transylvania has long been a site of nationalist struggles Since the fall of communism these struggles have been particularly intense in Cluj Transylvania s cultural and political center Yet heated nationalist rhetoric has evoked only muted popular response The citizens of Cluj the Romanian speaking majority and the Hungarian speaking minority have been largely indifferent to the nationalist claims made in their names Based on seven years of field research this book examines not only the sharply polarized fields of nationalist politics in Cluj Transylvania and the wider region but also the more fluid terrain on which ethnicity and nationhood are experienced enacted and understood in everyday life In doing so the book addresses fundamental questions about ethnicity where it is when it matters and how it works Bridging conventional divisions of academic labor Rogers Brubaker and his collaborators employ perspectives seldom found together historical and ethnographic institutional and interactional political and experiential Further developing the argument of Brubaker s groundbreaking *Ethnicity without Groups* the book demonstrates that it is ultimately in and through everyday experience as much as in political contestation or cultural articulation that ethnicity and nationhood are produced and reproduced as basic categories of social and political life *Mediterranean Security Into the Coming Millennium* Stephen Blank, 1999 The papers included in this volume represent just such an effort to lay a firmer foundation for this continuing dialogue and to bring together different points of view In October 1998 the Strategic Studies Institute assisted by Pepperdine University assembled

a distinguished group of analysts from the United States Europe and the Middle East in Florence Italy At a conference titled Mediterranean Security into the Coming Millennium the task of the participants was to address current regional security issues in the Balkans Middle East and the Aegean as well as the perceptions of the individual states the relevant security organizations NATO and the European Union and the players and major external actors like the United States and Russia These papers cover the many areas discussed at the conference and should advance the debate on Mediterranean security both in the United States and abroad

Minority Rights and Minority Protection in Europe Timofey Agarin, Karl Cordell, 2016-03-24 In order to gain access to the EU nations must be seen to implement formal instruments that protect the rights of minorities This book examines the ways in which these tools have worked in a number of post communist states and explores the interaction of domestic and international structures that determine the application of these policies Using empirical examples and comparative cases the text explores three levels of policy making within sub state and national politics and within international agreements laws and policy blueprints This enables the authors to establish how domestic policymakers negotiate various structural factors in order to interpret rights norms and implement them long enough to gain EU accession Showing that it is necessary to focus upon the states of post communist Europe as autonomous actors and not as mere recipients of directives and initiatives from the West the book shows how underlying structural conditions allow domestic policy actors to talk the talk of rights protection without walking the walk of implementing minority rights legislation on their territories

National Minorities in Putin's Russia Federica Prina, 2015-10-05 Using a human rights approach the book analyses the dynamics in the application of minority policies for the preservation of cultural and linguistic diversity in Russia Despite Russia's legacy of ethno cultural and linguistic pluralism the book argues that the Putin leadership's overwhelming statism and promotion of Russian patriotism are inexorably leading to a reduction of Russia's diversity Using scores of interviews with representatives of national minorities civil society public officials and academics the book highlights the reasons why Russian law and policies as well as international standards on minority rights are ill equipped to withstand the centralising drive toward ever greater uniformity While minority policies are fragmented and feeble in contemporary Russia they are also centrally conceived which is exacerbated by a growing democratic deficit under Putin Crucially in today's Russia informal practices and networks are frequently utilised rather than formal channels in the sphere of diversity management Informal practices the book argues can at times favour minorities yet they more frequently disadvantage them and create the conditions for the co-optation of leaders of minority groups A dilution of diversity the book suggests is not only resulting in the loss of Russia's rich cultural heritage but is also impairing the peaceful coexistence of the individuals and groups that make up Russian society

Immigration, Integration and Mobility Adrian Favell, 2015-05-08 A compilation of Adrian Favell's innovative and agenda setting essays which since the late 1990s have charted the emergence of new migration patterns and politics in Europe Tackling in turn issues of multiculturalism immigrant integration free movement

high skilled mobilities new East West migrations and regional integration the collection offers a comprehensive introduction to the dynamic field of international migration studies At the same time it poses a sharp challenge to current complacencies challenging researchers to escape methodological nationalism and the unreflective reproduction of concepts and assumptions in the field as well as embracing new methodologies and theoretical resources Moving fluidly across intellectual boundaries as much as national borders Favell points the way forward to new thinking in this burgeoning and rapidly evolving interdisciplinary field

Ethnic Diversity and the Nation State David Smith, John Hiden, 2012-05-23 This book explores a largely forgotten legacy of multicultural political thought and practice from within Eastern Europe and examines its relevance to post Cold War debates on state and nationhood Featuring a Preface by former UK Home Secretary Charles Clarke it weaves theory and practice to challenge established understandings of the nation state Eastern Europe is still too often viewed through the prism of ethnic conflict which overlooks the region's positive contribution to modern debates on the political management of ethno cultural diversity and towards the construction of a united Europe beyond the nation state Based on extensive archival research in Estonia Latvia Germany Russia as well as the League of Nations Archive in Geneva this book explores this neglected multicultural legacy and assesses its significance in the post Cold War era which has seen the reappearance of national cultural autonomy laws in several states of Eastern Europe *Ethnic Diversity and the Nation State* is invaluable reading for students and scholars of political science history sociology and European studies and also for policy makers and others interested in minority rights and ethnic conflict regulation

The Kosovo crisis and the evolution of a post-Cold War European security Martin A Smith, Paul Latawski, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Analyses the international response to the crisis in Kosovo and its broader implications by examining its diplomatic military and humanitarian features Unravelling these implications can be challenging as it remains an event replete with paradoxes the

originality of this book's approach lies in its exploration of these paradoxes. The crisis in Kosovo has been a headline grabbing event; a serious study of the implications of the conflict on wider European security issues and institutions is urgently required.

Citizenship Today T. Alexander Aleinikoff, Douglas Klusmeyer, 2010-11-01. The forms, policies and practices of citizenship are changing rapidly around the globe and the meaning of these changes is the subject of deep dispute. *Citizenship Today* brings together leading experts in their field to define the core issues at stake in the citizenship debates. The first section investigates central trends in national citizenship policy that govern access to citizenship, the rights of aliens and plural nationality. The following section explores how forms of citizenship and their practice are and should be located within broader institutional structures. The third section examines different conceptions of citizenship as developed in the official policies of governments, the scholarly literature and the practice of immigrants, and the final part looks at the future for citizenship policy. Contributors include Rainer Bauböck, Austrian Academy of Sciences; Linda Bosniak, Rutgers University School of Law-Camden; Francis Mading Deng, Brookings Institute; Adrian Favell, University of Sussex, UK; Richard Thompson Ford, Stanford University; Vicki C. Jackson, Georgetown University Law Center; Paul Johnston, Citizenship Project; Christian Joppke, European University Institute, Florence; Karen Knop, University of Toronto; Micheline Labelle, Université du Québec, Montréal; Daniel Saxe, Concordia University, Montreal; and Patrick Weil, University of Paris 1 Sorbonne.

Language Policy and Language Issues in the Successor States of the Former USSR Sue Wright, 2000. This book looks at the question of language rights, the rights of minorities to remain monolingual if they so wish, and the rights of governments to promote the language of the majority as the language of the state. The central question is once again the thorny problem of whether linguistic rights are fundamental human rights and therefore inalienable and individual or whether they are group rights, since communication necessarily involves more than one individual. The context of this discussion is the situation of the Russian speakers in Latvia and Kyrgyzstan.

Mirrors of Justice Kamari Maxine Clarke, Mark Goodale, 2010. *Mirrors of Justice* is a groundbreaking study of the meanings of and possibilities for justice in the contemporary world. The book brings together a group of both prominent and emerging scholars to reconsider the relationships between justice, international law, culture, power and history through case studies of a wide range of justice processes. The book's eighteen authors examine the ambiguities of justice in Europe, Africa, Latin America, Asia, the Middle East and Melanesia through critical empirical and historical chapters. The introduction makes an important contribution to our understanding of the multiplicity of justice in the twenty-first century by providing an interdisciplinary theoretical framework that synthesizes the book's chapters with leading edge literature on human rights, legal pluralism and international law.

Managing Diversity through Non-Territorial Autonomy Tove H. Malloy, Alexander Osipov, Balázs Vizi, 2015-07-23. Non-territorial autonomy (NTA) is a statecraft tool that is increasingly gaining importance in societies seeking to accommodate demands by ethno-cultural groups for a voice in cultural affairs important to the protection and preservation of their identity, such as language, education and religion. As

states recognize the specific rights of identity minorities in multicultural and multi ethnic societies they are faced with a need to improve their diversity management regimes NTA offers policy makers a range of options for institutional design adaptable to specific circumstances and historical legacies It devolves degrees of power through legal frameworks and institutions in specific areas of ethno cultural life while maintaining social unity at the core level of society Throughout Europe and North America NTA exists and is implemented at a state regional and local level Much has been written about the concept of autonomy and its usage as a statecraft tool in states facing regional division but little literature addresses its non territorial institutional and public administration functions This edited volume seeks to fill this gap **Managing Diversity through Non Territorial Autonomy Assessing Advantages Deficiencies and Risks** carves a space for contextual knowledge production on NTA in law as well as social and political sciences Contextual knowledge involves a description of institutions and their functionality as well as of the institutional and legal frames protecting these What are the institutions bodies and functions that ethno cultural groups can draw on when seeking to have a voice over their own affairs as well as over issues in society related to their identity production How are these entities incorporated and empowered to have a voice What degree of voice do they have and how are they designed to project this voice Thus contextual knowledge also involves critical assessment and risk analysis as well as penetrating insights as to the unintended consequences and hidden agendas that may inform NTA policies This volume is to provide both policy makers and ethno cultural groups with a tool kit that promotes social cohesion while respecting diversity This is the first volume in a series of five which will examine the protection and representation of minorities through non territorial means

Can Liberal Pluralism be Exported? Will Kymlicka, Magda Opalski, 2002-01-17 Many post communist countries in Central Eastern Europe and the former Soviet Union are being encouraged and indeed pressured by Western countries to improve their treatment of ethnic and national minorities and to adopt Western models of minority rights But what are these Western models and will they work in Eastern Europe In the first half of this volume Will Kymlicka describes a model of liberal pluralism which has gradually emerged in most Western democracies and discusses what would be involved in adopting it in Eastern Europe This is followed by 15 commentaries from people actively involved in minority rights issues in the region as practitioners or academics and by Kymlicka's reply This volume will be of interest to anyone concerned with ethnic conflict in Eastern Europe and with the more general question of whether Western liberal values can or should be promoted in the rest of the world

European Integration and the Nationalities Question John McGarry, Michael Keating, 2006-09-27 A highly topical examination of the effect of European integration on relations between states and minority nations This new collection brings together the leading specialists in the field and covers a wide range of cases from Northern Ireland in the West to Estonia and Latvia in the East and Cyprus in the South East The contributors assess how European integration has affected the preparedness of states to accommodate minorities across a range of fundamental criteria including enhanced rights protection autonomy the provision

of a voice for minorities in the European and international arena and the promotion of cross border cooperation among communities dissected by state frontiers The comprehensive chapters stress the importance of the nationality question and the fact that contrary to the hopes and beliefs of many on the left and right it is not going to go away Beginning with an introductory essay that summarizes the impact of European integration on the nationalities question this accessible book will be of strong interest to scholars and researchers of politics nationalism ethnic conflict and European studies *Minority Languages in Europe* G. Hogan-Brun, S. Wolff, 2003-11-11

Minority languages in Europe as part of a common cultural heritage need protection The contributions to this book reflect urgent stimulating and productive debates among researchers in sociolinguistics linguistic anthropology politics and sociology and among language activists and policy makers At the heart of the debate are the effectiveness of the existing political and legal frameworks aimed at protecting linguistic and cultural diversity and prospects for the survival of minority languages in the process of European integration *Minority Recognition and the Diversity Deficit* Jessika Eichler, Kyriaki Topidi, 2022-11-17

This book addresses one of the most serious societal questions of our time how to create new spaces and frameworks for minority recognition given the State centric sovereignty discourse and the persisting equality jargon that dominate today's world By so doing it approaches minority rights by means of a critical engagement with its underlying premises Notably it makes attempts to both construct and reconfigure neglected legal categories in particular collective rights and to deconstruct domestic constitutional orders More precisely it does so through diametrically opposed levels of analysis that is top down and bottom up logics by exploring sociolegal strategies forms and formats of governance on the one hand and grassroots demands on the other Drawing on empirical findings in Europe and Latin America the book gives us a sense of how recognition needs to be contextualised against the background of right wing trends in Europe and the re building of the State in the Andes This is a fascinating study of one of the key questions engaging human rights minority studies and discrimination law *Turkey and the European Union* Ali Carkoglu, Barry Rubin, 2004-11-23

These papers examine the history behind Turkey's application for EU membership The contributors tackle the thorny issues of Cyprus Turkey's attitude towards a common defence policy and Turkish parliamentarians' views on the nation's relations with the European Union *The Politics of Belonging* Alain Dieckhoff, 2004-01-01

The Politics of Belonging represents an innovative collaboration between political theorists and political scientists for the purposes of investigating the liberal and pluralistic traditions of nationalism Alain Dieckhoff introduces an indispensable collection of work for anyone dealing with questions of identity ethnicity and nationalism
