Ethnicity Nationalism Theory Compari:

Ethnic Subnationalist Insurgencies in South Asia Jugdep S. Chima, 2015-03-24 This book provides a micro historical analysis of the emergence and contemporary dynamics of recent ethnic sub nationalist insurgencies in South Asia Using comparative case studies it discusses the causes of each insurgency analyses the trajectory and dynamics of each including attempts at resolution and highlights the wider theories of ethno nationalist insurgency and mobilization Bringing together an international group of contributors the book covers insurgencies in India Sri Lanka Pakistan Nepal and Bangladesh It questions why ethnic sub nationalist insurgencies occurred at particular points in time and not at others and explores the comparative trajectories of these movements The book goes on to discern reappearing patterns of conflict escalation de escalation through the method of comparative process tracing It argues that while identity is a necessary factor for insurgency it is not a sufficient one Instead ethnic mobilization and insurgency only emerge when it is activated by tension emerging from political competition between ethnic and central state elites These elite led dynamics when combined with favourable socio economic and political conditions make the ethnic masses primed to accept the often symbolically rich appeals from their leaders to mobilize against the central state Providing an important study on ethno nationalist insurgencies in South Asia the book will be of interest to those working in the fields of South Asian Politics Security Studies and Ethnic Conflict

Theoretical and Comparative Perspectives on Nationalism Taras Kuzio, 2007-12-17 This volume brings together 15 articles divided into four sections on the role of nationalism in transitions to democracy the application of theory to country case studies and the role played by history and myths in the forging of national identities and nationalisms The book develops new theories and frameworks through engaging with leading scholars of nationalism Hans Kohn s propositions are discussed in relation to the applicability of the term civic with no ethno cultural connotations to liberal democracies Rogers Brubaker over the usefulness of dividing European states into civic and nationalizing states when the former have historically been nationalizers Will Kymlicka on the applicability of multiculturalism to post communist states and Paul Robert Magocsi on the lack of data to support claims of revivals by national minorities in Ukraine The book also engages with transitology over the usefulness of comparative studies of transitions in regions that underwent only political reforms and those that had quadruple transitions implying simultaneous democratic and market reforms as well as state and

nation building A comparative study of Serbian and Russian diasporas focuses on why ethnic Serbs and Russians living outside Serbia and Russia reacted differently to the disintegration of Yugoslavia and the USSR The book dissects the writing of Russian and Soviet history that continues to utilize imperial frameworks of history analyzes the re writing of Ukrainian history within post colonial theories and discusses the forging of Ukraine s identity within theories of Others as central to the shaping of identities The collection of articles proposes a new framework for the study of Ukrainian nationalism as a broader research phenomenon by placing nationalism in Ukraine within a theoretical and comparative perspective **Theft of an Idol** Paul R. Brass,2020-09-01 As collective violence erupts in many regions throughout the world we often hear media reports that link the outbreaks to age old ethnic or religious hostilities thereby freeing the state its agents and its political elites from responsibility Paul Brass encourages us to look more closely at the issues of violence ethnicity and the state by focusing on specific instances of violence in their local contexts and questioning the prevailing interpretations of them

Through five case studies of both rural and urban public violence including police public confrontations and Hindu Muslim riots Brass shows how out of many possible interpretations applicable to these incidents government and the media select those that support existing relations of power in state and society Adopting different modes narrator detective and social scientist Brass treats incidents of collective violence arising initially out of common occurrences such as a drunken brawl the rape of a girl and the theft of an idol and demonstrates how some incidents remain localized while others are fit into broader frameworks of meaning thereby becoming useful for upholders of dominant ideologies Incessant talk about violence and its implications in these circumstances contributes to its persistence rather than its reduction Such treatment serves in fact to mask the causes of violence displace the victims from the center of attention and divert society s gaze from those responsible for its endemic character Brass explains how this process ultimately implicates everyone in the perpetuation of systems of violence **Nationalism and Ethnic Conflict, revised edition** Michael E. Rival Claims Bethany Ann Lacina, 2017-02-07 In this study of struggles for ethnoterritorial autonomy Bethany Lacina explains regional elites decision whether or not to fight for autonomy and the central government's response to this decision In India the prime minister's respective electoral ties to separate rival regional interests determine whether ethnoterritorial demands occur and whether they are repressed or accommodated Using new data on ethnicity and sub national discrimination in India national and state archives parliamentary records cross national analysis and her original fieldwork Lacina explains ethnoterritorial politics as a three sided interaction of the center and rival interests in the periphery Ethnic entrepreneurs use militancy to create national political pressure in favor of their goals when the prime minister lacks clear electoral reasons to court one regional group over another Second ethnic groups rarely win autonomy or mobilize for violence in regions home to electorally influential anti autonomy interests Third when a regional ethnic majority is politically important to the prime minister its leaders can deter autonomy demands within their borders while actively discriminating against minorities Rival Claims challenges the conventional beliefs that territorial autonomy demands are a reaction to centralized power and that governments resist autonomy to preserve central prerogatives The center has allegiances in regional politics and ethnoterritorial violence reflects the center's entanglement with rival interests in the periphery

Ethnonationalism Walker Connor,2018-06-05 Walker Connor perhaps the leading student of the origins and dynamics of ethnonationalism has consistently stressed the importance of its political implications In these essays which have appeared over the course of the last three decades he argues that Western scholars and policymakers have almost invariably underrated the influence of ethnonationalism and misinterpreted its passionate and nonrational qualities Several of the essays have become classics together they represent a rigorous and stimulating attempt to establish a secure methodological foundation for the study of a complicated phenomenon increasingly if belatedly recognized as the major cause of global political instability The book opens by reviewing a wide range of scholarship on ethnonationalism Connor examines nineteenth and early twentieth century debate among British scholars on the viability and desirability of the multinational state the American nation building school of thought that dominated the literature on political development in the post World War II era and the recent explosion of literature on ethnonationalism In the second part of the book he shows how progress in the study of ethnonationalism has been hampered by terminological confusion an inclination to perceive homogeneity even where heterogeneity thrives an unwarranted tendency to seek explanation for ethnic conflict in economic differentials and lack of historical perspective The book closes with a consideration of the inherent limitations of rational inquiry into the realm of group identity Blue Mountains Revisited Paul Hockings,1997 This Book Consists Of Twelve Papers Which Focus On The Nilgiri Region And Its People As A Whole Which Provides A Broad Canvas For Understanding The Various Communities That Live There **Peace and Ethnic Identity in Northern Ireland** Henry Jarrett,2017-10-16 Consociational power sharing is often perceived to be the method of conflict management that is most likely to succeed in deeply divided societies The case of Northern Ireland in particular is heralded by many as a consociational success story

Since the signing of the Good Friday Belfast Agreement in 1998 significant conflict transformation has taken place in the form of a considerable reduction in levels of violence and the establishment of power sharing between unionists and nationalists This book looks at what consociational power sharing achieves after its implementation specifically whether it can work to overcome existing identities in divided societies or whether it simply freezes divisions It argues that if consociational power sharing is facilitating a move towards a genuinely shared society this would be demonstrated in the focus of the election campaigns of Northern Ireland's political parties which would be almost exclusively based around socio economic issues affecting the whole population rather than narrow single identity concerns However the book claims that on the whole this has not been realised Although election campaigns are today less strident than they were in the pre 1998 era it remains the case that they usually foreground single identity symbolism as it is this that resonates with voters Whilst consociational power sharing has been very successful in reducing levels of violent conflict and facilitating elite level cooperation between unionists and nationalists it has been much less successful in reducing divisions within wider society to facilitate a genuinely shared Northern Irish identity By establishing an important middle ground between consociational proponents and critics this research will be of significant interest to students and scholars of ethnic politics political sociology conflict management and divided societies more generally
