Ethnography Through Thick Thin:

Ethnography through Thick and Thin George E. Marcus, 2021-06-08 In the 1980s George Marcus spearheaded a major critique of cultural anthropology expressed most clearly in the landmark book *Writing Culture* which he coedited with James Clifford. *Ethnography through Thick and Thin* updates and advances that critique for the late 1990s. Marcus presents a series of penetrating and provocative essays on the changes that continue to sweep across anthropology. He examines in particular how the discipline's central practice of ethnography has been changed by multi-sited approaches to anthropology and how new research patterns are transforming anthropologists' careers. Marcus rejects the view often expressed that these changes are undermining anthropology. The combination of traditional ethnography with scholarly experimentation, he argues, will only make the discipline more lively and diverse. The book is divided into three main parts. In the first, Marcus shows how ethnographers' tradition of defining fieldwork in terms of peoples and places is now being challenged by the need to study culture by exploring connections, parallels, and contrasts among a variety of often seemingly incommensurate sites. The second part illustrates this emergent multi-sited condition of research by reflecting it in some of Marcus's own past research on Tongan elites and dynastic American fortunes. In the final section, which includes the previously unpublished essay *Sticking with Ethnography through Thick and Thin*, Marcus examines the evolving professional culture of anthropology and the predicaments of its new scholars. He shows how students have increasingly been drawn to the field as much by such powerful interdisciplinary movements as feminism, postcolonial studies, and cultural studies as by anthropology's own traditions. He also considers the impact of demographic changes within the discipline, in particular the fact that anthropologists are no longer almost exclusively Euro-Americans studying non-Euro-Americans. These changes raise new issues about the identities of anthropologists in relation to those they study and indeed about what is to define standards of ethnographic scholarship. Filled with keen and highly illuminating observations, *Ethnography through Thick and Thin* will stimulate fresh debate about the past, present, and future of a discipline undergoing profound transformations. **Handbook**

Black Citymakers Marcus Anthony Hunter,2013-03-28 W E B DuBois immortalized Philadelphia s Black Seventh Ward neighborhood one of America s oldest urban black communities in his 1899 sociological study The Philadelphia Negro In the century after DuBois s study however the district has been transformed into a largely white upper middle class neighborhood Black Citymakers revisits the Black Seventh Ward documenting a century of banking and tenement collapses housing activism black led anti urban renewal mobilization and post Civil Rights political change

from the perspective of the Black Seventh Warders Drawing on historical political and sociological research Marcus Hunter argues that black Philadelphians were by no means mere casualties of the large scale social and political changes that altered urban dynamics across the nation after World War II Instead Hunter shows that black Americans framed their own understandings of urban social change forging dynamic inter and intra racial alliances that allowed them to shape their own migration from the old Black Seventh Ward to emergent black urban enclaves throughout Philadelphia These Philadelphians were not victims forced from their homes they were citymakers and agents of urban change Black Citymakers explores a century of socioeconomic cultural and political history in the Black Seventh Ward creating a new understanding of the political agency of black residents leaders and activists in twentieth century urban change *Researching 'Race' and Ethnicity* Yasmin Gunaratnam,2003-09-03 Drawing upon ethnographic research the author uses detailed case study examples to show how race and ethnicity is produced negotiated and resisted in qualitative research encounters
